[ENGLISH TEXT – TEXTE ANGLAIS]

“The Government of Austria has examined the declaration made by the State of Libya upon ratification of the Convention on the Rights of Persons with Disabilities.

Austria considers that by referring to its national legislation and to the Islamic sharia, Libya has made a declaration of a general and indeterminate scope which amounts to a reservation. This reservation does not clearly define for the other States Parties to the Convention the extent to which the reserving State has accepted the obligations of the Convention.

Austria therefore considers the reservation to be incompatible with the object and purpose of the Convention and objects to it.

This objection shall not preclude the entry into force of the Convention between the Republic of Austria and the State of Libya. The Convention will thus become operative between the two states without Libya benefitting from the aforementioned reservation.”
