NOTE BY THE SECRETARIAT

Under Article 102 of the Charter of the United Nations every treaty and every international agreement entered into by any Member of the United Nations after the coming into force of the Charter shall, as soon as possible, be registered with the Secretariat and published by it. Furthermore, no party to a treaty or international agreement subject to registration which has not been registered may invoke that treaty or agreement before any organ of the United Nations. The General Assembly, by resolution 97 (I), established regulations to give effect to Article 102 of the Charter (see text of the regulations, vol. 859, p. VIII).

The terms "treaty" and "international agreement" have not been defined either in the Charter or in the regulations, and the Secretariat follows the principle that it acts in accordance with the position of the Member State submitting an instrument for registration that so far as that party is concerned the instrument is a treaty or an international agreement within the meaning of Article 102. Registration of an instrument submitted by a Member State, therefore, does not imply a judgement by the Secretariat on the nature of the instrument, the status of a party or any similar question. It is the understanding of the Secretariat that its action does not confer on the instrument the status of a treaty or an international agreement if it does not already have that status and does not confer on a party a status which it would not otherwise have.

NOTE DU SECRÉTARIAT

Aux termes de l'Article 102 de la Charte des Nations Unies, tout traité ou accord international conclu par un Membre des Nations Unies après l'entrée en vigueur de la Charte sera, le plus tôt possible, enregistré au Secrétariat et publié par lui. De plus, aucune partie à un traité ou accord international qui aurait dû être enregistré mais ne l'a pas été ne pourra invoquer ledit traité ou accord devant un organe des Nations Unies. Par sa résolution 97 (I), l'Assemblée générale a adopté un règlement destiné à mettre en application l'Article 102 de la Charte (voir texte du règlement, vol. 859, p. IX).

Le terme « traité » et l'expression « accord international » n'ont été définis ni dans la Charte ni dans le règlement, et le Secrétariat a pris comme principe de s'en tenir à la position adoptée à cet égard par l'Etat Membre qui a présenté l'instrument à l'enregistrement, à savoir que pour autant qu'il s'agit de cet Etat comme partie contractante l'instrument constitue un traité ou un accord international au sens de l'Article 102. Il s'ensuit que l'enregistrement d'un instrument présenté par un Etat Membre n'implique, de la part du Secrétariat, aucun jugement sur la nature de l'instrument, le statut d'une partie ou toute autre question similaire. Le Secrétariat considère donc que les actes qu'il pourrait être amené à accomplir ne confèrent pas à un instrument la qualité de « traité » ou d'« accord international » si cet instrument n'a pas déjà cette qualité, et qu'ils ne confèrent pas à une partie un statut que, par ailleurs, elle ne posséderait pas.

Considering that no provision of this Agreement may be interpreted as exempting the States Parties to this Agreement from their obligations under other international agreements, especially the General Agreement on Tariffs and Trade,

Have decided, in pursuit of the above, to conclude this Agreement:

Article 1

Objectives

1. The EFTA States and Romania shall during a transitional period ending not later than 31 December 2002 gradually establish a free trade area, in accordance with the provisions of the present Agreement.

2. The objectives of this Agreement, which is based on trade relations between market economies and on the respect of democratic principles and human rights, are:

(a) to promote, through the expansion of reciprocal trade, the harmonious development of the economic relations between the EFTA States and Romania and thus to foster in the EFTA States and in Romania the advance of economic activity, the improvement of living and employment conditions, and increased productivity and financial stability;

(b) to provide fair conditions of competition for trade between the States Parties to this Agreement;

(c) to contribute in this way, by the removal of barriers to trade, to the harmonious development and expansion of world trade.

Article 2

Scope

The Agreement shall apply:

(a) to products falling within Chapters 25 to 97 of the Harmonized Commodity Description and Coding System,¹ excluding the products listed in Annex I;

(b) to products specified in Protocol A, with due regard to the arrangements provided for in that Protocol;

(c) to fish and other marine products as provided for in Annex II; originating in an EFTA State or Romania.

Article 3

Rules of origin and co-operation in customs administration

1. Protocol B lays down the rules of origin and methods of administrative co-operation.

2. The States Parties to this Agreement shall take appropriate measures, including regular reviews by the Joint Committee and arrangements for administrative cooperation, to ensure that the provisions of Articles 4 to 9, 14 and 23 of the Agreement and Protocol B are effectively and harmoniously applied, and to reduce, as far as possible, the formalities imposed on trade, and to achieve mutually satisfactory solutions to any difficulties arising from the operation of those provisions.

Article 4

Customs duties on imports and charges having equivalent effect

1. No new customs duty on imports or charge having equivalent effect shall be introduced in trade between the EFTA States and Romania.

2. Upon the date of entry into force of this Agreement, the EFTA States shall abolish all customs duties on imports and any charges having equivalent effect for products originating in Romania, except for products specified in Annex III for which customs duties on imports and charges having equivalent effect shall be progressively abolished in accordance with the provisions laid down in that Annex.

¹ See "International Convention on the Harmonized Commodity Description and Coding System", in United Nations, *Treaty Series*, vol. 1503, p. 3.

3. For the products specified in Annex IV originating in an EFTA State, Romania shall abolish all customs duties on imports and any charges having equivalent effect in accordance with the provisions laid down in that Annex.

Article 5

Basic duties

1. For each product the basic duty to which the successive reductions set out in this Agreement are to be applied, shall be the Most Favoured Nation rate of duty applied on 30 April 1993.

2. If, after the entry into force of this Agreement, any tariff reduction is applied on an erga omnes basis, in particular reductions implemented as a result of the Uruguay Round of Multilateral Trade Negotiations or of the renegotiation of the Protocol of Accession of Romania to the GATT,¹ such reduced duties shall replace the basic duties referred to in paragraph 1 as from the date when such reductions are applied.

3. The reduced duties calculated in accordance with Article 4 shall be applied rounded to the first decimal place or, in case of specific duties, to the second decimal place.

Article 6

Customs duties of a fiscal nature

1. The provisions of paragraphs 1 to 3 of Article 4 shall also apply to customs duties of a fiscal nature, except as provided for in Protocol C.

2. The States Parties to this Agreement may replace a customs duty of a fiscal nature or the fiscal element of a customs duty by an internal tax.

Article 7

Customs duties on exports and charges having equivalent effect

1. No new customs duty on exports or charge having equivalent effect shall be introduced in trade between the EFTA States and Romania.

2. The EFTA States and Romania shall abolish between them on the date of entry into force of the Agreement any customs duties on exports and any charges having equivalent effect, except as provided for in Annex V.

Article 8

Quantitative restrictions on imports and measures having equivalent effect

1. No new quantitative restriction on imports or measures having equivalent effect shall be introduced in trade between the EFTA States and Romania.

2. Quantitative restrictions and measures having equivalent effect on imports into the EFTA States shall be abolished on the date of entry into force of the Agreement, except as provided for in Annex VI.

3. Quantitative restrictions and measures having equivalent effect on imports into Romania shall be abolished on the date of entry into force of the Agreement, except as provided for in Annex VII.

¹ United Nations, *Treaty Series*, vol. 807, p. 312.

entry into force of the Agreement except as provided for in Annex VIII.

3. Quantitative restrictions on exports from Romania and measures having equivalent effect shall be abolished on the date of entry into force of the Agreement except as provided for in Annex IX.

Article 10

General exceptions

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants and the environment; the protection of national treasures possessing artistic, historic or archaeological value; the protection of intellectual property; rules relating to gold or silver; or the conservation of exhaustible natural resources, if such measures are made effective in conjunction with restrictions on domestic production or consumption. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the States Parties to this Agreement.

Article 11

State monopolies

1. The States Parties to this Agreement shall ensure that any state monopoly of a commercial character be adjusted, subject to the provisions laid down in Protocol D, so that no discrimination regarding the conditions under which goods are procured and marketed will exist between nationals of the EFTA States and of Romania.

2. The provisions of this Article shall apply to any body through which the competent authorities of the States Parties to this Agreement, in law or in fact, either directly or indirectly supervise, determine or appreciably influence imports or exports between the

States Parties to this Agreement. These provisions shall likewise apply to monopolies delegated by the State to others.

Article 12

Information procedure on draft technical regulations

1. The EFTA States and Romania shall notify each other, at the earliest practicable stage and in accordance with the provisions laid down in Annex X, of draft technical regulations and draft amendments thereto, which they intend to issue.

2. The States Parties to this Agreement shall endeavour to implement this procedure within two years from the entry into force of the Agreement. If this does not turn out to be fully possible, the Joint Committee shall prolong this period.

Article 13

Trade in agricultural products

1. The States Parties to this Agreement declare their readiness to foster, in so far as their agricultural policies allow, harmonious development of trade in agricultural products.

2. In pursuance of this objective each individual EFTA State and Romania shall conclude a bilateral arrangement providing for measures to facilitate trade in agricultural products.

3. The States Parties to this Agreement shall apply their regulations in veterinary, plant health and health matters in a non-discriminatory fashion and shall not introduce any new measures that have the effect of unduly obstructing trade.

Article 14

Internal taxation

1. The States Parties to this Agreement shall refrain from any measure or practice of an in-

ternal fiscal nature establishing, whether directly or indirectly, discrimination between the products originating in an EFTA State and like products originating in Romania.

2. Products exported to the territory of one of the States Parties to this Agreement may not benefit from repayment of internal taxation in excess of the amount of direct or indirect taxation imposed on them.

Article 15

Payments

1. Payments relating to trade between an EFTA State and Romania and the transfer of such payments to the territory of the State Party to this Agreement where the creditor resides shall be free from any restrictions.

2. The States Parties to this Agreement shall refrain from any exchange or administrative restrictions on the grant, repayment or acceptance of short and medium-term credits covering commercial transactions in which a resident participates.

3. Until a full convertibility of Romanian currency in the meaning of Article VIII of the Articles of Agreement of the International Monetary Fund¹ is introduced, Romania reserves the right to apply exchange restrictions connected with the granting or taking up of short and medium-term credits to the extent permitted according to Romania's status under the IMF, provided that these restrictions are applied in a non-discriminatory manner. They shall be applied in such a manner as to cause the least possible disruption to this Agreement. Romania shall inform the Joint Committee promptly of the introduction of such measures and of any changes therein.

Article 16

Public procurement

1. The States Parties to this Agreement consider the effective liberalization of their respective public procurement markets as a desirable and important objective of this Agreement.

2. As of the entry into force of this Agreement, the EFTA States shall grant companies from Romania access to contract award procedures on their respective public procurement markets according to the Agreement on Government Procurement of 12 April 1979,² as amended by a Protocol of Amendments of 2 February 1987,³ negotiated under the auspices of the General Agreement on Tariffs and Trade. Romania shall, taking into account the restructuring and development process of its economy, gradually ensure that companies from the EFTA States have access on the same principles to contract award procedures on its public procurement market.

3. As soon as possible after the entry into force of this Agreement the States Parties to this Agreement shall progressively develop and adjust the rules, conditions and practices governing the participation in public procurement contracts awarded by public authorities and public undertakings, and by private undertakings which have been granted special or exclusive rights, so as to ensure free access and transparency, and that there is no discrimination between potential suppliers from the States Parties to this Agreement. A full balance of rights and obligations between the States Parties to this Agreement shall be established not later than at the end of the transitional period.

4. The Joint Committee shall recommend or agree, as appropriate, the practical modalities for this development including, inter alia, scope, timetable and rules to be applied.

5. The States Parties concerned shall endeavour to accede to the relevant Agreements

¹ United Nations, *Treaty Series*, vol. 2, p. 39.

² *Ibid.*, vol. 1235, p. 258.

³ *Ibid.*, vol. 1511, p. 184.

negotiated under the auspices of the General Agreement on Tariffs and Trade.

Article 17

Protection of intellectual property

1. The States Parties to this Agreement shall grant and ensure adequate, effective and non-discriminatory protection of intellectual property rights. They shall adopt and take adequate, effective and non-discriminatory measures for the enforcement of such rights against infringement thereof, and in particular against counterfeiting and piracy. Particular obligations of the States Parties are contained in Annex XI.

2. The States Parties to this Agreement shall take all necessary measures as soon as possible after the entry into force of the Agreement to comply with the substantive provisions of the multilateral conventions which are specified in Article 2 of Annex XI and shall make best endeavours to adhere to them as well as to multilateral agreements facilitating co-operation in the field of the protection of intellectual property rights.

3. In the field of intellectual property, the States Parties to this Agreement, shall not grant treatment less favourable to each others' nationals than that accorded to nationals of any other State. Any advantage, favour, privilege or immunity deriving from:

(a) bilateral agreements in force for a State Party to this Agreement at the entry into force of this Agreement as notified to the other States Parties by 1 January 1994,

(b) existing and future multilateral agreements, including regional agreements on economic integration to which not all of the States Parties to this Agreement are Parties, may be exempted from this obligation, provided that it does not constitute an arbitrary or unjustifiable discrimination of nationals of the other States Parties.

4. Two or more States Parties to this Agreement may conclude further agreements exceeding the requirements of this Agreement, provided that such agreements shall be open to all other States Parties to this Agreement on terms equivalent to those under the agreements and that they shall be ready to enter into good faith negotiations to this end.

5. The States Parties to this Agreement shall agree upon appropriate modalities for technical assistance and co-operation of respective authorities of the States Parties to this Agreement. To this end, they shall co-ordinate efforts with relevant international organizations.

Article 18

Rules of competition concerning undertakings

1. The following are incompatible with the proper functioning of this Agreement in so far as they may affect trade between an EFTA State and Romania:

(a) all agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition;

(b) abuse by one or more undertakings of a dominant position in the territories of the States Parties to this Agreement as a whole or in a substantial part thereof.

2. As from the third year from the entry into force of this Agreement, the provisions of paragraph 1 shall also apply to the activities of public undertakings, and undertakings for which the Parties grant special or exclusive rights, in so far as the application of these provisions does not obstruct the performance, in law or in fact, of the particular public tasks assigned to them.

3. If a State Party to this Agreement considers that a given practice is incompatible with the provisions of paragraphs 1 and 2 and if such practice causes or threatens to cause serious prejudice to the interest of that State Party or material injury to its domestic indus-

try, it may take appropriate measures after consultations within the Joint Committee or after thirty days following referral for such consultation.

Article 19

State aid

1. Any aid granted by a State Party to this Agreement or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it may affect trade between an EFTA State and Romania, be incompatible with the proper functioning of this Agreement.

2. Any practises contrary to paragraph 1 should be assessed on the basis of the criteria set out in Annex XII.

3. For the purpose of applying the provisions of paragraphs 1 and 2, the States Parties to this Agreement recognize that during the first five years after the entry into force of this Agreement Romania shall be regarded as an area where the standard of living is abnormally low or where there is serious unemployment, implying that Romania may grant aid with a higher intensity than would be tolerated for EFTA States according to the criteria set out in Annex XII. The Joint Committee may, taking into account the economic situation of Romania, decide on prolongation of the application of this provision.

4. The States Parties to this Agreement shall ensure transparency of state aid measures by exchanging information as provided in Annex XIII.

5. If a State Party to this Agreement considers that a given practice is incompatible with the provisions of paragraph 1, it may take appropriate measures against this practice, which shall not be in excess of the injury caused by the practice, under the conditions and in accordance with the procedures laid down in Article 25.

Article 20

Dumping

If an EFTA State finds that dumping within the meaning of Article VI of the General Agreement on Tariffs and Trade is taking place in trade with Romania, or if Romania finds that dumping within this meaning is taking place in trade with an EFTA State, the State Party concerned may take appropriate measures against this practice in accordance with the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade¹ and with the procedure laid down in Article 25.

Article 21

Emergency action on imports of particular products

Where any product is being imported in such increased quantities and under such conditions as to cause, or threaten to cause:

(a) serious injury to domestic producers of like or directly competitive products in the territory of the importing State Party to this Agreement, or

(b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region, the State Party concerned may take appropriate measures under the conditions and in accordance with the procedure laid down in Article 25.

Article 22

Structural adjustment

1. Exceptional measures of limited duration which derogate from the provisions of Article 4 may be taken by Romania in the form of increased customs duties.

2. These measures may only concern infant industries, or certain sectors undergoing restructuring or facing serious difficulties, par-

¹ United Nations, *Treaty Series*, vol. 651, p. 320.

ticularly where these difficulties produce important social problems.

3. Customs duties on imports applicable in Romania to products originating in the EFTA States introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the EFTA States. The total value of imports of the products which are subject to these measures may not exceed 15% of total imports of industrial products from the EFTA States, as defined in Article 2, during the last year for which statistics are available.

4. These measures shall be applied for a period not exceeding five years unless a longer duration is authorized by the Joint Committee. They shall cease to apply at the latest at the expiration of the transitional period.

5. No such measures can be introduced in respect of a product if more than three years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having an equivalent effect concerning that product.

6. Romania shall inform the Joint Committee of any exceptional measures it intends to take and, at the request of the EFTA States, consultations shall be held in the Joint Committee on such measures and the sectors to which they apply before they are applied. When taking such measures Romania shall provide the Joint Committee with a schedule for the elimination of the customs duties introduced under this Article. This schedule shall provide for a phasing out of these duties starting at the latest two years after their introduction, at equal annual rates. The Joint Committee may decide on a different schedule.

Article 23

Re-export and serious shortage

Where compliance with the provisions of Articles 7 and 9 leads to:

(a) re-export towards a third country against which the exporting State Party to this Agree-

ment maintains for the product concerned quantitative export restrictions, export duties or measures or charges having equivalent effect; or

(b) a serious shortage, or threat thereof, of a product essential to the exporting state Party to this Agreement;

and where the situations referred to above give rise or are likely to give rise to major difficulties for the exporting State Party, that State Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 25. The measures shall be non-discriminatory and be eliminated when conditions no longer justify their maintenance.

Article 24

Balance of payments difficulties

1. Where an EFTA State or Romania is in serious balance of payments difficulties, or under imminent threat thereof, the EFTA State or Romania, as the case may be, may, in accordance with the conditions established under the General Agreement on Tariffs and Trade, adopt trade restrictive measures, which shall be of limited duration and may not go beyond what is necessary to remedy the balance of payments situation. The measures shall be progressively relaxed as balance of payments conditions improve and they shall be eliminated when conditions no longer justify this maintenance. The EFTA State or Romania as the case may be, shall inform the other States Parties to this Agreement and the Joint Committee forthwith of their introduction and, whenever practicable, of a time schedule for their removal.

2. The States Parties to this Agreement shall, nevertheless, endeavour to avoid the imposition of restrictive measures for balance of payments purposes.

Article 25

Procedure for the application of safeguard measures

1. Before initiating the procedure for the application of safeguard measures set out in the

following paragraphs of the present Article, the States Parties to this Agreement shall endeavour to solve any differences between them through direct consultations, and inform the other States Parties to this Agreement thereof.

2. Without prejudice to paragraph 6 of the present Article, a State Party which considers resorting to safeguard measures shall promptly notify the other States Parties and the Joint Committee thereof and supply all relevant information. Consultations between the States Parties shall take place without delay in the Joint Committee with a view to finding a commonly acceptable solution.

3. (a) As regards Article 19 the States Parties concerned shall give to the Joint Committee all the assistance required in order to examine the case and, where appropriate, eliminate the practice objected to. If the State Party in question fails to put an end to the practice objected to within the period fixed by the Joint Committee or if the Joint Committee fails to reach an agreement after consultations, or after thirty days following referral for such consultations, the State Party concerned may adopt the appropriate measures to deal with the difficulties resulting from the practice in question.

(b) As regards Articles 20, 21 and 23, the Joint Committee shall examine the case or the situation and may take any decision needed to put an end to the difficulties notified by the State Party concerned. In the absence of such a decision within thirty days of the matter being referred to the Joint Committee, the State Party concerned may adopt the measures necessary in order to remedy the situation.

(c) As regards Article 31, the State Party concerned shall supply the Joint Committee with all relevant information required for a thorough examination of the situation with a view to seeking a commonly acceptable solution. If the Joint Committee fails to reach such a solution or if a period of three months has elapsed from the date of notification, the State Party concerned may take appropriate measures.

4. The safeguard measures taken shall be notified immediately to the States Parties to

this Agreement and to the Joint Committee. They shall be restricted with regard to their extent and to their duration to what is strictly necessary in order to rectify the situation giving rise to their application and shall not be in excess of the injury caused by the practice or the difficulty in question. Priority shall be given to such measures as will least disturb the functioning of the Agreement. The measures taken by Romania against an action or an omission of an EFTA State may only affect the trade with that State. The measures taken against an action or omission of Romania may be only taken by that or those EFTA States the trade of which is affected by the said action or omission.

5. The safeguard measures taken shall be the object of regular consultations within the Joint Committee with a view to their relaxation, substitution or abolition as soon as possible.

6. Where exceptional circumstances requiring immediate action make prior examination impossible, the State Party concerned may, in the cases of Articles 20, 21 and 23 apply forthwith the precautionary and provisional measures strictly necessary to deal with the situation. The measures shall be notified without delay and consultations between the States Parties to this Agreement shall take place as soon as possible within the Joint Committee.

Article 26

Security exceptions

Nothing in this Agreement shall prevent a State Party to this Agreement from taking any measures which it considers necessary:

(a) to prevent the disclosure of information contrary to its essential security interests;

(b) for the protection of its essential security interests or for the implementation of international obligations or national policies

i) relating to the traffic in arms, ammunition and implements of war, provided that such measures do not impair the conditions of competition in respect of

- products not intended for specifically military purposes, and to such traffic in other goods, materials and services as is carried on directly or indirectly for the purpose of supplying a military establishment; or
- ii) relating to the non-proliferation of biological and chemical weapons, nuclear weapons or other nuclear explosive devices; or
 - iii) taken in time of war or other serious international tension constituting threat of war.

Article 27

The Joint Committee

1. The implementation of this Agreement shall be supervised and administered by the Joint Committee established under the Geneva Declaration, which will also have the powers and competences entrusted to the Joint Committee under this Agreement.

2. For the purpose of the proper implementation of the Agreement, the States Parties to this Agreement shall exchange information and, at the request of any State Party to this Agreement, shall hold consultations within the Joint Committee. The Committee shall keep under review the possibility of further removal of the obstacles to trade between the EFTA States and Romania.

3. The Joint Committee may take decisions in the cases provided for in this Agreement. On other matters the Committee may make recommendations.

Article 28

Procedures of the Joint Committee

1. For the proper implementation of this Agreement the Joint Committee shall meet whenever necessary but at least once a year. Each State Party to this Agreement may request that a meeting be held.

2. The Joint Committee shall act by common agreement.

The States Parties to this Agreement may instruct the Joint Committee to examine this request and, where appropriate to make recommendations to them, particularly with a view to opening negotiations.

The Annexes and the Protocols to this Agreement are an integral part of it. The Joint Committee may decide to amend the Annexes, and Protocols A and B.

Article 33

Trade relations governed by other Agreements

This Agreement applies to trade relations between, on the one side, the individual EFTA States and, on the other side, Romania, but not to the trade relations between individual EFTA States, except if otherwise provided for in this Agreement.

¹ Austria reserves the right not to include transit traffic related matters in such discussions and in arrangements which may result therefrom.

Article 34

Customs unions, free trade areas and frontier trade

This Agreement shall not prevent the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade to the extent that these do not negatively affect the trade regime and in particular the provisions concerning rules of origin provided for by this Agreement.

Article 35

Territorial application

This Agreement shall apply to the territories of the States Parties to this Agreement.

Article 36

Amendments

Amendments to this Agreement other than those referred to in Article 32, which are approved by the Joint Committee, shall be submitted to the States Parties to this Agreement for acceptance and shall enter into force if accepted by all the States Parties to this Agreement. PROTOCOL A

CONCERNING PRODUCTS REFERRED TO IN SUB-PARAGRAPH (b)
OF ARTICLE 2

Article 1

The provisions of the Agreement shall apply to the products listed in Table I.

Article 2

1. In order to take account of differences in the cost of the agricultural raw materials incorporated in the goods specified in the Tables referred to in this Article, the Agreement does not preclude:

- (i) the levying, upon import, of a variable component or fixed amount, or the application of internal price compensation measures;
- (ii) the application of measures adopted upon export.

2. The price compensation measures shall not exceed the differences between the domestic price and the world market price of the agricultural raw materials incorporated in the goods concerned. If, however, the domestic price of an agricultural raw material in the country of origin is lower than the world market price, the importing country may take this fact into account when calculating the compensatory amounts.

3. The price compensation system as outlined in paragraphs 1 and 2 shall not restrict in any way the pursuance of the respective agricultural policies of the EFTA States and of Romania or the taking of any measures under such policies.

Article 3

1. For products listed in Tables II, III, IV, V and VI, the respective EFTA State shall accord to Romania the concessions indicated in those Tables.

2. The treatment to be accorded by Iceland is laid down in Table VII. The customs duties are indicated in List 1 and the duties of a fiscal nature in List 2 of the Table. Iceland may, however, replace these duties with other price compensation measures in accordance with paragraphs 1 and 2 of Article 2 but any such action shall not result in a treatment less favourable for Romania for products laid down in Table VII than that accorded by Iceland to the European Economic Community.

Article 4

1. For products listed in Table VIII Romania shall accord to the EFTA States the concessions indicated in paragraphs 3 and 4 below.
2. Romania shall define, in accordance with the provisions of paragraphs 1 and 2 of Article 2 and not later than 1 July 1995, the agricultural element for the products listed in Table VIII. The agricultural element can be replaced by price compensation measures.
3. Duties on imports applicable in Romania, from the date of entry into force of the Agreement until 31 December 1995, to products mentioned in Table VIII, shall be those in force on 30 April 1993, but if as a result of reforms of the Romanian agricultural policy the incidence of the agricultural element is increased, Romania shall inform the Joint Committee, which may accept an increase of the duty concerned to the extent of this incidence.
4. For the products listed in Table VIII Romania shall progressively eliminate the non-agricultural element before 1 January 2000, in accordance with the timetable established by the Joint Committee.

Article 5

1. The EFTA States shall notify Romania and Romania shall notify the EFTA States of all price compensation measures applied under Article 2 of this Protocol.
2. Romania and the EFTA States shall inform each other of all changes in the treatment accorded to the European Economic Community.

Article 6

The EFTA States and Romania shall review at two-yearly intervals the development of their trade in products covered by this Protocol. A first review shall be held before the end of 1993. In the light of these reviews and taking into account the arrangements between the States Parties to this Agreement and the European Economic Community in this field and in GATT, the EFTA States and Romania shall decide on possible changes to the product coverage of this Protocol as well as on a possible development of the rules concerning price compensation systems.

ANNEX XPROCEDURE FOR THE NOTIFICATION OF DRAFT TECHNICAL REGULATIONSArticle 1

For the purpose of this Annex:

- (a) "Technical specification" means a specification contained in a document which lays down the characteristic required of a product such as level of quality, performance, safety or dimensions, including the requirements applicable to the product as regards terminology, symbols, testing and test methods, packaging, marking or labelling;
- (b) "Technical regulations" means technical specifications, including the relevant administrative provisions, the observance of which is compulsory, de jure or de facto, in the case of marketing or use in a Contracting Party or in a major part of it, except those laid down by local authorities;
- (c) "Draft technical regulation" means the text of a technical specification including administrative provisions, formulated with the aim of enacting it or of ultimately having it enacted as a technical regulation, the text being at a stage of preparation at which substantial amendments can still be made;
- (d) "Product" means all goods covered by this Agreement.

Article 1

1. The notification shall:

- (a) include the full text of the draft technical regulation both in the original language and in a full translation or a summary into English;
- (b) indicate whether the draft technical regulation is identical with a technical specification in the subject matter concerned, worked out by an international or regional body, or whether it deviates from such specifications; when deviating from such specifications the reasons for the deviations shall be given;
- (c) state the name and address of the national authority competent to give further information on the regulation;

(d) include the envisaged date of entry into force.

2. Where a draft technical regulation merely transposes the full text of an international or European standard, information regarding the relevant standard shall suffice.

Article 3

The EFTA States and Romania respectively may ask for further information on a draft technical regulation notified in accordance with this procedure.

Article 4

1. The exchange of notifications between the EFTA States and Romania shall take place through the EFTA Secretariat.

2. Through the EFTA Secretariat, the EFTA States and Romania may make comments upon the drafts communicated.

Article 5

The time-limit for comments on notifications shall be three months from the date of receipt by the EFTA Secretariat of the text of the draft regulation. During this period the draft technical regulation may not be adopted.

Article 6

An additional notification shall indicate to what extent it has been possible to take account of any comments received from the EFTA States and Romania respectively, any change of substance made as compared with the notified draft, as well as the date of entry into force of the regulation.

Article 7

The standstill period of three months shall however not apply when for urgent reasons relating to the protection of public health or safety, the protection of health and life of animals or plants, the competent authorities are obliged to prepare technical regulations in a very short period of time in order to enact or introduce them immediately without any consultations being possible. The reasons which warrant the urgency of the measures taken shall be given.

Such provisions shall include in particular injunctions, damages adequate to compensate for the injury suffered by the right holder, as well as provisional measures, including *inaudita altera parte* ones.

ANNEX XII**ON THE INTERPRETATION OF ARTICLE 19**

The EFTA States and Romania agree that the application of Article 19 shall be guided by the following criteria:

- (a) Only those measures can be classified as State aid which result in a net transfer of funds from State sources to the recipient through direct subsidies or which result in tax revenues foregone through tax concession; aid granted under schemes which are fully paid for by the beneficiaries are not State aid in the sense of Article 19; when assessing effects of State aid, the cumulative effects of all types of aid measures awarded to recipients are to be taken into consideration.
- (b) The following measures, in general, fall outside the scope of Article 19:
 - (i) credits and loans from State sources or agencies, if the interest and capital repayments are in accordance with current market conditions;
 - (ii) guarantees given by States or State agencies, if the premiums cover the long-term cost of the scheme;
 - (iii) equity injections by States or State agencies if the rate of return on such investments can reasonably be expected to be at least equal to the cost of State borrowing;
 - (iv) tax measures including social security charges that are part of the general national income norm for tax purposes, available to all enterprises, and uniformly applied in a country.
- (c) The following measures are examples of types of aid normally consistent with the provisions of Article 19:
 - (i) aid to research, development and innovation, provided it is clearly intended for the stimulation of such activities and that such activities are at a pre-competitive level; the pre-competitive level is understood to include applied research and development up to and including the development of a first prototype; such aid may be awarded up to a rate of 50 % of project costs or at differentiated tax rates of equivalent effect; basic research may be aided to a greater extent; the closer to the market

place a project is, the lower the degree of subsidizations should be;

- (ii) aid given to sectors with problems of overcapacity to rationalize the structure of industry by ensuring an orderly downscaling of production and employment; such measures should strictly be limited in duration and be accompanied by an adjustment programme; when evaluating problems of overcapacity the international situation as a whole and not merely in the country in question is to be taken into account;
- (iii) general aid to export promotion such as national weeks, store promotion, industrial fairs, provided that such aid is not company-specific;
- (iv) regional development aid to the extent that it does not interfere with conditions of fair competition; its purpose must be to put industries in regional development areas on an equal economic footing with industries in other parts of the country and not to increase capacity in sectors already suffering from problems of overcapacity; the definition of regional development areas, including areas in industrial decline, lies within the sole competence of the State Parties to this Agreement, which may be requested to furnish statistics detailing the reasons for the designation of such areas;
- (v) the aid in form of general public services to trade and industry on terms and conditions not favouring certain sectors and enterprises;
- (vi) general aid for the creation of new employment opportunities provided such jobs are not in sectors already suffering from overcapacity;
- (vii) environmental aid, under the general principle that the polluter-pays-principle is observed; investment specifically designated to reduce pollution may be aided up to a rate of 25 % or at differentiated tax rates of equivalent effect; recognizing the existence of different qualities of legislation or standards in other countries and their potential impact on trade and competition, the degree of subsidizations for specific industries shall be kept under constant review;

- (viii) aid to small and medium-sized enterprises if intended to offset disadvantages directly linked to the size of the firm in question, such enterprises being understood as employing not more than 100 people and having an annual turnover of less than 10 million ECUs.
- (d) The following measures are examples of types of aid normally not consistent with Article 19:
- (i) aid to set against operating losses of enterprises, either directly or through the foregoing of payments due to public authorities;
 - (ii) the injection of equity capital in firms if it has the same effect as to set aid against operating losses;
 - (iii) aid to production in problem sectors suffering from structural overcapacity or to enterprises in difficulties if not accompanied by an adjustment programme and strictly limited in duration;
 - (iv) aid given as a rescue measure to specific firms if not given merely to provide time for the development of long-term solutions and to avoid acute social problems;
 - (v) aid measures, including indirect taxes, that are applied in such a way as to discriminate in favour of domestically-produced goods and against like goods produced in another State Party to this Agreement;
 - (vi) the forms of aid to exports of goods to other State Parties to this Agreement as described in the Appendix.

APPENDIX**ILLUSTRATIVE LIST OF FORMS OF EXPORT AID REFERRED TO IN
ANNEX XII (d) (vi)**

- (a) Currency retention schemes or any similar practices which involve a bonus on exports or re-exports.
- (b) The provision by governments of direct subsidies to exporters.
- (c) The remission, calculated in relation to exports, of direct taxes or social welfare charges on industrial or commercial enterprises.
- (d) The exemption, in respect of exported goods, from charges or taxes, other than charges in connection with importation or indirect taxes levied at one or several stages on the same goods if sold for internal consumption, or the payment, in respect of exported goods, of amounts exceeding those effectively levied at one or several stages on these goods in the form of indirect taxes or of charges in connection with importation or in both forms.
- (e) In respect of deliveries by governments or governmental agencies of imported raw materials for export business on different terms than for domestic business, the charging of prices below world prices.
- (f) In respect of government export credit guarantees, the charging of premiums at rates which are manifestly inadequate to cover the long-term operating costs and losses of the credit insurance institutions.
- (g) The grant by governments (or special institutions controlled by governments) of export credits at rates below those which they have to pay in order to obtain the funds so employed.
- (h) The government bearing all or part of the costs incurred by exporters in obtaining credit.

ANNEX XIIITRANSPARENCY OF STATE AID MEASURES

Transparency measures provided for in Article 19, paragraph 4, of the Agreement, shall, inter alia, comprise:

- Annual reporting on the total amount and distribution of aid;
- notification of new aid schemes, if possible, in advance of implementation, and not later than 30 days after the date of implementation, and
- an obligation to provide upon request information on existing aid schemes and particular individual cases.

The Joint Committee shall within one year after the entry into force of the Agreement adopt the necessary rules for the implementation of transparency measures.

PROTOCOL E

CONCERNING THE TREATMENT THAT MAY BE APPLIED BY
LIECHTENSTEIN AND SWITZERLAND TO IMPORTS OF CERTAIN
PRODUCTS SUBJECT TO THE SCHEME FOR BUILDING UP COMPULSORY
RESERVES

Liechtenstein and Switzerland may subject to a scheme of compulsory reserves products which are indispensable for the survival of the population, and in the case of Switzerland for the army, in times of serious supply shortages and the production of which in Liechtenstein and Switzerland is insufficient or non-existent and the characteristics and nature of which enable reserves to be built up.

Liechtenstein and Switzerland shall apply this scheme in a manner that does not involve discrimination, direct or indirect, between the products imported from the other States Parties to this Agreement and like or substitute national products.

**JOINT DECLARATION BY THE EFTA STATES AND
ROMANIA CONCERNING
THE EXTENSION OF THE RULES OF ORIGIN**

The EFTA States and Romania agree to explore the possibilities to further extend and improve the rules of origin including cumulation in order to expand and promote production and trade within Europe.

**RECORD OF UNDERSTANDINGS
RELATING TO THE AGREEMENT BETWEEN
THE EFTA STATES AND ROMANIA**

1. The EFTA States and Romania recognize that there is a certain parallelism between the levels of concessions regarding tariffs, quantitative restrictions, charges and measures having equivalent effect at the entry into force of the Free Trade Agreement EFTA States-Romania and the Europe Agreement EC-Romania.¹ The EFTA States and Romania further recognize that this parallelism should basically be maintained during the whole transitional period. The possibility of applying such parallelism to concessions exchanged under special conditions will be considered in the Joint Committee.

2. If the rates of basic duties resulting from Article 5, paragraph 1, are different than those resulting from Article 8, paragraph 3, of the Europe Agreement EC-Romania, Romania shall apply the latter rates under the EFTA-Romania Agreement.

3. If, during a period equal to the derogation for subsidies under paragraph 3 of Article 19 and given the particular sensitivities of the steel market, imports of specific steel products originating in one State Party to this Agreement cause or threaten to cause serious injury to domestic producers of like products or serious disturbance to the steel market of another State Party, both States Parties shall immediately enter into consultations to find an appropriate solution. Pending such a solution and notwithstanding other provisions of the Agreement and in particular Articles 21 and 25, when exceptional circumstances require immediate action, the importing State Party may adopt forthwith quantitative or other solutions strictly necessary to deal with the situation, in accordance with its international and multilateral obligations.

4. The total and partial suspensions of customs duties established on a temporary basis by Romanian Government Decision No 812/1991 are valid only until 31 December 1992.

5. The expression "rate of duty applied" means the duty stipulated in the customs tariff (autonomous, conventional, as well as suspended duty and any "permanent" tariff quota stipulated therein). This expression does not cover temporary suspensions and temporary tariff quotas.

6. With reference to paragraph 3 of Article 22, if there is a disagreement with regard to the actual value of imports of industrial products, international trade statistics such as those of ECE, GATT and OECD will serve as a basis.

7. According to Article 3 of Protocol A, Romania may introduce a system of price compensation measures. The EFTA States agree to provide technical assistance in the elaboration and implementation of such a system.

¹ Registered with the Secretariat of the United Nations on 29 June 1995 under No. I-32005.

8. The EFTA States and Romania agree to closely co-ordinate their efforts in training those concerned with the use of the simplified procedure laid down in Protocol B with regard to the issue, control and verification of evidence of origin in order to enable them to be authorized to use this procedure. The simplified procedure shall be used in a restricted way and its implementation be subject to deliberations in the Sub-Committee on origin and customs matters.

9. (a) The EFTA States and Romania agree that the provisions of Article 23 of Protocol B shall not apply until 1 January 1994. This derogation may be prolonged by the Joint Committee taking into account the practice applied between Romania and the European Communities.
- (b) If it is established that, because of the effect of the derogation from Article 23, a product is imported into the territory of a State Party to this Agreement in such increased quantities or under conditions which cause, or threaten to cause, serious injury to producers of similar or directly competitive goods in the State Party concerned, the provisions of Article 23 will be reintroduced in respect of such a product.
- (c) As to the procedure for the application of the safeguard measures, the provisions of Article 25 of the Agreement shall apply *mutatis mutandis*, in particular paragraphs 3(b) and 6 of that Article.

10. In order not to hamper the introduction of efficient ADP systems in customs administrations, the EFTA States and Romania agree on the following interpretation of the word "submission" in Articles 8 and 12 of Protocol B to the Agreement: In cases where import declarations are transmitted electronically to the customs authorities of the importing State, it rests with these authorities to decide, within the framework and according to the provisions of the customs legislation applicable in the importing State, when and to what extent the documents constituting evidence of originating status shall actually be submitted.

11. A company from the EFTA States and a company from Romania respectively shall, for the purpose of the Agreement, mean a company or a firm set up in accordance with the laws of a Member State of the European Free Trade Association or of Romania respectively.

12. For the purpose of this Agreement, a national means, in the case of Romania, a natural person who is a citizen of Romania.

13. For the purpose of interpreting Article 19, paragraph 3, the States Parties to this Agreement agree that the term "higher intensity" refers to the level of aid granted by way of measures contained in Annex XII, paragraph (c), and that the application of normally inconsistent measures under paragraph (d) could be temporarily justified by the restructuring of Romania's economy, provided that these practices are compatible with the rules on state aid in the Agreement establishing an Association between Romania and the European Community, as implemented by the Parties to that Agreement.

14. The EFTA States and Romania agree to hold consultations in the Joint Committee with a view to consider the possibilities of complementing the criteria set out in Annexes XII and XIII to Article 19 by the criteria arising from the Agreement between the EFTA States and the European Economic Community on the establishment of a European Economic Area, after that Agreement will have entered into force.

15. The EFTA States and Romania consider that an arbitration procedure could be envisaged for disputes which cannot be settled through consultations between the States Parties concerned or in the Joint Committee. Such a possibility, for instance regarding Article 18, will be further examined in the Joint Committee.

16. The States Parties to this Agreement shall make the necessary efforts to complete the ratification process of this Agreement, if possible, within one year.

PROTOCOL B

CONCERNING THE DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS" AND METHODS OF ADMINISTRATIVE CO-OPERATION

TITLE I

Definition of the concept of "originating products"

ARTICLE 1

1. For the purpose of implementing the Agreement, and without prejudice to the provisions of Article 2, the following products shall be considered as products originating in a State Party to this Agreement:

- (a) products wholly obtained in that State within the meaning of Article 4;
- (b) products obtained in that State incorporating materials which have not been wholly obtained there, provided that:
 - (i) such materials have undergone sufficient working or processing in that State within the meaning of Article 5, or that
 - (ii) such materials originate, within the meaning of this Protocol, in any of the other States Parties to this Agreement, or that
 - (iii) such materials originate in Bulgaria in application of the origin rules in the Agreement establishing a Free Trade Area between the EFTA States on the one side and Bulgaria on the other,¹ in so far as the said rules are identical to those of this Protocol.

2. For products obtained in Romania the provisions of paragraph 1 (b) (iii) may be applied only on condition that the necessary administrative co-operation between Romania and Bulgaria for the implementation of these provisions has been established in accordance with the provisions of this Protocol.

ARTICLE 2

1. Notwithstanding the provisions of sub-paragraphs (b) (ii) and (iii) of paragraph 1 of Article 1, products originating within the meaning of this Protocol, in any

¹ United Nations, *Treaty Series*, vol. 1743, No. I-30372.

2. For the purpose of implementing paragraph 1, where products originating in two or more of the States Parties to this Agreement or in one or more of the States Parties to this Agreement and/or Bulgaria are used and those products have undergone no working or processing in the exporting State going beyond that referred to in paragraph 5 of Article 5, the origin is determined by the product with the highest customs value or, if this is not known and cannot be ascertained, with the highest first ascertainable price paid for the products in that State.

ARTICLE 3

(This Protocol does not contain an Article 3)

ARTICLE 4

The following shall be considered as wholly obtained in a State Party to this Agreement within the meaning of sub-paragraph (a) of paragraph 1 of Article 1:

The expressions "Chapters" and "headings" used in this Protocol shall mean the Chapters and the headings (four digit codes) used in the Nomenclature which makes up the "Harmonized Commodity Description and Coding System" (hereinafter referred to as the Harmonized System or HS). The expression "classified" shall refer to the classification of a product or material under a particular heading.

2. For the purposes of Article 1, non-originating materials are considered to be sufficiently worked or processed when the product obtained is classified within a heading which is different from those in which all the non-originating materials used in its manufacture are classified, subject to the provisions of paragraphs 3, 4 and 5.

3. For a product mentioned in columns 1 and 2 of the List in Annex II to this Protocol, the conditions set out in column 3 for the product concerned must be fulfilled instead of the rule in paragraph 2.

4. For the products of Chapters 84 to 91 inclusive, as an alternative to satisfying the conditions set out in column 3, the exporter may opt to apply the conditions set out in column 4 instead.

5. For the purpose of implementing sub-paragraph (b) (i) of paragraph 1 of Article 1, the following shall still be considered as insufficient working or processing to confer the status of originating product, whether or not there is a change of heading:

- (a) operations to ensure the preservation of merchandise in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);

- (f) simple assembly of parts of articles to constitute a complete article;
- (g) a combination of two or more operations specified in sub-paragraphs (a) to (f);
- (h) slaughter of animals.

ARTICLE 6

1. The term "value" in the List in Annex II to this Protocol shall mean the customs value at the time of the import of the non-originating materials used or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the territory concerned.

Where the value of the originating materials used needs to be established, this paragraph shall be applied *mutatis mutandis*.

2. The term "ex-works price" in the List in Annex II shall mean the ex-works price of the product obtained minus any internal taxes which are, or may be, repaid when the product obtained is exported.

ARTICLE 7

Goods originating in the sense of this Protocol and constituting a single shipment which is not split up may be transported through territory other than that of any State Party to this Agreement, or of Bulgaria with, should the occasion arise, transshipment or temporary warehousing in

such territory, provided that the crossing of the latter territory is justified for geographical reasons, that the goods have remained under the surveillance of the customs authorities in the country of transit or of warehousing, that they have not entered into the commerce of such countries or been delivered for home use there and have not undergone operations other than unloading, reloading or any operation designed to preserve them in good condition.

TITLE II

Methods for administrative co-operation

ARTICLE 8

1. Originating products within the meaning of this Protocol shall, on importation into a State Party to this Agreement, benefit from the Agreement upon submission of one of the following documents:

- (a) an EUR.1 movement certificate, hereinafter referred to as an "EUR.1 certificate" or an EUR.1 certificate, valid for a long term, and invoices referring to such certificate made out in accordance with Article 13. A specimen of the EUR.1 certificate is given in Annex III to this Protocol;
- (b) an invoice bearing the exporter's declaration as given in Annex IV to this Protocol, made out in accordance with Article 13;
- (c) an invoice bearing the exporter's declaration as given in Annex IV to this Protocol, made out by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed 5,110 units of account.

2. The following originating products within the meaning of this Protocol shall, on importation into a State Party to the Agreement, benefit from the Agreement without it being necessary to produce any of the documents referred to in paragraph 1:

- (a) products sent as small packages from private persons to private persons, provided that the value of the products does not exceed 365 units of account;
- (b) products forming part of travellers' personal luggage, provided that the value of the products does not exceed 1,025 units of account.

These provisions shall be applied only when such goods are not imported by way of trade and have been declared as meeting the conditions required for the application of the Agreement, and where there is no doubt as to the veracity of such declaration.

Importations which are occasional and consist solely of goods for the personal use of the recipients or travellers or their families shall not be considered as importations by way of trade if it is evident from the nature and quantity of the goods that no commercial purpose is in view.

3. Amounts in the national currency of the exporting State Party to the Agreement equivalent to the amounts expressed in units of account shall be fixed by the exporting State and communicated to the other States Parties to the Agreement. When the amounts are higher than the corresponding amounts fixed by the importing State, the importing State shall accept them if the goods are invoiced in the currency of the exporting State.

If the goods are invoiced in the currency of another State Party to the Agreement, the importing State shall recognize the amount notified by the State concerned.

4. The equivalent of a unit of account in the currencies of the States Parties to the Agreement, shall be the amounts specified in Annex VI to this Protocol.

5. The amounts expressed in units of account should be reviewed whenever necessary but at least every second year.

6. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the price thereof or are not separately invoiced are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

7. Sets, within the meaning of General Rule 3 of the Harmonized System, shall be regarded as originating when all component articles are originating products. Nevertheless, when a set is composed of originating and non-originating articles, the set as a whole shall be regarded as originating provided that the value of the non-originating articles does not exceed 15 per cent of the ex-works price of the set.

ARTICLE 9

1. An EUR.1 certificate shall be issued by the customs authorities of the exporting State when the goods to which it relates are exported. It shall be made available to the exporter as soon as actual exportation has been effected or ensured.

2. The EUR.1 certificate shall be issued by the customs authorities of a State Party to this Agreement if the goods to be exported can be considered as products originating in that State within the meaning of Article 1.

3. The customs authorities of a State Party to this Agreement may, provided that the goods to be covered by the EUR.1 certificates are in its territory, issue EUR.1 certificates under the conditions laid down in this Protocol if the goods to be exported can be considered as products originating in a State Party to this Agreement or in Bulgaria within the meaning of Article 2.

In such cases, the issue of the EUR.1 certificate is subject to the presentation of the evidence of origin issued or made out previously.

4. An EUR.1 certificate may be issued only where it can serve as the documentary evidence required for the purpose of implementing the preferential treatment provided for in this Agreement or the Agreement referred to in subparagraph (b) (iii) of paragraph 1 of Article 1.

The date of issue of the EUR.1 certificate must be indicated in the box on the EUR.1 certificate reserved for the customs authorities.

5. In exceptional circumstances an EUR.1 certificate may also be issued after exportation of the goods to which it relates if it was not issued at the time of exportation because of errors, involuntary omissions or special circumstances.

The customs authorities may issue an EUR.1 certificate retrospectively only after verifying that the particulars supplied in the exporter's application agree with those on the corresponding document.

EUR.1 certificates issued retrospectively must be endorsed with one of the following phrases: "ISSUED RETROSPECTIVELY", "ANNETTU JÄLKIKÄTEEN", "DELIVRE A POSTERIORI", "NACHTRÄGLICH AUSGESTELLT", "ÖTGEFID EFTIR Å", "RILASCIATO A POSTERIORI", "UTSTEDT SENERE", "UTFÄRDAT I EFTERHAND", "ELIBERAT A POSTERIORI".

6. In the event of the theft, loss or destruction of an EUR.1 certificate, the exporter may apply to the customs authorities which issued it for a duplicate to be made out on the basis of the export documents in their possession. The duplicate issued in this way must be endorsed with one of the following words: "DUPLICATE", "KAKSOISKAPPALE", "DUPLICATA", "DUPLIKAT", "EFTIRRIT", "DUPLICATO", "DUPLICAT".

The duplicate, which must bear the date of issue of the original EUR.1 certificate, shall take effect as from that date.

7. The endorsements referred to in paragraphs 5 and 6 shall be inserted in the "Remarks" box on the EUR.1 certificate.

8. It shall always be possible to replace one or more EUR.1 certificates by one or more EUR.1 certificates, provided that this is done at the customs office where the goods are located.

9. For the purpose of verifying whether the conditions stated in paragraphs 2 and 3 have been met, the customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

10. The provisions of paragraphs 2 to 9 above shall apply, *mutatis mutandis*, to the evidence of origin made out by approved exporters under the conditions set out in Article 13.

ARTICLE 10

1. An EUR.1 certificate shall be issued only on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative, on the form of which a specimen is given in Annex III to this Protocol, which shall be completed in accordance with this Protocol.

2. It shall be the responsibility of the customs authorities of the exporting State to ensure that the form referred to in paragraph 1 is properly completed. In particular, they shall check whether the box reserved for the description of the goods has been completed in such a manner as to exclude any possibility of fraudulent additions. To this end, the description of the goods must be given without leaving any blank lines. Where the box is

not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. Since the EUR.1 certificate constitutes the documentary evidence for the application of the preferential tariff and quota arrangements laid down in the Agreement, it shall be the responsibility of the customs authorities of the exporting State to take any steps necessary to verify the origin of the goods and to check the other statements on the certificate.

4. When an EUR.1 certificate is issued within the meaning of paragraph 5 of Article 9 after the goods to which it relates have actually been exported, the exporter must in the application referred to in paragraph 1:

- indicate the place and date of exportation of the goods to which the EUR.1 certificate relates,
- certify that no EUR.1 certificate was issued at the time of exportation of the goods in question, and state the reasons.

5. Applications for EUR.1 certificates and the evidence of origin referred to in the second sub-paragraph of paragraph 3 of Article 9, upon presentation of which new EUR.1 certificates are issued, must be preserved for at least two years by the customs authorities of the exporting State.

ARTICLE 11

1. EUR.1 certificates shall be made out on the form of which a specimen is given in Annex III to this Protocol. This form shall be printed in one or more of the official languages of the States Parties to this Agreement or in English. EUR.1 certificates shall be made out in one of those languages and in accordance with the provisions of the domestic law of the exporting State; if they are handwritten, they shall be completed in ink in capital letters.

2. The EUR.1 certificate shall be 210 x 297 millimetres. A tolerance of up to plus 8 millimetres or minus 5 millimetres in the length may be allowed. The paper used must be white-sized writing paper not containing mechanical pulp and weighing not less than 25 grammes per square metre. It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.

3. The States Parties to this Agreement may reserve the right to print the EUR.1 certificates themselves or may have them printed by printers approved by them. In the latter case, each EUR.1 certificate must include a reference to such approval. Each EUR.1 certificate must bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, whether or not printed, by which it can be identified.

ARTICLE 12

1. An EUR.1 certificate must be submitted, within four months of the date of issue by the customs authorities of the exporting State, to the customs authorities of the importing State where the goods are entered, in accordance with the procedures laid down by that State. The said authorities may require a translation of a certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the goods meet the conditions required for the implementation of the Agreement.

2. Without prejudice to paragraph 5 of Article 5, where, at the request of the person declaring the goods at customs, a dismantled or non-assembled article falling within Chapter 84 or 85 of the Harmonized System is imported by instalments under the conditions laid down by the competent authorities, it shall be considered to be a single article and an EUR.1 certificate may be submitted for the whole article upon importation of the first instalment.

3. An EUR.1 certificate which is submitted to the customs authorities of the importing State after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit the certificate by the final date is due to *force majeure* or exceptional circumstances.

In other cases of belated presentation, the customs authorities of the importing State may accept the EUR.1 certificates where the goods have been submitted to them before the said final date.

4. The discovery of slight discrepancies between the statements made in the EUR.1 certificate and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the goods shall not *ipso facto* render the certificate null and void, provided it is duly established that the certificate corresponds to the goods.

5. EUR.1 certificates shall be preserved by the customs authorities of the importing State in accordance with the rules in force in that State.

6. Proof that the conditions set out in Article 7 have been met shall be provided by submission to the customs authorities of the importing State of either:

- (a) a single supporting transport document, made out in the exporting State, under the cover of which the transit country has been crossed; or
- (b) a certificate issued by the customs authorities of the transit country containing:
 - an exact description of the goods,
 - the date of unloading and reloading of the goods and, where applicable, the names of the ships,
 - certified proof of the conditions under which the goods have stayed in the transit country;
- (c) or, failing these, any substantiating documents.

ARTICLE 13

1. Notwithstanding paragraphs 1 to 7 of Article 9 and paragraphs 1, 4 and 5 of Article 10, a simplified procedure for the issue of the documentation relating to the evidence of origin shall be applicable under the terms of the provisions set out below.

2. The customs authorities in the exporting State may authorize any exporter, hereinafter referred to as "approved exporter", who makes frequent shipments for which EUR.1 certificates may be issued, and who offers to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the goods, not to submit to the customs office in the exporting State at the time of export either the goods or the application for an EUR.1 certificate relating to those goods, for the purpose of obtaining an EUR.1 certificate under the conditions laid down in paragraphs 1 to 4 of Article 9.

3. In addition, the customs authorities may authorize an approved exporter to draw up EUR.1 certificates, valid for a maximum period of one year from the date of issue, hereinafter referred to as "LT certificates". The authorization shall be granted only where the originating

status of the goods to be exported is expected to remain unchanged for the period of validity of the LT certificate. If any goods are no longer covered by the LT certificate, the approved exporter shall immediately inform the customs authorities who gave the authorization.

Where the simplified procedure applies, the customs authorities of the exporting State may prescribe the use of EUR.1 certificates bearing a distinctive sign by which they may be identified.

4. The authorization referred to in paragraphs 2 and 3 shall stipulate, at the choice of the customs authorities, that Box 11, 'Customs endorsement', of the EUR.1 certificate must:

- (a) either be endorsed beforehand with the stamp of the competent customs office of the exporting State and the handwritten or non-handwritten signature of an official of that office; or
- (b) be endorsed by the approved exporter with a special stamp which has been approved by the customs authorities of the exporting State and corresponds to the specimen given in Annex V to this Protocol; this stamp may be preprinted on the form.

Box 11, 'Customs endorsement', of the EUR.1 certificate shall be completed if necessary by the approved exporter.

5. In the cases referred to in paragraph 4 (a), one of the following phrases shall be entered in box 7, "Remarks", of the EUR.1 certificate: "Simplified procedure", "Yksinkertaistettu menettely", "Procédure simplifiée", "Vereinfachtes Verfahren", "Einföldud afgreidsla", "Procedura simplificata", "Forenklet prosedyre", "Förenklad procedur", "Procedura simplicata". The approved exporter shall if necessary indicate in Box 13, "Request for verification", the name and address of the customs authority competent to verify the EUR.1 certificate.

6. In the case referred to in paragraph 3, the approved exporter shall also enter in box 7 of the EUR.1 certificate one of the following phrases:

"LT certificate valid until ...",
"LT-todistus voimassa ... saakka",
"certificat LT valable jusqu'au ...",
"LT-Certificat gültig bis ...",
"LT-skirteini gildir til ...",
"certificato LT valido fino al ...",
"LT-sertifikat gyldig til ...",
"LT-certifikat giltigt till ...",
"Certificat TL valabil pînă la..."

(date indicated in numerals),

and a reference to the authorization under which the relevant LT certificate has been issued.

The approved exporter shall not be required to refer in Box 8 and Box 9 of the LT certificate to the marks and numbers and number and kind of packages and the gross weight (kg) or other measure (litres, m³, etc.). Box 8 must, however, contain a description and designation of the goods which is sufficiently precise to allow for their identification.

7. Notwithstanding paragraphs 1 to 3 of Article 12, the LT certificate must be submitted to the customs office of import at or before the first importation of any goods to which it relates. When the importer carries out the customs clearance at several customs offices in the State of importation, the customs authorities may request him to produce a copy of the LT certificate to all of those offices.

8. Where an LT certificate has been submitted to the customs authorities, the evidence of the originating status of the imported goods shall, during the validity of the LT certificate, be given by invoices which satisfy the following conditions:

- (a) when an invoice includes both goods originating in a State Party to this Agreement, or in Bulgaria and non-originating goods, the exporter shall distinguish clearly between these two categories;
- (b) the exporter shall state on each invoice the number of the LT certificate which covers the goods and the date of expiry of the certificate and the name(s) of the country or countries in which the goods originate.

The statement on the invoice made by the exporter of the number of the LT certificate with the indication of the country of origin shall constitute a declaration that the goods fulfil the conditions laid down in this Protocol for the acquisition of preferential origin status in trade between the States Parties to this Agreement.

The customs authorities of the exporting State may require that the entries, which, under the above provisions, must appear on the invoice, be supported by the manuscript signature followed by the name of the signatory in clear script;

- (c) the description and the designation of the goods on the invoice shall be in sufficient detail to show clearly that the goods are also listed on the LT certificate to which the invoice refers;
- (d) the invoices can be made out only for the goods exported during the period of validity of the relevant LT certificate. They may, however, be produced at the import customs office within four months of the date of their being made out by the exporter.

9. In the framework of the simplified procedures, invoices which satisfy the conditions of this Article may be made out and/or transmitted using telecommunications or electronic data processing methods. Such invoices shall be accepted by the customs of the importing State as evidence of the originating status of the goods imported in accordance with the procedures laid down by the customs authorities there.

10. Should the customs authorities of the exporting State identify that a certificate and/or invoice issued under the provisions of this Article is invalid in relation to any goods supplied, they shall immediately notify the customs authorities of the importing State of the facts.

11. The customs authorities may authorize an approved exporter to make out invoices bearing the declaration given in Annex IV to this Protocol in place of EUR.1 certificates.

The declaration made by the approved exporter on the invoice shall be made out in one of the official languages of the States Parties to this Agreement, of Bulgaria or in English. It shall be signed in manuscript and must either:

- (a) have a reference to the approved exporter's authorization number, or
- (b) be endorsed by the approved exporter with the special stamp referred to in paragraph 4 (b) which has been approved by the customs authorities of the exporting State. This stamp may be preprinted on the invoice.

12. However, the customs authorities in the exporting State may authorize an approved exporter not to sign the statement in paragraph 8 (b) or the declaration referred to in paragraph 11 given on the invoice, when such invoices are made out and/or transmitted using telecommunications or electronic data processing methods.

The said customs authorities shall lay down conditions for the implementation of this paragraph, including, if they so require, a written undertaking from the approved exporter, that he accepts full responsibility for such statement and declaration as if they had in fact been signed in manuscript by him.

13. In the authorizations referred to in paragraphs 2, 3 and 11 the customs authorities shall specify in particular:

- (a) the conditions under which the application for EUR.1 certificates or for LT certificates are made or under which the declaration concerning the origin of goods is made on the invoice;
- (b) the conditions under which these applications, as well as a copy of the invoices referring to an LT certificate and of the invoices bearing the exporter's declaration, are kept for at least two years. In the case of LT certificates or invoices referring to an LT certificate, this period shall begin from the date of expiry of validity of the LT certificate. These provisions shall also apply to the EUR.1 certificates or LT certificates and the invoices referring to an LT certificate, as well as to invoices bearing the exporter's declaration, having served as the basis for the issue of other evidence of origin, used under the conditions laid down in the second sub-paragraph of paragraph 3 of Article 9.

14. The customs authorities in the exporting State may declare certain categories of goods ineligible for the special treatment provided for in paragraphs 2, 3 and 11.

15. The customs authorities shall refuse the authorizations referred to in paragraphs 2, 3 and 11 to exporters who do not offer all the guarantees which they consider necessary.

The customs authorities may withdraw the authorizations at any time. They must do so where the conditions of approval are no longer satisfied or the approved exporter no longer offers those guarantees.

16. The approved exporter may be required to inform the customs authorities, in accordance with the rules which they lay down, of goods to be dispatched by him, so that the competent customs office may make any verification it thinks necessary before the dispatch of the goods.

17. The provisions of this Article shall not prejudice application of the rules of the States Parties to this

Agreement on customs formalities and the use of customs documents.

ARTICLE 14

The declaration referred to in paragraph 1 (c) of Article 8 shall be made out by the exporter in the form given in Annex IV to this Protocol in one of the official languages of the States Parties to this Agreement, of Bulgaria or in English. It shall be typed or stamped and signed by hand. The exporter must keep a copy of the invoice bearing the said declaration for at least two years.

ARTICLE 15

1. The exporter or his representative shall submit with his request for an EUR.1 certificate any appropriate supporting document proving that the goods to be exported qualify for the issue of an EUR.1 certificate.

He shall undertake to submit at the request of the appropriate authorities, any supplementary evidence they may require for the purpose of establishing the correctness of the originating status of the goods eligible for preferential treatment and shall undertake to agree to any inspection of his accounts and to any check on the processes of the obtaining of the above goods, carried out by the said authorities.

2. Exporters must keep for at least two years the supporting documents referred to in paragraph 1.

3. The provisions of paragraphs 1 and 2 shall apply *mutatis mutandis* in the case of the use of the procedures laid down in paragraphs 2 and 3 of Article 13 and of the declarations referred to in paragraphs 1 (b) and 1 (c) of Article 8.

ARTICLE 16

1. Goods sent from an EFTA State or from Romania for exhibition in a country other than a State Party to this Agreement, or Bulgaria, and sold after the exhibition for importation into Romania or into an EFTA State shall benefit on importation from the provisions of this Agreement on condition that the goods meet the requirements of this Protocol entitling them to be recognized as originating in an EFTA State or in Romania and provided

that it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these goods from an EFTA State or from Romania to the country in which the exhibition is held and has exhibited them there;
- (b) the goods have been sold or otherwise disposed of by that exporter to someone in Romania or in an EFTA State;
- (c) the goods have been consigned during the exhibition or immediately thereafter to Romania or to an EFTA State in the state in which they were sent for exhibition;
- (d) the goods have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. An EUR.1 certificate must be produced to the customs authorities in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the goods and the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign goods, and during which the goods remain under customs control.

ARTICLE 17

1. In order to ensure the proper application of this Title, the States Parties to this Agreement shall assist each other through their respective customs administrations, in checking the authenticity and accuracy of EUR.1 certificates, including those issued under paragraph 3 of Article 9 and the exporters' declarations made on invoices.

2. The Joint Committee shall be authorized to take any decisions necessary for the methods of administrative co-operation to be applied in due time in the States Parties to this Agreement.

3. The customs authorities of the States Parties to this Agreement shall provide each other, through the EFTA Secretariat, with specimen impressions of stamps used in their customs offices for the issue of EUR.1 certificates.

4. Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect particulars for the purpose of obtaining a preferential treatment for goods.

5. The States Parties to this Agreement shall take all necessary steps to ensure that goods traded under cover of an EUR.1 certificate, which in the course of transport use a free zone situated in their territory, are not substituted by other goods and that they do not undergo handling other than normal operations designed to prevent their deterioration.

6. When products originating in a State Party to this Agreement and imported into a free zone under cover of an EUR.1 certificate undergo treatment or processing, the customs authorities concerned must issue a new EUR.1 certificate at the exporter's request if the treatment or processing undergone is in conformity with the provisions of this Protocol.

ARTICLE 18

1. Subsequent verifications of EUR.1 certificates and of exporters' declarations made on invoices shall be carried out at random or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy of the information regarding the true origin of the goods in question.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing State shall return the EUR.1 certificate and the invoice, if it has been submitted, or the invoice referring to an LT certificate, or the invoice bearing the exporter's declaration or a copy of those documents, to the customs authorities of the exporting State, giving where appropriate, the reasons of substance or form for an inquiry.

The customs authorities shall forward, in support of the request for a *posteriori* verification, any documents and information that have been obtained suggesting that the particulars given on the EUR.1 certificate or the invoice are inaccurate.

If the customs authorities of the importing State decide to suspend the provisions of the Agreement while awaiting the results of the verification, they shall offer to release the goods to the importer subject to any precautionary measures judged necessary.

3. The customs authorities of the importing State shall be informed of the results of the verification as soon as

possible. These results must be such as to make it possible to determine whether the documents returned under paragraph 2 apply to the goods actually exported, and whether these goods can, in fact, qualify for application of the preferential arrangements.

Where such disputes cannot be settled between the customs authorities of the importing State and those of the exporting State or where they raise a question as to the interpretation of this Protocol they shall be submitted to the Sub-Committee on customs and origin matters referred to in Article 26. The decisions shall be taken by the Joint Committee.

For the purpose of the subsequent verification of EUR.1 certificates, the customs authorities of the exporting State must keep the export documents, or copies of EUR.1 certificates used in place thereof, for at least two years.

TITLE III

Final provisions

ARTICLE 19

The States Parties to this Agreement shall each take the steps necessary to implement this Protocol.

ARTICLE 20

The Annexes to this Protocol shall form an integral part thereof.

ARTICLE 21

Goods which conform to the provisions of Title I and which on the date of entry into force of the Agreement are either being transported or are being held in a State Party to this Agreement in temporary storage, in bonded warehouses or in free zones, may be accepted as originating products subject to the submission, within four months from that date, to the customs authorities of the importing State of evidence of origin, drawn up retrospectively, and of any documents that provide supporting evidence of the conditions of transport.

ARTICLE 22

The States Parties to this Agreement undertake to introduce measures necessary to ensure that the EUR.1

certificates which their customs authorities are authorized to issue in pursuance of this Agreement are issued under the conditions laid down by this Agreement. They also undertake to provide the administrative co-operation necessary for this purpose, in particular to check on the itinerary of goods traded under this Agreement and the places in which they have been held.

ARTICLE 23

1. Without prejudice to the provisions of Protocol A, products which are of the kind to which the Agreement applies, and which are used in the manufacture of products for which an EUR.1 certificate, an LT certificate or the invoices referring to the LT certificate, or an invoice bearing the exporter's declaration are issued or completed, can only be the subject of drawback of customs duty or benefit from an exemption of customs duty of whatever kind when products originating in a State Party to this Agreement or in Bulgaria, are concerned.

2. In this Article, the term "customs duty" also means charges having an effect equivalent to customs duty.

ARTICLE 24

1. Where, by virtue of this Agreement, imports into an EFTA State are to be treated differently from imports covered by the EFTA Convention, the treatment provided for by this Agreement shall be applied to all products which are accompanied by evidence of origin referred to in paragraph 1 of Article 8, issued or made out in Romania, or by any such evidence of origin issued in an EFTA State and bearing the expression "EFTA-Romania Trade".

2. An exporter in an EFTA State or his representative shall enter the expression "EFTA-Romania Trade" on the evidence of origin in trade between the EFTA States in cases where products have obtained their originating status by virtue of this Agreement by use of materials originating in Romania or in Bulgaria.

3. Notwithstanding the provisions of paragraph 1, products originating in an EFTA State which are re-exported from Romania, shall benefit at import into an EFTA State from treatment equal to that which they would have received, had they been sent directly from one EFTA State to another. The products must be in the same state or have undergone no working or processing in Romania going beyond that referred to in paragraph 5 of Article 5. This treatment will be granted only upon submission to the customs authorities of the importing EFTA State of an EUR.1 certificate issued by the appropriate customs office in

Romania, in which the expression "Application Article 24.3" has been inserted and authenticated by the stamp of the said office.

ARTICLE 25

1. Originating products within the meaning of this Protocol shall, on importation into Romania benefit from the Agreement also upon submission of an EUR.1 certificate issued by a customs office in Bulgaria in which the expression "Application Article 25" has been inserted and authenticated by the stamp of the said office.

2. When products, previously imported into Romania accompanied by evidence of origin referred to in paragraph 1 of Article 8, issued or made out in an EFTA State, are re-exported to Bulgaria, Romania shall undertake to issue EUR.1 certificates with the expression "Application Article 25", provided that the products are re-exported in the same state or have undergone no working or processing in Romania going beyond that referred to in paragraph 5 of Article 5.

ARTICLE 26

A Sub-Committee on customs and origin matters shall be set up under the Joint Committee in accordance with paragraph 5 of Article 28 of the Agreement charged with carrying out administrative co-operation with a view to ensuring a practical, correct and uniform application of this Protocol as well as a continuous information and consultation process between experts.

It shall be composed of experts from the States Parties to the Agreement responsible for questions related to customs and origin matters.

ARTICLE 27

For the purpose of implementing sub-paragraph (b) (ii) or (iii) of paragraph 1 of Article 1 any product originating in the territory of a State Party to this Agreement shall, on exportation to the territory of another State Party to this Agreement, be treated as a non-originating product during the period or periods in which the last-mentioned State Party to this Agreement applies the rate of duty applicable to third countries or any corresponding safeguard measure to such products in accordance with this Agreement.

ANNEX I TO PROTOCOL B

EXPLANATORY NOTES

Note 1 - Article 1

The term "State Party to this Agreement" shall also cover the territorial waters of this State.

Vessels operating on the high seas, including factory ships, on which the fish caught is worked or processed shall be considered as part of the territory of the State Party to this Agreement to which they belong provided that they satisfy the conditions set out in Explanatory Note 4.

Note 2 - Articles 1, 2 and 4

The conditions set out in Article 1 relative to the acquisition of originating status must be fulfilled without interruption in a State Party to this Agreement except as provided for in Article 2.

If originating products exported from a State Party to this Agreement to another country are returned, except in so far as provided for in Article 2, they must be considered as non-originating unless it can be demonstrated to the satisfaction of the customs authorities that:

- the goods returned are the same goods as those exported, and
- they have not undergone any operations beyond that necessary to preserve them in good condition while in that country.

Note 3 - Articles 1 and 2

In order to determine whether goods are originating products it shall not be necessary to establish whether the power and fuel, plant and equipment, and machines and tools used to obtain such goods originate in third countries or not.

Note 4 - Sub-paragraph (f) of Article 4

The term "its vessels" shall apply only to vessels:

- (a) which are registered or recorded in a State Party to this Agreement;

- (b) which sail under the flag of a State Party to this Agreement;
- (c) which are at least 50 per cent owned by nationals of a State Party to this Agreement or by a company with its head office in such a State, of which the manager or managers, chairman of the board of directors or of the supervisory board, and the majority of the members of such boards are nationals of a State Party to this Agreement and of which, in addition, in the case of partnerships or limited companies, at least half of the capital belongs to such a State or to public bodies or nationals of such a State;
- (d) of which the captain and officers are all nationals of a State Party to this Agreement;
- (e) of which at least 75 per cent of the crew are nationals of a State Party to this Agreement.

Note 5 - Articles 4 and 5

1. The unit of qualification for the application of the origin rules shall be the particular product which is considered as the basic unit when determining classification using the Nomenclature of the Harmonized System. In the case of sets of products which are classified by virtue of General Rule 3, the unit of qualification shall be determined in respect of each item in the set; this also applies to the sets of heading Nos 6308, 8206 and 9605.

Accordingly, it follows that:

- when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System within a single heading, the whole constitutes the unit of qualification,
- when a consignment consists of a number of identical products classified within the same heading of the Harmonized System, each product must be taken individually when applying the origin rules.

2. Where, under General Rule 5 of the Harmonized System, packing is included with the product for classification purposes, it shall be included for purposes of determining origin.

Note 5a - Sub-paragraph (h) of Article 4

In the case of used tyres, the term "used articles collected there, fit only for the recovery of raw materials" does not only cover used tyres fit only for the recovery of raw materials but also used tyres fit only for retreading or for use as waste.

Note 6 - Paragraph 2 of Article 5

The Introductory Notes to Annex II shall also apply where appropriate to all products manufactured using non-originating materials even if they are not subject to a specific condition contained in the List in Annex II but are subject instead to the change of heading rule set out in paragraph 2 of Article 5.

Note 7 - Article 6

"Ex-works price" shall mean the price paid to the manufacturer in whose undertaking the last working or processing is carried out, provided the price includes the value of all the products used in manufacture.

"Customs value" shall be understood as meaning the customs value as determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade done at Geneva on 12 April 1979.¹

Note 8 - Paragraph 1 of Article 8

The facility of using, under this Protocol, the invoice as evidence of the originating status of the goods, shall be extended to the delivery note or any other commercial document which describes the goods concerned in sufficient detail to enable them to be identified.

In the case of products sent by post which, within the meaning of paragraph 2 of Article 8, are not considered as importations by way of trade, the declaration of the originating status can also be made on the customs declaration C2/CP3 or on a sheet of paper annexed to that declaration.

Note 9 - Paragraph 1 of Article 17 and Article 22

Where an EUR.1 certificate has been issued under the conditions laid down in paragraph 3 of Article 9 and relates to goods re-exported in the same state, the customs authorities of the country of destination must be able to obtain, by means of administrative co-operation, true copies of the evidence of origin issued or made out previously relating to those goods.

¹ United Nations, *Treaty Series*, vol. 1235, p. 126.

Note 10 - Article 23

"Drawback of customs duty or exemption from customs duty of whatever kind" shall mean any arrangement for refund or remission, partial or complete, of customs duties applicable to products used in manufacture, provided that the said provision concedes, expressly or in effect, this repayment or non-charging or the non-imposition when goods obtained from the said products are exported but not when they are retained for home use.

"Products used in manufacture" shall mean any products in respect of which a "drawback of customs duty or exemption from customs duty of whatever kind" is requested as a result of the export of originating products for which an EUR.1 certificate, an LT certificate or the invoices referring to the LT certificate, or an invoice bearing the exporter's declaration are issued or made out.

ANNEX II TO PROTOCOL B

List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status

INTRODUCTORY NOTES

General

Note 1

- 1.1 The first two columns in the List describe the product obtained. The first column gives the heading number, or the Chapter number, used in the Harmonized System and the second column gives the description of goods used in that System for that heading or Chapter. For each entry in the first two columns a rule is specified in columns 3 and 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rule in column 3 or column 4 only applies to the part of that heading or Chapter as described in column 2.
- 1.2 Where several heading numbers are grouped together in column 1 or a Chapter number is given and the description of product in column 2 is therefore given in general terms, the adjacent rule in column 3 or column 4 applies to all products which, under the Harmonized System, are classified within headings of the Chapter or within any of the headings grouped together in column 1.
- 1.3 Where there are different rules in the List applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rule in column 3 or column 4.
- 1.4 For the products of Chapters 84 to 91 inclusive, if no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 2

- 2.1 The term "manufacture" covers any kind of working or processing including "assembly" or specific operations. However, see paragraph 5 of Note 3 below.
- 2.2 The term "material" covers any "ingredient", "raw material", "component" or "part", etc., used in the manufacture of the product.

- 2.3 The term "product" refers to the product being manufactured, even if it is intended for later use in another manufacturing operation.

Note 3

- 3.1 In the case of any heading not in the List or any part of a heading that is not in the List, the "change of heading" rule set out in paragraph 2 of Article 5 applies. If a "change of heading" condition applies to any entry in the List, then it is contained in the rule in column 3.
- 3.2 The working or processing required by a rule in column 3 or column 4 has to be carried out only in relation to the non-originating materials used. The restrictions contained in a rule in column 3 or column 4 likewise apply only to the non-originating materials used.
- 3.3 Where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading including other materials of heading No..." means that only materials classified within the same heading as the product of a different description than that of the product as given in column 2 of the List may be used.
- 3.4 If a product, made from non-originating materials which has acquired originating status during manufacture by virtue of the change of heading rule or its own List rule, is used as a material in the process of manufacture of another product, then the rule applicable to the product in which it is incorporated does not apply to it.

- *For example:*

An engine of heading No. 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No. 7224.

If this forging has been forged in the country concerned from a non-originating ingot then the forging has already acquired origin by virtue of the rule for heading No. ex 7224 in the list. It can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or another. The value

of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.5 Even if the change of heading rule or the rule contained in the List are satisfied, a product does not have origin if the processing carried out, taken as a whole, is insufficient in the sense of paragraph 5 of Article 5.

Note 4

- 4.1 The rule in the List represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer origin. Thus if a rule says that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at later stage is not.

- 4.2 When a rule in the List specifies that a product may be manufactured from more than one material, this means that any one or more of the materials may be used. It does not require that all be used.

- *For example:*

The rule for fabrics says that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used, one can use one or the other or both.

If, however, a restriction applies to one material and other restrictions apply to other materials in the same rule, then the restrictions only apply to the materials actually used.

- *For example:*

The rule for sewing machines specifies that the thread tension mechanism used has to originate and that the zigzag mechanism used also has to originate; these two restrictions only apply if the mechanisms concerned are actually incorporated into the sewing machine.

- 4.3 When a rule in the List specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule.

- *For example:*
The rule for heading No. 1904 which specifically excludes the use of cereals or their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not produced from cereals.

- *For example:*
In the case of an article made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth - even if non-wovens cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is the fibre stage.

See also paragraph 3 of Note 7 in relation to textiles.

- 4.4 If in a rule in the List two or more percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. The maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore the individual percentages must not be exceeded in relation to the particular materials they apply to.

Textiles

Note 5

- 5.1 The term "natural fibres" is used in the List to refer to fibres other than artificial or synthetic fibres and is restricted to the stages before spinning takes place, including waste and unless otherwise specified, the term "natural fibres" includes fibres that have been carded, combed or otherwise processed but not spun.
- 5.2 The term "natural fibres" includes horsehair of heading No. 0503, silk of headings Nos. 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of headings Nos. 5101 to 5105, the cotton fibres of headings Nos. 5201 to 5203 and the other vegetable fibres of headings Nos. 5301 to 5305.
- 5.3 The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the List to describe the materials not classified within Chapters 50 to 63 which can be used to

manufacture artificial, synthetic or paper fibres or yarns.

- 5.4 The term "man-made staple fibres" is used in the List to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos. 5501 to 5507.

Note 6:

- 6.1 In the case of the products classified within those headings in the List where a reference is made to this Introductory Note, the conditions set out in column 3 of the List shall not be applied to any basic textile materials used in their manufacture which, taken together, represent 10 % or less of the total weight of all the basic textile materials used (but see also paragraph 3 and 4 of Note 6 below).
- 6.2 However, this tolerance may only be applied to mixed products which have been made from two or more basic textile materials, irrespective of their share of the product.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- synthetic man-made staple fibres,
- artificial man-made staple fibres.

- For example:

A yarn of heading No. 5205 made from cotton fibres and synthetic staple fibres is a mixed yarn. Therefore, non-originating materials that do not satisfy the origin rules may be used up to a weight of 10 % of the yarn.

- For example:

A woollen fabric of heading No. 5112 made from woollen yarn and synthetic yarn of staple fibres is a mixed fabric. Therefore,

either non-originating synthetic yarn or woollen yarn or a combination thereof that does not satisfy the origin rules may be used up to a weight of 10 % of the fabric

- *For example:*
Tufted textile of heading No. 5802 made from cotton yarn and cotton fabric is only a mixed product if the cotton fabric is itself a mixed fabric being made from two or more different basic textile materials or if the cotton yarns used are themselves mixtures.
- *For example:*
If the tufted textile concerned had been made from cotton yarn and synthetic fabric, then, obviously, two separate basic textile materials would have been used.
- *For example:*
A carpet with tufts made both from artificial yarns and tufts made from cotton yarns and with a jute backing is a mixed product because three basic textile materials are used. Thus, any non-originating materials that are used at a later stage of manufacture than the rule allows, may be used, provided their total weight taken together does not exceed 10 % of the weight of the textile materials in the carpet. Thus, the jute backing, the artificial yarns and/or the cotton yarns could be imported at that stage of manufacture, provided the weight conditions are met.

- 6.3 In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 % in respect of this yarn.
- 6.4 In the case of products incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm., sandwiched by means of an adhesive between two films of plastic film, this tolerance is 30 % in respect of this strip.

Note 7

- 7.1 In the case of those textile products, which are marked in the List by a footnote referring to this Introductory Note, textile materials, with the exception of linings and interlinings, which do not satisfy the rule set out in the List in column 3 for the made-up product concerned may be

used provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.

- 7.2 Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of paragraph 3 of Note 4.
- 7.3 In accordance with paragraph 3 of Note 4, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.
- For example:
If a rule in the List says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.
- 7.4 Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

 - the charge shall be eliminated at the latest by the end of 1997.

TABLE TO ANNEX V

**System of export levy on fish products
which Iceland may retain**

Icelandic Law No. 4 of 28 February 1966 as amended by Laws Nos. 79 of 31 December 1968, 73 of 1 June 1970, 4 of 30 March 1971 and 17 of 4 May 1972, concerning export levy on fish products

Article 1

A levy shall be applied to exports of Icelandic fish products specified in this Law.

Fish caught by fishing vessels registered in Iceland shall be considered as Icelandic products even if such fish is caught outside Icelandic fishing limits and not processed ashore.

Article 2

In accordance with this Law, the export levy on fish products shall be applied as follows:

1. A levy of 2,300 Icelandic Crowns per ton shall be applied to exports of frozen fish fillets, frozen fish roes, salted whitefish, salted fish fillets, belly of salted cod, salted fish roes not elsewhere specified, salted fish bits, salted and frozen fish tongues, stockfish, dried fish heads, shellfish and preserved fish products in hermetic containers.

Should the levy applied under this Article exceed 4-5% of the fob value of the fish products in question, the Ministry of Fisheries may decide to abolish the part of the levy which is in excess thereof.

2. A levy of 3% of the fob value shall be applied to exports of whole frozen fish, frozen fish waste, frozen Norway lobster, frozen shrimp, frozen capelin, capelin meal, capelin oil and hydrogenated oils and fats from fish or marine mammals.

3. A levy of 5% of the fob value shall be applied to exports of whale products other than preserved in hermetic containers.

4. A levy of 6% of the fob value shall be applied to exports of fish meal, redfish meal, Norway lobster meal, shrimp meal, liver meal, codliver oil, redfish oil, whole frozen herring, frozen herring fillets, salted herring, salted herring fillets, salted lumpfish roes and other fish products not specified in this Article.

500 Icelandic Crowns per 100 kg of contents may be deducted from the fob value of salted herring and salted lumpfish roes to cover packing costs.

5. A levy of 7% of the fob value shall be applied to exports of fresh and chilled fish.

The Ministry of Fisheries may, however, decide that the levy on fresh or chilled herring shall be equal to that which would have been applicable had the herring been processed in Iceland by the same method as is to be used abroad (see points 4 and 6 of this Article).

6. A levy of 8% of the fob value shall be applied to exports of herring meal, herring solubles and herring oil.

7. Seal products are not subject to the export levy.

For the purposes of point 1, uncooked preserved products in hermetic containers shall mean uncooked preserved products ready for consumption in hermetic containers of 10 kg net or less. Fully processed uncooked products in larger containers shall also be regarded as uncooked preserved products in hermetic containers if the exporter supplies proof that the value of the unprocessed product is less than one-third of the export value of the exported products.

Where Icelandic vessels sell, in foreign ports, fresh or processed fish products caught by their own or other vessels and subject to this levy, the said levy shall be applied on the gross value of such sales, less customs duties and other unloading and sales charges, in accordance with rules issued by the Ministry of Fisheries.

Article 3

The Treasury shall collect the export levy in accordance with the provision of Article 2, and the receipts shall be distributed as follows:

1. For payments of insurance premiums for fishing vessels in accordance with rules issued by the Ministry of Fisheries	82-0 %
2. To the Fisheries Loan Fund of Iceland	11-4 %
3. To the Fisheries Fund	3-1 %
4. To the building of vessels for ocean and fishery research	1-8 %
5. For the building of Fisheries Research Institutes	0-7 %
6. To the Federation of Icelandic Fishing Vessel Owners	0-5 %

7. To seamen's unions in accordance with rules issued by the Ministry of Fisheries 0-5 §

Payment of the insurance premiums for fishing vessels referred to in item 1 may be subject to the condition that the insurance company concerned be a member of the Underwriters' Reinsurance Union and be required to apply certain rules concerning calculation of premium rates, insurance terms and hull values.

Whalers may be exempted from these conditions and are then entitled to reimbursement of their contribution to the Fishing Vessels' Insurance Fund instead of the insurance premiums.

Article 4

The levy provided for in Article 2, points 2, 3 and 4, shall be applied to the selling price of the products, including packing, fob vessels in the first port of landing. The value of the products sold cif or under other terms, shall be adjusted to the fob valued in accordance with rules issued by the Ministry of Trade.

Where unsold products are exported the export levy provided for in Article 2, points 2, 3 and 4 shall be calculated on the basis of the minimum export price stipulated in the export licence.

If the exporter supplies proof, within 6 months of the date shown on the bill of lading, that the price of an unsold fish product, as determined by the competent authority, is higher than the actual selling price, the Ministry of Finance shall refund the difference, subject to confirmation by the Ministry of Trade that sale at the lower price has been approved.

The levy provided for in Article 2, point 1 shall be applied to the net weight of the sold product, which must be indicated in the export documents.

Article 5

The export levy falls due as soon as a ship has been cleared for sailing or before landing, should customs clearance not be required. The Ministry of Fisheries may, however, authorize the shipper to pay the dues when he receives the foreign currency, provided that the transaction is carried out through an Icelandic bank and that he gives the Customs Authorities a promissory note, representing the exchange value of the sum due.

Article 6

Shippers of products covered by the provisions of this Law shall submit to the competent authority before a ship is cleared for sailing or before landing a duplicate or a certified copy of the bill of landing or other shipping documents, an export declaration, an invoice and, if required, a certificate of inspection, together with an export licence. If no export document has been issued, the shipper shall make a declaration regarding the quantity being shipped.

The provisions of this Article concerning the shipper shall also apply to the master of the ship, in the event of absence of or negligence by the shipper, and to the shipbrokers.

The levy shall be applied on the basis of the information contained in the documents mentioned in this Article.

Article 7

The ship and its cargo shall constitute surety for payment of the export levy.

Article 8

The competent authorities shall draw up a statement of export levies collected under the provisions of this Law in accordance with the instructions given by the Ministry of Finance and the rules relating to public accounts.

Article 9

Any infringement of this Law is liable to a fine unless another law provides for a stricter penalty. Moreover, any shipper, ship's master or shipbroker found guilty of giving incorrect information about a ship's cargo shall pay triple the export levy in respect of which the fraud was attempted.

The fines shall be paid to the Treasury.

Should the competent authorities suspect that the documents referred to in Article 6 are incorrect, they shall inspect the ship's cargo before shipment or landing, or shall by some other means obtain the documents necessary for this purpose.

Article 10

Infringements of this Law shall be tried under the provisions of the law governing criminal procedure.

Article 11

The Government shall be authorized to apply levies on the net weight of the products specified in Article 2, point 1 of this Law in accordance with Article 9 of Law No. 77 of 28 April 1962 on the Fisheries Catch Equalization Fund and Article 9 Act No. 42 of 9 June 1960 on Fresh Fish Inspection.

Article 12

The Ministry of Fisheries may issue a regulation laying down further directives concerning the application of this Law.

b) L'exploitation abusive, par une ou plusieurs entreprises, d'une position dominante sur l'ensemble ou dans une partie substantielle du territoire des Etats parties au présent Accord.

2. A partir de la troisième année de l'entrée en vigueur du présent Accord, les dispositions du paragraphe 1 s'appliqueront également aux activités des entreprises publiques et à celles des entreprises pour lesquelles les Parties accordent des droits spéciaux ou exclusifs dans la mesure où l'application desdites dispositions ne gêne pas l'accomplissement, en droit ou en fait, des tâches publiques particulières qui leur sont assignées.

3. Si un Etat Partie au présent Accord considère qu'une pratique donnée est incompatible avec les dispositions des paragraphes 1 et 2 et si ladite pratique cause ou menace de causer des préjudices graves aux intérêts de cet Etat Partie ou des torts matériels à son industrie nationale, il peut prendre les mesures appropriées, après consultation au sein du Comité mixte ou au terme d'un délai de 30 jours suivant la demande de consultations.

Article 19

AIDES GOUVERNEMENTALES

1. Toute aide accordée par un Etat Partie au présent Accord ou prélevée sur les ressources de cet Etat sous quelque forme que ce soit, qui fausse ou risque de fausser le jeu de la concurrence en favorisant certaines entreprises ou la production de certaines marchandises est, pour autant qu'elle affecte les échanges entre un Etat de l'AELE et la Roumanie, réputée incompatible avec le bon fonctionnement du présent Accord.

2. Toute pratique contraire au paragraphe 1 devra être évaluée sur la base des critères fixés en Annexe XII.

3. En vue d'appliquer les dispositions des paragraphes 1 et 2, les Etats parties au présent Accord conviennent que pendant les cinq premières années suivant l'entrée en vigueur du présent Accord, la Roumanie sera considérée comme une zone où le niveau de vie est anormalement bas et où le chômage est grave, ce qui signifie que la Roumanie peut accorder une aide plus importante que celle tolérée pour les Etats de l'AELE d'après les critères fixés à l'Annexe XII. Le Comité mixte peut, en tenant compte de la situation économique de la Roumanie, décider de prolonger l'application de ladite disposition.

4. Les Etats parties au présent Accord veilleront à assurer la transparence des mesures d'aide publique en échangeant des informations, comme prévu à l'Annexe XIII.

5. Si un Etat Partie au présent Accord considère qu'une pratique particulière est incompatible avec les dispositions du paragraphe 1, il peut prendre des mesures appropriées contre cette pratique, qui ne dépasseront pas l'ampleur du tort causé par ladite pratique, dans les conditions et conformément aux procédures fixées à l'article 25.

Article 20

DUMPING

1. Si un Etat de l'AELE constate des pratiques de dumping au sens de l'Article VI de l'Accord général sur les tarifs douaniers et le commerce, dans ses relations commerciales avec la Roumanie, ou si cette dernière constate l'existence de pratiques de dumping au sens du même article dans ses échanges commerciaux avec un Etat de l'AELE, l'Etat partie concerné peut prendre les mesures appropriées contre cette pratique, conformément à l'Accord relatif à la mise en œuvre de l'Article VI de l'Accord général sur les tarifs douaniers et le commerce¹ et à la procédure exposée dans l'Article 25.

¹ Nations Unies, *Recueil des Traités*, vol. 651, p. 321.

Article 21

MESURES D'URGENCE APPLICABLES À L'IMPORTATION DE CERTAINS PRODUITS

Lorsque l'augmentation des importations d'une marchandise donnée survient en quantités et dans des conditions qui causent ou risquent de causer :

a) Un préjudice grave aux producteurs nationaux de produits similaires ou directement concurrentiels de l'Etat partie importateur, ou

b) De graves perturbations dans un quelconque secteur de l'économie, ou des difficultés de nature à entraîner une sévère détérioration de la situation économique d'une région,

l'Etat partie concerné peut prendre les mesures appropriées dans les conditions et selon les procédures prévues à l'article 25.

Article 22

AJUSTEMENT STRUCTUREL

1. Des mesures exceptionnelles de durée limitée qui constituent une dérogation par rapport aux dispositions de l'article 4 peuvent être prises par la Roumanie sous forme d'augmentation des droits de douane.

2. Lesdites mesures ne peuvent concerner que les industries naissantes ou certains secteurs en cours de restructuration ou confrontés à de graves difficultés, particulièrement lorsque ces difficultés causent de sérieux problèmes sociaux.

3. Les droits de douane sur les importations applicables en Roumanie aux produits originaires des Etats de l'AELE, introduits au titre de ces mesures ne peuvent pas dépasser 25% ad valorem et prévoient un élément de préférence des produits originaires des Etats de l'AELE. La valeur totale des importations des produits qui sont soumis à ces mesures ne peut pas dépasser 15 pour cent des importations totales de produits industriels des pays de l'AELE, comme défini à l'article 2, pendant la dernière année pour laquelle des statistiques sont disponibles.

4. Lesdites mesures seront appliquées pendant une période ne dépassant pas cinq ans, à moins qu'une durée plus longue ne soit autorisée par le Comité mixte. Elles cesseront de jouer plus tard à la fin de la période de transition.

5. Aucune mesure de ce type ne peut être introduite au sujet d'un produit si plus de trois ans se sont écoulés depuis l'élimination de tous les droits de douane et des restrictions quantitatives ou taxes ou mesures d'effet équivalent, en ce qui concerne ce produit.

6. La Roumanie informera le Comité mixte de toutes mesures exceptionnelles qu'elle a l'intention de prendre et à la demande des Etats de l'AELE, des consultations seront organisées avec le Comité mixte sur ces mesures et sur les secteurs auxquels elles s'appliqueront avant que lesdites mesures n'entrent en vigueur. Lorsqu'elle prend ces mesures, la Roumanie doit fournir au Comité mixte un calendrier pour l'élimination des droits de douane introduits au titre du présent article. Ledit calendrier doit prévoir l'élimination progressive de ces droits à partir des deux dernières années après leur introduction, et à des taux annuels égaux. Le Comité mixte peut décider d'un calendrier différent.

Article 23

RÉEXPORTATION ET PÉNURIE GRAVE

Lorsque l'application des dispositions des articles 7 et 9 donne lieu :

a) A la réexportation vers un pays tiers à l'encontre duquel l'Etat partie au présent Accord, qui exporte, maintient pour le produit en question des restrictions quantitatives à l'exportation, voire des mesures ou taxes d'effet équivalent, ou

b) A une pénurie grave d'un produit essentiel à l'Etat partie exportateur au présent Accord, ou au risque d'une telle pénurie,

et lorsque les situations précitées causent ou risquent de causer de graves difficultés à l'Etat partie au présent Accord, qui exporte, ce dernier peut prendre les mesures appropriées dans les conditions et selon les procédures prévues à l'article 25. Les mesures seront non discriminatoires et seront éliminées lorsque la situation ne justifiera plus leur maintien.

Article 24

DIFFICULTÉS DE BALANCE DES PAIEMENTS

1. Lorsqu'un Etat de l'AELE ou la Roumanie éprouve ou est gravement menacé d'éprouver à très bref délai des difficultés de balance des paiements, l'Etat de l'AELE ou la Roumanie, selon le cas, peut, dans les conditions prévues par l'Accord général sur les tarifs douaniers et le commerce, adopter des mesures de restriction des échanges, de durée limitée et non discriminatoires, qui ne sauraient outrepasser le strict nécessaire pour remédier à la situation de la balance des paiements. Ces mesures seront progressivement allégées en fonction de l'amélioration de la balance des paiements et seront éliminées dès que la situation n'en justifiera plus le maintien. L'Etat de l'AELE et la Roumanie, selon le cas, informera sans délai les autres Etats parties au présent Accord et le Comité mixte de l'introduction de ces mesures et, le cas échéant, du calendrier de leur suppression.

2. Les Etats parties au présent Accord s'efforceront néanmoins de s'abstenir de prendre des mesures restrictives à des fins d'équilibre de la balance des paiements.

Article 25

PROCÉDURE D'APPLICATION DES MESURES DE SAUVEGARDE

1. Avant d'engager la procédure pour l'application des mesures de sauvegarde prévues aux paragraphes suivants du présent article, les Etats parties au présent Accord s'efforceront de trouver une solution à toutes les divergences entre eux grâce à des consultations directes et informeront les autres Etats parties au présent Accord en conséquence.

2. Sans préjudice du paragraphe 6 du présent article, un Etat partie qui envisage l'adoption de mesures de sauvegarde informera rapidement les autres Etats parties et le Comité mixte et fournira tous les renseignements pertinents. Des consultations entre les Etats parties seront organisées sans retard au sein du Comité mixte en vue de trouver une solution acceptable pour tous.

3. a) En ce qui concerne l'article 13, les Etats parties concernés accorderont au Comité mixte toute l'assistance nécessaire pour examiner le cas et, le cas échéant, éliminer la pratique contestée. Si l'Etat partie en cause ne met pas fin à la pratique contestée dans les délais fixés par le Comité mixte ou si ce dernier ne réussit pas à conclure un accord après les consultations ou trente jours après le dépôt de la demande de consultation, l'Etat partie concerné peut adopter les mesures appropriées pour résoudre les difficultés provoquées par la pratique en question.

b) En ce qui concerne les articles 20, 21 et 23, le Comité mixte examinera le dossier ou la situation et pourra prendre toute décision propre à mettre fin aux difficultés notifiées par l'Etat partie concerné. Faute d'une telle décision dans les trente jours qui suivent la notification du cas au Comité mixte, l'Etat Partie concerné pourra prendre les mesures propres à remédier à la situation.

c) En ce qui concerne l'article 31, l'Etat partie concerné fournira au Comité mixte tous les renseignements pertinents nécessaires à un examen approfondi de la situation en vue de rechercher une solution généralement acceptable. Si le Comité mixte ne parvient pas à une solution ou si trois mois se sont écoulés depuis la date de la notification du cas, l'Etat partie concerné pourra prendre les mesures appropriées.

4. Les mesures de sauvegarde prises seront immédiatement notifiées à l'autre Etat partie. Elles seront limitées, quant à leur portée et à la durée de leur validité, au strict nécessaire pour remédier à la situation qui en a provoqué l'application et ne sauraient outrepasser le préjudice imputable à la pratique ou aux difficultés en question. Les mesures qui apportent le moins de perturbation au fonctionnement du présent Accord doivent être choisies par priorité. Les mesures prises par la Roumanie contre une action ou une omission d'un Etat de l'AELE affectent uniquement le commerce avec ledit Etat. Les mesures prises contre une action ou une omission de la Roumanie ne peuvent être prises que par le ou les Etats de l'AELE dont le commerce est affecté par ladite action ou omission.

5. Les mesures de sauvegarde font l'objet de consultations périodiques au sein du Comité mixte en vue de leur allègement, de leur remplacement ou de leur suppression dans les plus brefs délais.

6. Lorsque des circonstances exceptionnelles appelant une intervention immédiate excluent l'examen préalable, l'Etat partie concerné peut, dans les situations visées aux articles 20, 21 et 23 appliquer immédiatement les mesures conservatoires strictement nécessaires pour faire face à la situation. Ces mesures sont notifiées sans délai, et des consultations entre les Etats parties au présent Accord auront lieu au sein du Comité mixte le plus rapidement possible.

Article 26

EXCEPTIONS AU TITRE DE LA SÉCURITÉ

Aucune disposition du présent Accord n'empêche un Etat partie de prendre les mesures qu'il estime nécessaires :

a) En vue d'empêcher la divulgation de renseignements contraires aux intérêts essentiels de sa sécurité;

b) En vue de protéger les intérêts essentiels de sa sécurité, de s'acquitter d'obligations qui lui incombent sur le plan international ou de mettre en œuvre des politiques nationales

- i) Qui ont trait au commerce d'armes, de munitions ou de matériel de guerre, sous réserve que ces mesures ne portent pas préjudice aux conditions de la concurrence entre produits non destinés à des usages spécifiquement militaires, ainsi qu'au commerce d'autres marchandises, matériaux ou services tel qu'il s'exerce directement ou indirectement, pour l'approvisionnement d'un établissement militaire; ou
- ii) Qui ont trait à la non-prolifération des armes biologiques et chimiques, de l'armement atomique ou d'autres engins explosifs nucléaires; ou
- iii) En temps de guerre ou en cas de grave tension internationale.

Article 27

1. La mise en œuvre du présent Accord sera surveillée et administrée par le Comité mixte créé au titre de la Déclaration de Genève, qui aura également les pouvoirs et les compétences confiés au Comité mixte au titre du présent Accord.

2. Pour assurer la mise en œuvre du présent Accord, les Etats parties au présent Accord échangeront des renseignements et à la demande de l'un quelconque des Etats parties au présent Accord organiseront des consultations au sein du Comité mixte. Ce dernier examinera de façon permanente la possibilité de supprimer d'autres obstacles au commerce entre les Etats de l'AELE et la Roumanie.

3. Le Comité mixte peut prendre des décisions dans les cas prévus dans le présent Accord. Sur d'autres questions, le Comité peut faire des recommandations.

Article 28

PROCÉDURES DU COMITÉ MIXTE

1. Le Comité mixte se réunit chaque fois qu'il le faut, mais au moins une fois l'an ou à la demande de tout Etat partie.

2. Le Comité prend ses décisions par commun accord de ses membres.

3. Si une décision du Comité mixte est acceptée par un représentant auprès dudit Comité d'un Etat partie au présent Accord sous réserve d'accomplissement de formalités constitutionnelles, elle entre en vigueur le jour où la levée de la réserve est notifiée, à moins qu'elle ne prévoie elle-même une date ultérieure d'entrée en vigueur.

4. Aux fins du présent Accord, le Comité mixte adopte son propre règlement intérieur, qui contient notamment des dispositions relatives à la convocation des réunions ainsi qu'à la désignation du président et à la durée de son mandat.

5. Le Comité mixte peut décider de créer les sous-comités et groupes de travail qu'il considère comme nécessaires pour l'aider à s'acquitter de ses tâches.

Article 29

CLAUSE D'ÉVOLUTION

1. Lorsqu'un Etat partie au présent Accord estime qu'il serait utile dans l'intérêt des économies des Etats parties au présent Accord de développer et d'approfondir les relations créées par ledit Accord en les étendant à des secteurs que ce dernier ne couvrait pas, ledit Etat soumettra une requête motivée aux Etats parties au présent Accord. Les Etats parties peuvent confier au Comité mixte le soin d'examiner cette requête et de leur formuler, le cas échéant, des recommandations, en particulier en vue de l'ouverture de négociations.

2. Les accords résultant de la procédure définie au paragraphe 1 seront soumis à la ratification ou à l'approbation par les Etats parties au présent Accord selon les procédures qui leur sont propres.

Article 30

Dans leurs efforts pour développer et élargir progressivement leur coopération, notamment dans le contexte de l'intégration européenne, ils agiront ensemble dans le dessein d'aboutir à la libéralisation graduelle et à l'ouverture réciproque de marchés propices aux investissements et aux échanges de services, compte tenu des travaux pertinents du GATT en la matière.

2. Les Etats de l'AELE et la Roumanie examineront au sein du Comité mixte¹ ladite opération en vue de développer et d'approfondir leurs relations dans le cadre dudit Accord.

Article 31

EXÉCUTION DES OBLIGATIONS

1. Les Etats parties au présent Accord prendront toutes les mesures nécessaires à la réalisation des objectifs de l'Accord et à l'exécution des obligations qui leur incombent en vertu de l'Accord.

2. Si un Etat partie estime que la Roumanie a, ou si cette dernière estime qu'un Etat partie a failli à une obligation qui lui incombe en vertu de l'Accord, l'Etat partie concerné peut prendre les mesures appropriées dans les conditions et selon les procédures prévues à l'article 25.

Article 32

ANNEXES ET PROTOCOLES

Les Annexes et les Protocoles au présent Accord en font partie intégrante. Le Comité mixte peut décider d'amender les Annexes et les Protocoles A et B.

¹ L'Autriche se réserve le droit de ne pas inclure les questions relatives au trafic de transit dans ces discussions et dans les accords qui peuvent en résulter.

Article 33

RELATIONS COMMERCIALES RÉGIES PAR D'AUTRES ACCORDS

Le présent Accord s'applique aux relations commerciales entre d'une part les Etats de l'AELE et de l'autre la Roumanie, mais pas aux relations commerciales entre les Etats de l'AELE excepté les cas prévus dans le présent Accord.

*Article 34*UNIONS DOUANIÈRES, ZONES DE LIBRE-ÉCHANGE
ET COMMERCE FRONTALIER

Le présent Accord ne fait pas obstacle au maintien ou à la constitution d'unions douanières ou de zones de libre-échange, ni aux arrangements relatifs au commerce frontalier, pour autant que ceux-ci ne portent pas atteinte au régime des relations commerciales et, en particulier, aux dispositions du présent Accord qui concerne les règles d'origine.

Les instruments d'acceptation seront confiés au Dépositaire.

Article 37

ACCESSION

1. Tout Etat, membre de l'Association européenne de libre-échange, peut accéder au présent Accord à condition que le Comité mixte décide d'approuver son accession qui sera négociée entre l'Etat qui demande à adhérer et les Etats parties concernés, à des clauses et conditions à définir dans cette décision. 2. En ce qui concerne l'Etat qui demande à accéder, l'Accord peut entrer en vigueur le premier jour du troisième mois qui suit le dépôt de son instrument d'accession.

Article 38

RETRAIT ET EXTINCTION

2. Si la Roumanie se retire, l'Accord expirera à la fin de la période de notification et si tous les Etats de l'AELE se retirent, il expirera à la fin de la dernière période de notification.

3. Tout Etat membre de l'AELE partie au présent Accord qui se retire de la Convention instituant l'Association européenne de libre-échange cesse de ce fait, le même jour, d'être partie au présent Accord.

ANNEXE I MENTIONNÉE À L'ALINÉA *a* DE L'ARTICLE 2

PROTOCOLE A CONCERNANT LES PRODUITS VISÉS À L'ALINÉA *b* DE L'ARTICLE 2

Article premier

Les dispositions de l'Accord s'appliqueront aux produits énumérés au Tableau 1.

Article 2

1. Afin de tenir compte des différences dans les coûts des matières premières agricoles incorporées dans les marchandises spécifiées dans les Tableaux mentionnés dans le présent article, l'Accord n'écarte pas :

- i) La perception à l'importation d'un élément variable ou d'un montant fixe, ou l'application de mesures de compensation des prix internes;
- ii) L'application des mesures adoptées à l'exportation.

2. Les mesures de compensation de prix ne dépasseront pas la différence entre le prix intérieur et le prix du marché mondial des matières premières agricoles entrant dans les marchandises concernées. Toutefois, si le prix intérieur d'une matière première agricole dans le pays d'origine est plus bas que le prix du marché mondial, le pays importateur peut prendre ce fait en compte au moment de calculer les montants compensatoires.

3. Le système de compensation de prix tel qu'il est décrit aux paragraphes 1 et 2 ne restreindra en aucune façon l'application des politiques agricoles respectives des pays de l'AELE et de la Roumanie ou la prise de mesures quelconques au titre de ces politiques.

Article 3

1. Pour les produits énumérés aux Tableaux II, III, IV, V et VI, les différents Etats de l'AELE accorderont à la Roumanie les concessions indiquées dans ces tableaux.

2. Le traitement qui sera accordé par l'Islande est expliqué au Tableau VII. Les droits de douane sont indiqués dans la Liste I et les droits de nature fiscale dans la Liste II du Tableau. L'Islande peut toutefois remplacer ces droits par d'autres mesures de compensation de prix conformément aux paragraphes 1 et 2 de l'article 2 mais une action de ce type n'entraînera pas un traitement moins favorable pour la Roumanie pour les produits cités au Tableau VII que celui accordé par l'Islande à la Communauté économique européenne.

Article 4

1. Pour les produits énumérés au Tableau VIII, la Roumanie accordera aux Etats de l'AELE les concessions indiquées aux paragraphes 3 et 4 ci-dessous.

2. La Roumanie définira, conformément aux paragraphes 1 et 2 de l'article 2 et au plus tard au 1^{er} juillet 1995, l'élément agricole pour les produits énumérés au Tableau VIII. L'élément agricole peut être remplacé par des mesures de compensation de prix.

3. Les droits sur les importations applicables en Roumanie à partir de l'entrée en vigueur de l'Accord et jusqu'au 31 décembre 1995 aux produits mentionnés au Tableau VIII seront ceux qui sont en vigueur au 30 avril 1993. Si à la suite des

réformes de la politique agricole roumaine, l'incidence de l'élément agricole augmente, la Roumanie informera le Comité mixte qui peut accepter une augmentation du droit concerné proportionnel à cette incidence.

4. Pour les produits énumérés au Tableau VIII, la Roumanie éliminera progressivement l'élément non agricole avant le 1^{er} janvier 2000, conformément au calendrier établi par le Comité mixte.

Article 5

1. Les Etats de l'AELE informeront la Roumanie et la Roumanie informera les Etats de l'AELE de toutes les mesures de compensation de prix appliquées au titre de l'article 2 du présent Protocole.

2. La Roumanie et les Etats de l'AELE s'informeront réciproquement de tous les changements apportés au traitement accordé à la Communauté économique européenne.

Article 6

Les Etats de l'AELE et la Roumanie examineront tous les deux ans l'évolution de leur commerce en ce qui concerne les produits couverts par le présent Protocole. Un premier examen aura lieu avant la fin de 1993. A la lumière de ces examens et compte tenu des arrangements entre les Etats parties au présent Accord et la Communauté économique européenne dans ce domaine et avec le GATT, les Etats de l'AELE et la Roumanie décideront des changements possibles en ce qui concerne les produits couverts par le présent Protocole ainsi qu'un éventuel développement de la réglementation concernant les systèmes de compensation de prix.

Les expressions « chapitre » et « position tarifaire » utilisées dans le présent Protocole s'entendent des chapitres et des positions tarifaires (codes à quatre chiffres) utilisés dans la Nomenclature qui constitue le « Système harmonisé de désignation et de codification des marchandises » (ci-après mentionné sous le nom de Système harmonisé ou SH). L'expression « classé » se rapporte à la classification d'un produit ou d'une matière dans une position tarifaire particulière.

2. Aux fins de l'article premier, les matières non originaires sont considérées comme ayant été suffisamment ouvrées ou transformées lorsque le produit obtenu est classé sous une position tarifaire qui est différente de celles dans lesquelles toutes les matières non originaires utilisées pour sa fabrication sont classées, sous réserve des dispositions des paragraphes 3, 4 et 5.

3. Pour un produit mentionné aux colonnes 1 et 2 de la Liste en Annexe II au présent Protocole, les conditions fixées dans la colonne 3, pour le produit concerné doivent être satisfaites au lieu de la règle contenue au paragraphe 2.

Lorsque la valeur des matières originaires utilisées doit être établie, le présent paragraphe sera appliqué *mutatis mutandis*.

2. L'expression « prix départ usine » dans l'Annexe II signifie le prix départ usine du produit obtenu moins tous les impôts intérieurs qui sont, ou peuvent être, remboursés lorsque le produit obtenu est exporté.

Article 7

Les marchandises qui sont des produits originaires au sens du présent Protocole et forment un envoi unique non fractionné peuvent être transportées à travers un territoire autre que celui de tout Etat partie au présent Accord ou de Bulgarie et, le cas échéant, transbordées ou temporairement entreposées sur ce territoire, à condition que la traversée de celui-ci soit géographiquement justifiée, que les marchandises soient restées sous la surveillance des autorités douanières dans le pays de transit ou d'entreposage, qu'elles n'aient pas été mises dans le circuit commercial de ce pays ni livrées à des fins de consommation privée et qu'elles n'aient pas subi

d'autres opérations que celles du déchargement et du rechargement ou toute opération destinée à les conserver en bon état.

TITRE II

MÉTHODES DE COOPÉRATION ADMINISTRATIVE

Article 8

1. Sur présentation d'un des documents ci-après, les produits originaires au sens du présent Protocole bénéficient de l'Accord lorsqu'ils sont importés dans un Etat partie au présent Accord,

a) Un certificat de circulation des marchandises EUR.1, ci-après dénommé « certificat EUR.1 » ou un certificat EUR.1, valide pour une longue période et des factures se rapportant audit certificat et établies conformément à l'Article 13. Un modèle de certificat EUR.1 est donné en Annexe III au présent Protocole.

b) Une facture portant la déclaration de l'exportateur telle qu'elle est donnée en Annexe IV au présent Protocole, établie conformément à l'Article 13;

c) Une facture portant la déclaration de l'exportateur telle qu'elle est donnée en Annexe IV au présent Protocole établie par tout exportateur pour toute expédition composée d'un ou de plusieurs paquets contenant des produits originaires dont la valeur totale ne dépasse pas 5 110 unités de compte.

2. Sont admis à l'importation comme produits originaires au sens du présent Protocole, sans qu'il soit nécessaire de présenter l'un des documents mentionnés dans le paragraphe 1 :

a) Les produits expédiés en petits colis par des particuliers à des particuliers, à condition que leur valeur ne dépasse pas 365 unités de compte;

b) Les produits qui font partie des bagages personnels des voyageurs, à condition que leur valeur ne dépasse pas 1 025 unités de compte.

Ces conditions s'appliquent seulement lorsque les marchandises ne sont pas importées commercialement, lorsqu'il a été déclaré qu'elles remplissent les conditions requises pour l'application de l'Accord et lorsque la véracité de cette déclaration ne fait aucun doute.

Les importations qui sont occasionnelles et consistent uniquement en marchandises destinées à l'usage personnel des destinataires ou voyageurs ou de leurs familles ne sont pas considérées comme des importations commerciales s'il ressort manifestement de la nature et de la quantité des marchandises que l'opération n'a aucune fin commerciale.

3. Les montants dans la devise nationale de l'Etat partie exportateur à l'Accord équivalant aux montants exprimés en unités de compte seront fixés par l'Etat exportateur et communiqués aux autres Etats parties à l'Accord. Lorsque les montants dépassent les montants correspondants fixés par l'Etat importateur, ce dernier les accepte si les marchandises sont facturées dans la monnaie de l'Etat exportateur.

Si les marchandises sont facturées dans la monnaie d'un autre Etat partie à l'Accord, l'Etat importateur reconnaît le montant notifié par l'Etat concerné.

4. L'équivalent d'une unité de compte dans les monnaies des Etats parties à l'Accord sera les montants spécifiées à l'Annexe VI au présent Protocole.

5. Les montants exprimés en unités de compte devront être revus chaque fois que nécessaire mais au moins tous les deux ans.

6. Les accessoires, pièces de rechange et outils qui, expédiés avec un élément de matériel, une machine, un appareil ou un véhicule, font partie de son équipement normal et figurent dans son prix ou ne sont pas facturés séparément sont réputés former un tout avec l'élément de matériel, la machine, l'appareil ou le véhicule en question.

7. Les assortiments de produits, au sens de la Règle générale 3 du Système harmonisé sont réputés originaires lorsque tous les articles qui les composent sont des produits originaires. Néanmoins, lorsqu'un assortiment se compose à la fois d'articles originaires et d'articles non originaires, il est, dans son ensemble, réputé originaire à condition que la valeur des articles non originaires ne dépasse pas 15 % de sa valeur totale.

Article 9

1. Les autorités douanières de l'Etat exportateur délivrent un certificat EUR.1 quand les marchandises visées par ce certificat sont exportées. Il est remis à l'exportateur dès que l'exportation proprement dite a été effectuée ou confirmée.

2. Les autorités douanières d'un Etat partie au présent Accord délivrent un certificat EUR.1 si les marchandises à exporter peuvent être considérées comme des produits originaires de cet Etat au sens de l'article premier.

3. Les autorités douanières d'un Etat partie au présent Accord peuvent, à condition que les marchandises qui font l'objet des certificats EUR.1 se trouvent dans son territoire, émettre des certificats EUR.1 dans les conditions exposées dans le présent paragraphe si les marchandises à exporter peuvent être considérées comme des produits originaires d'un Etat partie au présent Accord ou de Bulgarie au sens de l'article 2.

Dans ces conditions, l'émission du certificat EUR.1 est soumise à la présentation de la preuve d'origine émise ou faite précédemment.

4. Un certificat EUR.1 n'est délivré que s'il peut servir de pièce justificative aux fins d'application du régime préférentiel prévu dans le présent Accord ou dans les Accords mentionnés à l'alinéa b, iii, du paragraphe 1 de l'article premier.

La date de délivrance du certificat EUR.1 doit figurer dans la case réservée aux autorités douanières.

5. Un certificat EUR.1 peut aussi être exceptionnellement délivré après l'exportation des marchandises visées, au cas où il n'aurait pas été délivré au moment de l'exportation en raison d'erreurs, d'omissions involontaires ou de circonstances particulières.

Les autorités douanières ne peuvent délivrer un certificat EUR.1 *a posteriori* qu'après avoir vérifié que les indications fournies dans la demande présentée par l'exportateur concordent avec celles qui figurent sur le document correspondant.

Les certificats EUR.1 délivrés *a posteriori* doivent porter l'une des mentions suivantes : « NACHTRÄGLICH AUSGESTELLT », « DÉLIVRÉ A POSTERIORI », « RISLASCIATO A POSTERIORI », « ISSUED RETROSPECTIVELY », « ANNETTU JÄLKIKÄTEEN »,

« UTSTEDT SENERE », « UTFÄRDAT I EFTERHAND », « ÛTGEFID EFTIR A », « ELIBERAT A POSTERIORI ».

6. En cas de vol, perte ou destruction d'un certificat EUR.1, l'exportateur peut demander aux autorités douanières qui le lui ont délivré d'en établir un duplicata à partir des documents d'exportation en leur possession. Ce duplicata doit porter l'une des mentions suivantes : « DUPLIKAT », « DUPLICATA », « DUPLICATO », « DUPLICATE », « KAKSOISKAPPALE », « EFTIRIT », « DUPLICAT ».

Le duplicata, sur lequel doit figurer la date de délivrance du certificat EUR.1 original, prend effet à compter de cette date.

7. Les mentions auxquelles se réfèrent les paragraphes 5 et 6 doivent figurer dans la case « Observations » du certificat EUR.1.

8. Il est toujours possible de remplacer un ou plusieurs certificats EUR.1 par un ou plusieurs autres certificats EUR.1, à condition que ce remplacement soit fait au bureau de douane où se trouvent les marchandises.

9. Pour vérifier si les conditions indiquées aux paragraphes 2 et 3 du présent article ont été remplies, les autorités douanières ont le droit de demander toute pièce justificative ou de procéder à tout contrôle qu'elles jugent approprié.

10. Les dispositions des paragraphes 2 à 9 ci-dessus s'appliqueront, *mutatis mutandis*, à la preuve de l'origine faite par les exportateurs agréés dans les conditions fixées à l'article 13.

Article 10

1. Un certificat EUR.1 n'est délivré que si l'exportateur ou, sous sa responsabilité, son représentant par lui dûment autorisé, en présente la demande par écrit sur la formule dont un modèle figure à l'Annexe II du présent Protocole et en la remplissant comme il est prévu dans le présent Protocole.

2. Il incombe aux autorités douanières de l'Etat exportateur de s'assurer que la formule visée au paragraphe 1 du présent article est convenablement remplie. Elles doivent en particulier vérifier si la case réservée à la désignation des marchandises a été complétée de manière à exclure toute possibilité d'adjonctions frauduleuses. A cette fin, il y a lieu d'indiquer la désignation des marchandises sans laisser de lignes en blanc. Lorsque la case n'est pas complètement remplie, il convient de tirer un trait horizontal sous la dernière ligne de la désignation et de biffer d'un trait diagonal tout espace restant.

3. Etant donné que le certificat EUR.1 constitue la pièce justificative de la demande d'admission au bénéfice des arrangements tarifaires et contingentaires préférentiels prévus dans l'Accord, il incombe aux autorités douanières de l'Etat exportateur de prendre toutes les dispositions nécessaires pour vérifier l'origine des marchandises et contrôler les autres mentions figurant sur le certificat.

4. Quand un certificat EUR.1 est délivré, au sens du paragraphe 5 de l'article 9 du présent Protocole, après que les marchandises visées ont effectivement été exportées, l'exportateur doit faire figurer dans la demande mentionnée au paragraphe 1 du présent article :

— Une indication du lieu et de la date d'exportation des marchandises auxquelles le certificat EUR.1 se réfère;

— Une attestation qu'aucun certificat EUR.1 n'a été délivré au moment de l'exportation des marchandises en question, en précisant les raisons.

5. Les demandes de certificats EUR.1 et les preuves d'origine mentionnées dans le second alinéa du paragraphe 3 de l'article 3, sur présentation desquelles, les nouveaux certificats EUR.1 sont établis doivent être conservées pendant deux ans au moins par les autorités douanières de l'Etat exportateur.

Article 11

1. Les certificats EUR.1 doivent être établis sur la formule dont un modèle figure à l'Annexe III au présent Protocole. Cette formule doit être imprimée dans une ou plusieurs des langues officielles des Etats parties au présent Accord, ou en langue anglaise. Les certificats EUR.1 doivent être établis dans une de ces langues et conformément aux dispositions du droit interne de l'Etat exportateur; s'ils sont remplis à la main, ils doivent l'être à l'encre, en capitales d'imprimerie.

2. Le certificat EUR.1 doit avoir un format de 210 x 297 mm, une marge de tolérance maximale de plus de 8 mm ou moins de 5 mm dans la longueur étant admise. Le papier utilisé doit être un papier à écrire blanc glacé ne contenant pas de pâte mécanique et d'un poids minimal de 25 g/m². Il doit comporter un fond guilloché vert imprimé rendant visible à l'œil nu toute falsification par des moyens mécaniques ou chimiques.

3. Les Etats parties au présent Accord peuvent se réserver le droit d'imprimer eux-mêmes les certificats EUR.1 ou de les faire imprimer par des imprimeurs qu'ils auront agréés, auquel cas chaque certificat EUR.1 devra porter mention de cet agrément ainsi que du nom et de l'adresse de l'imprimeur ou une marque permettant de l'identifier. Il portera aussi un numéro de série, imprimé ou non, permettant de le reconnaître.

Article 12

1. Tout certificat EUR.1 doit être présenté, dans un délai de quatre mois à compter de la date de sa délivrance par les autorités douanières de l'Etat exportateur, aux autorités douanières de l'Etat importateur où les marchandises sont admises, conformément aux procédures arrêtées par cet Etat. Ces autorités peuvent en exiger une traduction. Elles peuvent aussi exiger que la déclaration d'importation soit accompagnée d'une attestation de l'importateur certifiant que les marchandises remplissent les conditions requises pour l'application de l'Accord.

2. Sans préjudice du paragraphe 5 de l'article 5, lorsqu'à la demande de la personne déclarant les marchandises en douane, un article démonté ou non totalement monté relevant des chapitres 84 ou 85 du Système harmonisé est importé en plusieurs envois dans les conditions fixées par les autorités compétentes, il est réputé former un seul et même article et un certificat EUR.1 peut être présenté pour la totalité de cet article à l'importation du premier envoi.

3. Un certificat EUR.1 présenté aux autorités douanières de l'Etat importateur après la date limite à laquelle se réfère le paragraphe 1 du présent article peut être accepté aux fins d'application du régime préférentiel lorsque sa non-présentation à la date limite est due à un cas de force majeure ou à des circonstances exceptionnelles.

Dans d'autres cas de présentation tardive, les autorités douanières de l'Etat importateur peuvent accepter les certificats EUR.1 lorsque les marchandises leur ont été présentées avant la date limite.

4. La découverte de légères divergences entre les indications qui figurent dans le certificat EUR.1 et celles qui figurent dans les documents présentés au service de douane aux fins d'acquittement des formalités d'importation des marchandises ne rend pas automatiquement le certificat nul et non avenu, à condition qu'il soit dûment établi que ledit certificat correspond bien aux marchandises.

5. Les certificats EUR.1 sont conservés par les autorités douanières de l'Etat importateur conformément aux règles en vigueur dans cet Etat.

6. Pour prouver que les conditions fixées à l'article 7 du présent Protocole ont été remplies, il y aura lieu de présenter aux autorités douanières de l'Etat importateur :

a) Un bordereau justificatif unique de transport, délivré dans l'Etat exportateur, en vertu duquel le pays de transit a été traversé; ou

b) Un certificat délivré par les autorités douanières du pays de transit où seront indiquées :

i) La désignation exacte des marchandises,

ii) La date de déchargement et de rechargement ainsi que, le cas échéant, les noms des navires,

iii) L'attestation des conditions dans lesquelles les marchandises ont séjourné dans le pays de transit, ou

c) A défaut, toutes pièces justificatives.

Article 13

1. Nonobstant les paragraphes 1 à 7 de l'article 9 et les paragraphes 1, 4 et 5 de l'article 10, une procédure simplifiée pour l'émission de la documentation liée à la preuve de l'origine sera applicable dans le cadre des dispositions précisées ci-dessous.

2. Les autorités douanières de l'Etat exportateur peuvent autoriser tout exportateur, ci-après dénommé « l'exportateur agréé », qui fait de fréquentes expéditions pour lesquelles un certificat EUR.1 peut être délivré et qui offre à la satisfaction des autorités douanières toutes les garanties nécessaires pour vérifier le statut d'origine des marchandises, à ne pas présenter au service de douane de l'Etat exportateur, au moment de l'exportation, les marchandises ou la demande de certificat EUR.1 concernant ces marchandises afin d'obtenir ledit certificat dans les conditions fixées aux paragraphes 1 à 4 de l'article 9.

3. En outre, les autorités douanières peuvent autoriser un exportateur agréé à établir des certificats EUR.1 valides pour une durée maximale d'un an à dater de la délivrance, et ci-après désignés comme « certificats LD ». L'autorisation ne sera accordée que si le statut originnaire des marchandises à exporter est resté inchangé pendant la période de validité du certificat LD. Si les marchandises ne sont plus couvertes par le certificat en question, l'exportateur agréé informera immédiatement les autorités douanières qui ont donné l'autorisation.

Lorsque la procédure simplifiée s'applique, les autorités douanières de l'Etat exportateur peuvent prescrire l'utilisation des certificats EUR.1 portant un signe distinctif qui permet de les identifier.

4. L'autorisation mentionnée aux paragraphes 2 et 3 stipulera, au choix des autorités douanières, que la case n° 11 du certificat EUR.1 (« Visa de la douane ») devra :

a) Porter préalablement le sceau du service de douane compétent de l'Etat exportateur, ainsi que la signature manuscrite ou non d'un responsable de ce service, ou

b) Porter un cachet spécial de l'exportateur agréé, cachet qui aura été approuvé par les autorités douanières de l'Etat exportateur et correspondra au modèle figurant à l'Annexe V au présent Protocole; ce cachet pourra être préimprimé sur les formules.

La case n° 11 du certificat EUR.1 (« Visa de la douane ») sera complétée au besoin par l'exportateur agréé.

5. Dans les cas visés à l'alinéa a du paragraphe 4 du présent article, une des mentions ci-après devra figurer dans la case n° 7 du certificat EUR.1 (« Observations ») : « Simplified Procedure », « Yksinkertaistettu menettely », « Procédure simplifiée », « Vereinfachtes Verfahren », « Einföldud afgreidsla », « Procedura simplificata », « Forenklet prosedyre », « Förenklad procedur », « Procedura simplicata ». L'exportateur agréé indiquera au besoin dans la case n° 13 du certificat EUR.1 (« Demande de contrôle ») le nom et l'adresse de l'autorité douanière compétente pour vérifier ledit certificat.

6. Dans le cas mentionné au paragraphe 3, l'exportateur agréé écrira également dans la case n° 7 du certificat EUR.1 une des phrases ci-après :

- « LT certificate valid until . . . »,
- « LT-todistus voimassa . . . saakka »,
- « Certificat LD valable jusqu'au . . . »,
- « LT-Certificat gultig bis . . . »,
- « LT-skírteini gildir til . . . »,
- « Certificato LT valido fino al . . . »,
- « LT-sertifikat gyldig til . . . »,
- « LT-certifikat giltigt till . . . »,
- « Certificat TL valabil pîna la . . . ».

(date indiquée en chiffres)

et mentionnera l'autorisation aux termes de laquelle le certificat LD pertinent a été délivré.

L'exportateur agréé ne sera pas obligé de faire mention dans la case 8 et dans la case 9 du certificat LD des marques et nombres, du nombre et du type des paquets, du poids brut (Kg) ou d'autre mesure (litre, m³ etc.). La case n° 8 doit toutefois contenir une description et la désignation des marchandises suffisamment précises pour permettre leur identification.

7. Nonobstant les paragraphes 1 à 3 de l'article 12, le certificat LD doit être soumis au service des douanes de l'importation au moment ou avant la première importation des marchandises auxquelles il se rapporte. Lorsque l'importateur soumet sa demande de dédouanement à plusieurs services douaniers de l'Etat d'importation, les autorités douanières peuvent lui demander de produire une copie du certificat LD à tous les bureaux intéressés.

8. Lorsqu'un certificat LD a été soumis aux autorités douanières, la preuve du statut originaire des biens importés sera, pendant la validité du certificat LD, faite par les factures qui remplissent les conditions suivantes :

a) Lorsqu'une facture mentionne des marchandises originaires d'un Etat partie au présent Accord ou de la Bulgarie et des marchandises non originaires, l'exportateur doit distinguer clairement entre les deux catégories.

b) L'exportateur devra mentionner sur chaque facture le numéro du certificat LD qui couvre les marchandises et la date d'expiration dudit certificat, ainsi que le nom(s) du pays ou des pays d'où sont originaires les marchandises.

L'indication portée sur la facture par l'exportateur du numéro du certificat LD, avec l'indication du pays d'origine, constituera la déclaration que les marchandises remplissent les conditions fixées dans le présent Protocole pour l'acquisition du statut originaire préférentiel dans le commerce entre les Etats parties au présent Accord.

Les autorités douanières de l'Etat exportateur peuvent exiger que les descriptions qui, aux termes des dispositions ci-dessus, doivent figurer sur la facture, soient accompagnées de la signature manuscrite, suivie du nom du signataire, écrit lisiblement;

c) La description et la désignation des marchandises sur la facture devront être suffisamment détaillées pour montrer clairement que les marchandises sont également énumérées sur le certificat LD auquel la facture se réfère.

d) Les factures peuvent être établies seulement pour les marchandises exportées pendant la période de validité du certificat LD pertinent. Elles peuvent toutefois être produites au service douanier de l'importation dans les quatre mois à partir de la date de leur établissement par l'exportateur.

9. Dans le cadre des procédures simplifiées, les factures qui remplissent les conditions du présent article peuvent être établies/transmises en utilisant les télécommunications ou des méthodes de traitement électronique de données. Ces factures seront acceptées par les douanes de l'Etat importateur comme preuve du statut originaire des marchandises importées conformément à la procédure fixée par les autorités douanières concernées.

10. Si les autorités douanières de l'Etat exportateur déterminent qu'un certificat et/ou une facture, établi suivant les dispositions du présent article, est invalide en ce qui concerne les marchandises fournies, elles notifieront immédiatement les autorités douanières de l'Etat importateur.

11. Les autorités douanières peuvent autoriser un exportateur agréé à établir des factures portant la déclaration donnée en Annexe IV au présent Protocole à la place des certificats EUR.1.

La déclaration établie par l'exportateur agréé sur la facture sera établie dans une des langues officielles des Etats parties au présent Accord, de la Bulgarie ou en anglais. Elle sera signée à main et devra soit :

a) Contenir une référence au numéro de l'autorisation de l'exportateur agréé, ou

b) Etre avalisée par l'exportateur agréé avec le cachet spécial mentionné au paragraphe 4, *b*, qui a été agréé par les autorités douanières de l'Etat exportateur. Ce cachet peut être préimprimé sur la facture.

12. Toutefois, les autorités douanières de l'Etat exportateur peuvent autoriser un exportateur agréé à ne pas signer la déclaration du paragraphe 8, *b* ou la déclaration mentionnée au paragraphe 11 figurant sur la facture, lorsque ces factures sont établies et/ou transmises au moyen des télécommunications ou suivant des méthodes de traitement électronique des données.

Lesdites autorités douanières fixeront les conditions nécessaires pour la mise en œuvre du présent paragraphe, y compris, si elles l'exigent, une déclaration écrite de l'exportateur agréé aux termes de laquelle il accepte l'entière responsabilité pour les documents ci-dessus, comme s'ils avaient été signés à la main par lui.

13. Dans l'autorisation, mentionnée aux paragraphes 2, 3 et 11, les autorités douanières préciseront en particulier :

a) Les conditions aux termes desquelles les demandes de certificat EUR.1 sont déposées, ou celles aux termes desquelles les certificats LD sont établis, ou celles aux termes desquelles la déclaration concernant l'origine des marchandises est faite sur la facture,

b) Les conditions aux termes desquelles ces demandes ainsi qu'une copie des factures se rapportant à un certificat LD ou des factures portant la déclaration de l'exportateur sont conservées pendant deux ans au moins. Dans le cas des certificats LD ou des factures se rapportant à un certificat LD, cette période commencera à partir de la date d'expiration de validité du certificat LD. Ces dispositions s'appliqueront également aux certificats EUR.1, aux certificats LD et aux factures se rapportant à un certificat LD ainsi qu'aux factures portant la déclaration de l'exportateur, et ayant servi de base pour la délivrance d'autres preuves d'origine utilisées dans les conditions fixées au deuxième sous-alinéa du paragraphe 3 de l'article 9.

14. Les autorités douanières de l'Etat exportateur peuvent déclarer que certaines catégories de marchandises ne remplissent pas les conditions voulues pour bénéficier du traitement spécial prévu aux paragraphes 2, 3 et 11.

15. Les autorités douanières refuseront les autorisations mentionnées aux paragraphes 2, 3 et 11 aux exportateurs qui n'offrent pas toutes les garanties qu'elles estiment nécessaires.

Les autorités douanières peuvent retirer les autorisations à tout moment. Elles doivent le faire lorsque les conditions d'approbation ne sont plus satisfaites ou que l'exportateur agréé n'offre plus ces garanties.

16. L'exportateur agréé peut être tenu, conformément aux règles que les autorités douanières auront arrêtées, d'informer ces dernières des marchandises qu'il compte expédier, afin que le service de douane compétent puisse effectuer toute vérification qu'il juge nécessaire avant l'expédition desdites marchandises.

17. Les dispositions du présent article sont sans préjudice de l'application des règles des Etats parties au présent Accord relatives aux formalités douanières et à l'utilisation de documents douaniers.

Article 14

La déclaration mentionnée au paragraphe 1, c de l'article 8 sera établie par l'exportateur dans la forme donnée à l'Annexe IV au présent Protocole dans une des langues officielles des Etats parties au présent Accord, en bulgare ou en anglais. Elle sera dactylographiée ou timbrée et signée à la main. L'exportateur doit conserver copie de la facture portant ladite déclaration pendant deux ans au moins.

Article 15

1. L'exportateur ou son représentant soumettra avec sa demande de certificat EUR.1 tous documents supplémentaires adéquats prouvant que les marchandises à exporter remplissent les conditions voulues pour la délivrance d'un certificat EUR.1.

Il s'efforcera de soumettre à la demande des autorités appropriées toute preuve supplémentaire qu'elles peuvent exiger aux fins d'établir l'exactitude du statut originnaire des marchandises pouvant prétendre à un traitement préférentiel et il acceptera toute inspection de sa comptabilité ou toute vérification des procédés employés pour obtenir les marchandises ci-dessus, qui seront réalisées par lesdites autorités.

2. Les exportateurs doivent conserver pendant deux ans au moins les documents mentionnés au paragraphe 1.

3. Les dispositions des paragraphes 1 et 2 s'appliqueront *mutatis mutandis* dans le cas de l'application des procédures fixées aux paragraphes 2 et 3 de l'article 13 et des déclarations mentionnées aux paragraphes 1 b et 1 c de l'article 8.

Article 16

1. Les marchandises envoyées d'un Etat de l'AELE ou de Roumanie pour exposition dans un pays autre qu'un Etat partie au présent Accord, ou la Bulgarie et vendues après l'exposition pour l'importation en Roumanie ou dans un Etat de l'AELE bénéficieront, lors de l'importation des dispositions du présent Accord, à condition que les marchandises remplissent les conditions fixées par le présent Protocole qui les autorisent à être reconnues comme originaires d'un Etat de l'AELE ou de Roumanie et à condition qu'il soit prouvé à la satisfaction des autorités douanières que :

a) Un exportateur a expédié ces marchandises depuis un pays de l'AELE ou depuis la Roumanie vers le pays où se tient l'exposition et les y a effectivement exposées;

b) Les marchandises ont été vendues ou autrement cédées à un tiers en Roumanie ou dans un pays de l'AELE par ledit exportateur;

c) Les marchandises ont été expédiées à destination de la Roumanie ou d'un pays de l'AELE au cours de l'exposition ou immédiatement après celle-ci, telles qu'elles avaient été envoyées à l'exposition;

d) Les marchandises n'ont pas été utilisées, depuis leur expédition en vue de l'exposition, sinon à des fins de démonstration lors de ladite exposition.

2. Un certificat EUR.1 sur lequel figurent le nom et l'adresse du centre d'exposition doit être présenté aux autorités douanières de la manière habituelle. Il

peut être exigé au besoin des justificatifs supplémentaires quant à la nature des marchandises et aux conditions dans lesquelles elles ont été exposées.

3. Le paragraphe 1 du présent article s'applique à toute exposition, foire ou manifestation publique du même type à vocation commerciale, industrielle, agricole ou artisanale qui n'a pas été organisée à des fins privées dans des magasins ou des locaux commerciaux en vue de la vente d'articles étrangers et au cours de laquelle les marchandises restent sous contrôle douanier.

Article 17

1. Pour veiller à la bonne application des dispositions figurant sous ce titre, les Etats parties au présent Accord se viendront mutuellement en aide, par l'intermédiaire de leurs administrations douanières respectives, afin de vérifier l'authenticité et l'exactitude des certificats EUR.1, y compris ceux qui auront été délivrés conformément au paragraphe 3 de l'article 9 et des déclarations des exportateurs faites sur les factures.

2. Le Comité mixte est habilité à prendre toute décision nécessaire concernant les méthodes de coopération administrative à appliquer en temps voulu dans les Etats parties au présent Accord.

3. Les autorités douanières des Etats parties au présent Accord se communiqueront mutuellement, par l'intermédiaire du Secrétariat de l'AELE, des spécimens de cachets utilisés dans leurs services de douane pour la délivrance de certificats EUR.1.

4. Sera passible de sanctions quiconque établit ou fait établir, en vue d'obtenir un régime préférentiel pour des marchandises, un document contenant des indications incorrectes.

5. Les Etats parties au présent Accord prendront toutes les mesures nécessaires pour que les marchandises négociées en vertu d'un certificat EUR.1, et traversant durant leur transport une zone franche située sur leur territoire, ne soient pas remplacées par d'autres marchandises et ne subissent pas d'autre manutention que les opérations courantes destinées à éviter leur dégradation.

6. Lorsque des produits originaires d'un Etat partie au présent Accord et importés dans une zone franche en vertu d'un certificat EUR.1 subissent un traitement ou une transformation, les autorités douanières compétentes doivent, sur demande de l'exportateur, délivrer un nouveau certificat EUR.1 si le traitement ou la transformation en question est conforme aux dispositions du présent Protocole.

Article 18

1. Des vérifications ultérieures des certificats EUR.1 et des déclarations des exportateurs faites sur la facture seront effectuées au hasard ou chaque fois que les autorités douanières de l'Etat importateur seront fondées à douter de l'authenticité de ces documents ou de l'exactitude des renseignements concernant l'origine réelle des marchandises visées.

2. Aux fins d'application des dispositions du paragraphe 1 du présent article, les autorités douanières de l'Etat importateur renverront le certificat EUR.1 et la facture, si elle a été soumise, ou la facture se rapportant à un certificat LD, ou les factures portant la déclaration de l'exportateur ou une copie de ces documents aux autorités douanières de l'Etat exportateur en donnant, le cas échéant, les raisons de fond ou de forme qui justifient une enquête.

Les autorités douanières transmettront à l'appui de la demande de vérification *a posteriori* tous les documents et renseignements qui ont été obtenus et qui donnent à penser que les précisions données dans le certificat EUR.1 ou la facture sont inexactes.

Si les autorités douanières de l'Etat importateur décident de suspendre l'application des dispositions du présent Accord en attendant les résultats de la vérification, elles proposeront de remettre les marchandises à l'importateur, sous réserve de toute mesure préventive jugée nécessaire.

3. Les autorités douanières de l'Etat importateur seront informées dès que possible des résultats de la vérification. Ceux-ci devront permettre d'établir si les documents renvoyés au titre du paragraphe 2 s'appliquent aux marchandises effectivement exportées et si ces dernières peuvent effectivement être admises à bénéficier des arrangements préférentiels.

Si un différend de ce type ne peut être réglé entre les autorités douanières de l'Etat importateur et celles de l'Etat exportateur ou s'il soulève une question d'interprétation du présent Protocole, il sera soumis au Sous-comité des douanes et des questions d'origine mentionné à l'article 26. Les décisions seront prises par le Comité mixte.

Aux fins de vérification ultérieure des certificats EUR.1, les autorités douanières de l'Etat exportateur doivent conserver pendant deux ans au moins les documents d'exportation ou les copies des certificats EUR.1 utilisés en leur lieu et place.

Les Etats parties au présent Accord s'engagent à prendre toutes les mesures nécessaires pour que les certificats EUR.1 que leurs autorités douanières sont habilitées à délivrer en application du présent Accord soient effectivement délivrés dans les conditions fixées par celui-ci. Ils s'engagent aussi à apporter la collaboration

administrative nécessaire à cette fin, notamment pour vérifier l'itinéraire des marchandises négociées en vertu du présent Accord ainsi que les lieux où elles ont été immobilisées.

Article 23

1. Sans préjuger des dispositions du Protocole A, les produits qui sont du type auquel l'Accord s'applique et qui sont utilisés dans la fabrication de produits pour lesquels un certificat EUR.1 ou un certificat LD ou les factures afférant au certificat LD ou une facture portant la déclaration de l'exportateur sont établis ou complétés ne peuvent faire l'objet d'une ristourne des droits de douane ou bénéficier d'une exemption des droits de douane de quelque type que ce soit lorsque les produits originaires d'un Etat partie au présent Accord ou de Bulgarie sont concernés.

2. Dans le présent article, l'expression « droit de douane » s'entend également des taxes d'effet équivalent aux droits de douane.

Article 24

1. Lorsque, en vertu du présent Accord, les importations dans un Etat de l'AELE doivent être traitées différemment des importations couvertes par la Convention AELE, le traitement prévu par le présent Accord sera appliqué à tous les produits qui sont accompagnés d'une preuve d'origine mentionnée dans le paragraphe 1 de l'article 8, délivrée ou établie en Roumanie ou de toute preuve d'origine établie par un Etat AELE et portant l'expression « commerce AELE-Roumanie ».

2. Un exportateur d'un Etat AELE ou son représentant inscrira l'expression « commerce AELE-Roumanie » sur la preuve d'origine du commerce entre les Etats AELE dans les cas où les produits ont obtenu leur statut originaire en vertu du présent Accord, grâce à l'utilisation de matières originaires de Roumanie ou de Bulgarie.

3. Nonobstant les dispositions du paragraphe 1, les produits originaires d'un Etat AELE qui sont réexportés de Roumanie bénéficieront lors de l'importation dans un Etat de l'AELE d'un traitement égal à celui qu'ils auraient reçus s'ils avaient été envoyés directement d'un Etat AELE à un autre. Les produits doivent être dans le même état ou n'avoir subi ni ouvraison ni transformation en Roumanie d'une ampleur dépassant celle mentionnée au paragraphe 5 de l'article 5. Ce traitement ne sera accordé que sur présentation aux autorités douanières de l'Etat AELE importateur d'un certificat EUR.1 délivré par le service douanier compétent de Roumanie dans lequel l'expression « en application de l'article 24.3 » aura été insérée et authentifiée par le cachet dudit service.

Article 25

1. Les produits originaires au sens du présent Protocole bénéficieront lors de leur importation en Roumanie de l'Accord également sur présentation d'un certificat EUR.1 délivré par un service de douane de Bulgarie dans lequel l'expression « en application de l'article 25 » aura été insérée et authentifiée par le cachet dudit office.

2. Lorsque des produits, précédemment importés en Roumanie et accompagnés de la preuve d'origine mentionnée au paragraphe 1 de l'article 8, délivrée ou établie dans un Etat AELE, sont réexportés en Bulgarie, la Roumanie délivrera des certificats EUR.1 avec l'expression « en application de l'article 25 », à condition que

les produits soient réexportés dans le même état ou n'aient subi ni ouverture ni transformation en Roumanie d'une ampleur dépassant celle mentionnée au paragraphe 5 de l'article 5.

Article 26

Un Sous-comité des douanes et des questions d'origine sera créé sous l'autorité du Comité mixte conformément au paragraphe 5 de l'article 28 de l'Accord il sera chargé du fonctionnement de la coopération administrative en vue d'assurer une application pratique, correcte et uniforme du présent Protocole, ainsi qu'un flux permanent d'informations et de consultations entre les experts.

Il sera composé d'experts des Etats parties à l'Accord chargés des questions liées aux problèmes de douane et d'origine.

Article 27

Aux fins d'application de l'alinéa *b*, ii ou iii, du paragraphe 1 de l'article premier, tout produit originaire du territoire d'un Etat partie au présent Accord est réputé être, à l'exportation vers le territoire d'un autre Etat partie au présent Accord, un produit non originaire pendant la ou les périodes au cours desquelles l'Etat partie mentionné en dernier applique aux produits de cette catégorie le taux de droit applicable aux pays tiers ou toute mesure de sauvegarde conformément au présent Accord.

*ANNEXE I AU PROTOCOLE B**Notes explicatives**Note 1 : Article premier*

L'expression « Etat partie au présent Accord » comprend aussi les eaux territoriales de cet Etat.

Les navires opérant en haute mer (y compris les navires-usines) et à bord desquels les poissons pêchés sont préparés ou transformés sont réputés faire partie du territoire de l'Etat au présent Accord auquel ils appartiennent, à condition de remplir les conditions énoncées dans la note 4 ci-après.

Note 2 : Articles 1, 2 et 4

Les conditions fixées dans l'article 1 relatives à l'acquisition du statut originaire doivent être remplies sans interruption dans un Etat partie au présent Accord, sauf dans les cas prévus à l'article 2.

Si les produits originaires exportés d'un Etat partie au présent Accord vers un autre pays sont renvoyés, sauf dans les cas prévus à l'article 2, ils doivent être considérés comme non originaires, à moins qu'il puisse être démontré à la satisfaction des autorités douanières que :

- Les marchandises renvoyées sont les mêmes que celles exportées et
- Elles n'ont subi aucune opération autre que celles qui sont nécessaires pour les maintenir en bon état pendant qu'elles se trouvent dans ce pays.

Note 3 : Articles 1 et 2

Pour déterminer si les marchandises sont des produits originaires, il n'est pas nécessaire d'établir si l'électricité et le combustible, les immobilisations ainsi que les machines et les outils utilisés pour obtenir ces marchandises sont originaires ou non de pays tiers.

Note 4 : Alinéa f de l'article 4

L'expression « ses navires » s'applique seulement :

a) Aux navires qui sont immatriculés ou enregistrés dans un Etat partie au présent Accord;

b) Aux navires qui battent pavillon d'un Etat partie au présent Accord;

c) Aux navires qui sont, pour 50 % au moins, la propriété de nationaux d'un Etat partie au présent Accord ou d'une entreprise dont le siège est situé dans un tel Etat, dont le ou les directeurs, le président du conseil d'administration et la majorité des membres de ce conseil sont des nationaux d'un Etat partie au présent Accord et dont, en outre, dans le cas des sociétés de personnes ou des sociétés à responsabilité limitée, la moitié au moins du capital appartient à un tel Etat ou à des organismes publics ou à des nationaux d'un tel Etat;

d) Aux navires dont le capitaine et les officiers ont tous la nationalité d'un Etat partie au présent Accord;

e) Aux navires dont 75 % au moins des membres de l'équipage sont des nationaux d'un Etat partie au présent Accord.

Note 5 : Articles 4 et 5

1. L'unité de qualification pour l'application des règles d'origine sera le produit particulier qui est considéré comme l'unité de base lorsqu'on détermine la classification à l'aide de la nomenclature du Système harmonisé. Dans le cas d'un ensemble de produits qui sont classés en vertu de la règle générale 3, l'unité de classification sera déterminée au sujet de chaque article de l'ensemble; cette disposition s'applique également aux ensembles des positions tarifaires n° 6308, 8206 et 9605.

En conséquence, il s'ensuit que :

- Lorsqu'un produit composé d'un groupe ou d'un assemblage d'articles est classé au titre du Système harmonisé sous une position tarifaire unique, l'ensemble constitue l'unité de classification;
 - Lorsqu'une expédition est composée de plusieurs produits identiques classés sous la même position tarifaire du Système harmonisé, chaque produit doit être considéré individuellement lorsqu'il s'agit d'appliquer les règles d'origine.
2. Lorsque, en vertu de la règle générale 5 du Système harmonisé, l'emballage est inclus avec le produit aux fins de classification, il sera inclus pour déterminer l'origine.

Note 5 a : Alinéa h de l'article 4

Dans le cas des pneus usagés, l'expression « articles usagés collectés là, convenant uniquement à la récupération des matières premières » ne couvre pas seulement les pneus usagés bons pour la récupération des matières premières, mais aussi les pneus usagés qui peuvent être rechapés ou utilisés comme déchets.

Note 6 : Paragraphe 2 de l'article 5

Les notes liminaires à l'Annexe II s'appliqueront également, le cas échéant, à tous les produits fabriqués à l'aide de matières non originaires, même s'ils ne sont pas soumis à une condition spécifique contenue dans la Liste de l'Annexe II, mais sont sujets par contre à un changement de position tarifaire, comme exposé au paragraphe 2 de l'article 5.

Note 7 : Article 6

L'expression « prix départ usine » désigne le prix payé au fabricant dans l'entreprise duquel est effectuée la dernière ouvraison ou transformation, à condition que ce prix englobe la valeur de tous les produits entrant dans la fabrication.

La « valeur en douane » sera interprétée comme signifiant la valeur douanière déterminée conformément à l'Accord sur l'application de l'Article VII de l'Accord général sur les tarifs douaniers et le commerce, conclu à Genève, le 12 avril 1979¹.

Note 8 : Paragraphe 1 de l'article 8

La possibilité d'utiliser, aux termes du présent Protocole, la facture comme preuve du statut originaire des marchandises, sera étendue aux bons de livraison ou à tout autre document commercial qui décrit les marchandises concernées avec des précisions suffisantes pour permettre de les identifier.

Dans le cas de produits envoyés par la poste qui, au sens du paragraphe 2 de l'article 8, ne sont pas considérés comme des importations du point de vue commercial, la déclaration du statut d'origine peut également être faite sur la déclaration en douane C2/CP3 ou sur une feuille de papier jointe à ladite déclaration.

Note 9 : Paragraphe 1 des articles 17 et 22

Lorsqu'un certificat EUR.1 a été délivré conformément aux conditions fixées au paragraphe 3 de l'article 9 et qu'il concerne des marchandises réexportées telles quelles, les autorités douanières du pays de destination doivent pouvoir obtenir, par voie de coopération administrative, des copies certifiées conformes de la preuve d'origine délivrées ou établies précédemment pour ces marchandises.

Notes 10 : Article 23

Les « ristournes de droits de douane ou l'exemption de droits de douane de quelque type que ce soit » s'entendent de tout arrangement pour un remboursement ou une remise partielle ou complète des droits de douane applicables aux produits utilisés dans la fabrication, à condition que ladite disposition concède, expressément ou de fait, ce remboursement ou absence de frais ou cette non imposition lorsque les marchandises obtenues à partir desdits

¹ Nations Unies, *Recueil des Traités*, vol. 1235, p. 127.

produits sont exportées, mais pas quand elles sont conservées dans le pays pour y être utilisées.

Les « produits entrant dans la fabrication » s'entendent de tout produit au sujet duquel une « ristourne des droits de douane ou exemption des droits de douane de quelque type que ce soit » est demandée à la suite de l'exportation des produits originaires pour lesquels un certificat EUR.1, un certificat LD ou les factures se référant au certificat LD ou une facture portant la déclaration de l'exportateur sont délivrés ou établis.

APPLIQUÉ PAR LE LIECHTENSTEIN ET LA SUISSE AUX IMPORTA-
TIONS DE CERTAINS PRODUITS SOUMIS AU PLAN D'OBLIGATION
DE RÉSERVES OBLIGATOIRES

Le Liechtenstein et la Suisse peuvent soumettre à l'application d'un plan de réserves obligatoires des produits qui sont indispensables pour la survie de la population et, dans le cas de la Suisse, pour l'armée en période de graves pénuries d'approvisionnement alimentaire et dont la production au Liechtenstein et en Suisse est insuffisante ou inexistante et dont les caractéristiques et la nature permettent de constituer des réserves.

Le Liechtenstein et la Suisse appliqueront ce plan d'une manière qui n'entraîne pas de discrimination, directe ou indirecte, entre les produits importés en provenance des Etats parties au présent Accord et les produits nationaux similaires ou substituables.

DÉCLARATION CONJOINTE DES ÉTATS DE L'AELE ET DE LA
ROUMANIE CONCERNANT L'EXTENSION DES RÈGLES D'ORIGINE

Les États de l'AELE et la Roumanie, conviennent de rechercher les possibilités d'élargir et d'améliorer les règles d'origine, y compris le cumul, afin de développer et de promouvoir la production et le commerce en Europe.

PROCÈS VERBAL D'INTERPRÉTATION LIÉ À L'ACCORD ENTRE LES ÉTATS DE L'AELE ET LA ROUMANIE

1. Les Etats de l'AELE et la Roumanie reconnaissent l'existence d'un certain parallélisme entre les niveaux de concessions concernant les tarifs douaniers, les restrictions quantitatives, les taxes et mesures d'effet équivalent lors de l'entrée en vigueur de l'Accord de libre-échange entre les Etats de l'AELE et la Roumanie et l'Accord européen CE-Roumanie¹. Les Etats de l'AELE et la Roumanie reconnaissent en outre que ce parallélisme devrait être fondamentalement maintenu pendant la totalité de la période de transition. La possibilité d'appliquer ce parallélisme aux concessions échangées au titre de conditions spéciales sera examinée par le Comité mixte.

2. Si les taux des droits de base résultant du paragraphe 1 de l'article 5 sont différents de ceux résultant du paragraphe 3 de l'article 8 de l'Accord Europe CE-Roumanie, ce dernier pays appliquera les taux convenus au titre de l'Accord AELE-Roumanie.

3. Si, pendant une période égale à la dérogation pour les subventions au titre du paragraphe 3 de l'article 19 et compte tenu de la sensibilité particulière du marché de l'acier, les importations de produits sidérurgiques spécifiques originaires d'un Etat partie au présent Accord causent ou menacent de causer un dommage grave aux producteurs nationaux de produits similaires, ou de perturber gravement le marché de l'acier d'un autre Etat partie, les deux Etats parties tiendront immédiatement des consultations pour trouver une solution adéquate. En attendant la mise au point de cette solution et, nonobstant les autres dispositions de l'Accord, notamment des articles 21 et 25, lorsque des circonstances exceptionnelles exigent une action immédiate, l'Etat partie importateur peut adopter immédiatement des solutions quantitatives ou autres strictement nécessaires pour faire face à la situation, conformément à ses obligations internationales et multilatérales.

4. Les suspensions totales et partielles des droits de douane établis à titre temporaire par le Gouvernement roumain dans sa décision n° 812/1991, ne sont valides que jusqu'au 31 décembre 1992.

5. L'expression « taux des droits de douane appliqués » s'entend des droits stipulés dans le tarif douanier (autonome, conventionnel, ainsi que des droits suspendus ou tout autre contingent tarifaire « permanent » stipulé). L'expression ne couvre ni les suspensions temporaires ni les contingents tarifaires temporaires.

6. En ce qui concerne le paragraphe 3 de l'article 22, en cas de désaccord sur la valeur réelle des importations de produits industriels, les statistiques de commerce international, telles que celles de la CEE, du GATT et de l'OCDE serviront de base.

7. Conformément à l'article 3 du Protocole A, la Roumanie peut introduire un système de mesures de compensation de prix. Les Etats de l'AELE acceptent de fournir une assistance technique pour l'élaboration et l'application d'un tel système.

8. Les Etats de l'AELE et la Roumanie acceptent de coordonner étroitement leurs efforts pour assurer la formation de ceux appelés à utiliser la procédure simplifiée et exposée dans le Protocole B en ce qui concerne la délivrance, le contrôle et la vérification des preuves d'origine afin de leur permettre d'être autorisés à appliquer

¹ Enregistré auprès de l'Organisation des Nations Unies le 29 juin 1995 sous le n° I-32005.

cette procédure. La procédure simplifiée sera utilisée de façon restreinte et son application soumise aux délibérations du Sous-comité sur les questions d'origine et de douane.

9. *a)* Les Etats de l'AELE et la Roumanie conviennent que les dispositions de l'article 23 du Protocole B ne s'appliqueront pas avant le 1^{er} juin 1994. Cette dérogation peut être prolongée par le Comité mixte, en tenant compte de la pratique appliquée entre la Roumanie et les Communautés européennes.

b) S'il est établi qu'en raison de l'effet de la dérogation relevant de l'article 23, un produit est importé dans le territoire d'un Etat partie au présent Accord en quantités accrues ou dans des conditions qui causent ou menacent de causer un grave dommage aux producteurs de marchandises similaires ou directement concurrentielles dans l'Etat partie concerné, les dispositions de l'article 23 seront réintroduites en ce qui concerne ledit produit.

c) Quant à la procédure pour l'application de mesures de sauvegarde, les dispositions de l'article 25 de l'Accord s'appliqueront *mutatis mutandis* et notamment en ce qui concerne les paragraphes 3, *b* et 6 dudit article.

10. Afin de ne pas freiner l'introduction de systèmes efficaces EPA dans les administrations douanières, les Etats de l'AELE et la Roumanie conviennent de l'interprétation suivante du mot « présentation » dans les articles 8 et 12 du Protocole B de l'Accord : dans les cas où les déclarations d'importation sont transmises électroniquement aux autorités douanières de l'Etat importateur, il revient à ces dernières de décider, dans le cadre et dans le respect des dispositions de la législation douanière applicable dans l'Etat importateur, de la date et de la mesure dans laquelle les documents constituant une preuve du statut originaire sont actuellement présentés.

11. Une société des Etats AELE et une société de Roumanie respectivement, aux fins de l'Accord s'entendent d'une société ou d'une entreprise créée conformément à la législation d'un Etat membre de l'Association européenne de libre-échange ou de la Roumanie, respectivement.

12. Aux fins du présent Accord, un ressortissant s'entend, dans le cas de la Roumanie, d'une personne physique qui est un citoyen roumain.

13. Aux fins de l'interprétation du paragraphe 3 de l'article 19, les Etats parties au présent Accord conviennent que l'expression « intensité plus forte » s'applique au niveau de l'aide accordée au moyen des mesures contenues au paragraphe *c* de l'Annexe XII et que l'application de mesures normalement inconsistantes au titre du paragraphe *d* pourrait être temporairement justifiée par la restructuration de l'économie roumaine, à condition que ces pratiques soient compatibles avec la réglementation sur l'aide gouvernementale, dans l'Accord créant une association entre la Roumanie et la Communauté européenne telle qu'elle est mise en œuvre par les Parties audit Accord.

14. Les Etats de l'AELE et la Roumanie conviennent de tenir des consultations au sein du Comité mixte en vue d'examiner les possibilités de compléter les critères fixés aux Annexes XII et XIII à l'article 19 par des critères résultant de l'Accord entre les Etats de l'AELE et la Communauté européenne sur la création d'une zone économique européenne, une fois que ledit Accord sera entré en vigueur.

15. Les Etats de l'AELE et la Roumanie considèrent qu'une procédure d'arbitrage pourrait être envisagée pour les différends qui ne peuvent être réglés par des

consultations entre les Etats parties concernés ou par le Comité mixte. Cette possibilité, par exemple en ce qui concerne l'article 18, sera examinée plus avant par le Comité mixte.

16. Les Etats parties au présent Accord feront les efforts nécessaires pour mener à bien le processus de ratification du présent Accord si possible dans l'année.
