## **NOTE BY THE SECRETARIAT**

Under Article 102 of the Charter of the United Nations every treaty and every international agreement entered into by any Member of the United Nations after the coming into force of the Charter shall, as soon as possible, be registered with the Secretariat and published by it. Furthermore, no party to a treaty or international agreement subject to registration which has not been registered may invoke that treaty or agreement before any organ of the United Nations. The General Assembly, by resolution 97 (I), established regulations to give effect to Article 102 of the Charter (see text of the regulations, vol. 859, p. VIII).

The terms "treaty" and "international agreement" have not been defined either in the Charter or in the regulations, and the Secretariat follows the principle that it acts in accordance with the position of the Member State submitting an instrument for registration that so far as that party is concerned the instrument is a treaty or an international agreement within the meaning of Article 102. Registration of an instrument submitted by a Member State, therefore, does not imply a judgement by the Secretariat on the nature of the instrument, the status of a party or any similar question. It is the understanding of the Secretariat that its action does not confer on the instrument the status of a treaty or an international agreement if it does not already have that status and does not confer on a party a status which it would not otherwise have.

## GENERAL INTRODUCTION

This is the twenty first volume of the *Cumulative Index* which continues the same format and is based on the same principles as the Index No. 20. It covers the treaties and international agreements contained in volumes 1201 to 1251 of the United Nations *Treaty Series*. The volumes 1199 and 1200, containing 78 maps and therefore posing difficulties for reproduction, were not published at the time of preparation of the current Index and will be included in one of the subsequent Cumulative Indexes.

Please also note that the indexation of volumes 1237 and 1247 was based on their first proofs because of printing delays.

The volume consists of two sections, each preceded by an explanatory note.

In the *first section*, "Chronological Index", treaties and international agreements are listed in the order of the dates on which they were adopted, signed or opened for signature or accession, etc.

The *second section*, "Alphabetical Index", refers to treaties and international agreements by a party and by subject.

In the present volume, all multilateral instruments (including those that appeared in volumes 1-12 as part of a special section "General International Agreements") are listed in the first section.

### *References*

Entries in both sections contain references to treaty numbers and volume and page numbers.

Treaty numbers for instruments included in the United Nations *Treaty Series* consist of a Roman numeral and an Arabic numeral, joined by a colon (i.e., I:19175; II:860). The Roman numeral I signifies treaties and international agreements *registered* with the Secretariat; Roman numeral II signifies treaties and international agreements *filed and recorded* by the Secretariat. The Arabic numeral indicates the serial number assigned to the instrument within categories I and II.

Treaties and international agreements appearing in the League of Nations *Treaty Series* are identified by the symbol "LoN" followed by the Arabic number of the treaty registration.

Volume numbers in the United Nations *Treaty Series* are in Arabic numerals; those in the League of Nations *Treaty Series* are in Roman numerals.

Two dates joined by a hyphen (e.g., 1978,2-17 Nov) indicate the first and the last dates in a series of exchanges of notes constituting an agreement. Two dates divided by a stroke (e.g., 1980,18 Dec/1981,27 Feb) indicate, on the other hand, an exchange on the two dates specified, without exchanges of notes in the intervening period.

The dates of the actions such as accession, declaration, ratification, etc., are the dates of deposit of the corresponding instrument or notification.

# **CHRONOLOGICAL INDEX**

## EXPLANATORY NOTE

(See also the GENERAL INTRODUCTION)

The Chronological Index is a list of treaties and international agreements arranged by order of date(s) on which they were adopted, signed or opened for signature or accession.

The Chronological Index includes the following data and sequence:

(1) date (year, day, month); (2) place of signature; (3) signatories; (4) form and title of the instrument and references to related entries, if any, including *See* and *See also* references; (5) languages of the original instrument; (6) treaty number; (7) volume number; and (8) page number.

In using the Index, however, it should be noted that:

- (a) Where an instrument bears more than one date, it appears under the earliest date, and *See*-references are made under succeeding dates directing the reader to the date under which the full entry can be found.
- (b) Subsequent actions (e.g., amendments, extensions, modifications, etc.) to *bilateral* instruments are listed under the date of the original instrument. If the original instrument was included in a previous UNTS *Cumulative Index*, any subsequent actions found in volumes 1201 to 1251 are entered under the earliest date when the change in the status of the instrument recorded in those volumes occurred.
- (c) Any formalities (e.g., amendments, modifications, withdrawals, etc.) affecting the status of a *multilateral* instrument are entered under the date of the original instrument. If a multilateral instrument appears for the first time in volumes 1201 to 1251, the volume and page where it can be found are indicated in the corresponding columns at the right margin. The information on multilateral instruments included in previous Indexes is given in the current Index under *See*-references.

Please, also note that:

- (1) The *See*-reference is used to: (a) refer to an original instrument by date, volume and page number; (b) refer to related entries appearing in previous Indexes and having the same registration number as the original instrument.
- (2) The *See also*-reference is used to: (a) refer to any additional entries relating to, but having registration numbers different from that of the instrument in question; (b) refer to an instrument whose entry into force came as a result of another agreement or action (e.g., termination/amendment of a previous agreement).
