EXPLANATORY NOTE

The Alphabetical Index appears in a new form in this cumulative index.

Entries are made for countries and subjects. Countries are listed in alphabetical order of the country-signatory, followed by a “catch word” taken from the title of the treaty. The subjects are followed by the countries-signatories, again followed by “catch words” when needed to identify the treaty.

Under subjects and countries three form-headings are used: (1) “as non-signatory” under countries when a country is the subject of a treaty but not a party to it; (2) “multipartite” under subjects and countries for treaties with more than three parties; (3) “GIA” (General International Agreements) for agreements included in the “General International Agreements” section of the Index.

References are indicated by date to the Chronological Index and to the volume and page of the Treaty Series. The Treaty number has been omitted except in cases of treaties listed under the headings “multipartite” and “GIA”. For treaties published in the League of Nations Treaty Series, only the date and number, preceded by “LoN” are given, without reference to the volume or page.
