UNITED NATIONS  NATIONS UNIES

POSTAL ADDRESS— ADRESSE POSTALE UNITED NATIONS, N.Y. 10017
CABLE ADDRESS—ADRESSE TELEGRAPHIQUE UNATIONS NEWYORK

REFERENCE. C.N.181.1989.TREATIES-9 (Depositary Notification)

MONTREAL PROTOCOL ON SUBSTANCES THAT DEplete
THE OZONE LAYER
CONCLUDED AT MONTREAL ON 16 SEPTEMBER 1987
DECISION OF THE FIRST MEETING OF THE PARTIES
AS CONCERNS ANNEX A

The Secretary-General of the United Nations, acting in his capacity as depositary, recalls that the value for the Ozone depleting potential for halon-2402 was not determined at the time of the adoption of the Protocol, and that in Annex A to the Protocol the comment "to be determined" was inserted opposite the name of that product.

In that connection, the Secretary-General communicates:

In accordance with the relevant provisions of article 11 of the Protocol, the Parties decided, at their First Meeting held in Helsinki, on 5 May 1989, to set the value for the O2 depleting potential for halon-2402 to 6.0.

The figure "6.0" is therefore to replace the words "to be determined" in the said Annex A to the Protocol.

Relevant indications to the effect of the above will be inserted in the original. Moreover the corresponding corrections should be effected in the certified true copies of the Protocol circulated under cover of depositary notification C.N.239.1987.TREATIES-1 of 27 October 1987.

28 August 1989
