#### NOTE BY THE SECRETARIAT

Under Article 102 of the Charter of the United Nations every treaty and every international agreement entered into by any Member of the United Nations after the coming into force of the Charter shall, as soon as possible, be registered with the Secretariat and published by it. Furthermore, no party to a treaty or international agreement subject to registration which has not been registered may invoke that treaty or agreement before any organ of the United Nations. The General Assembly, by resolution 97 (I), established regulations to give effect to Article 102 of the Charter (see text of the regulations, vol. 859, p. VIII).

The terms "treaty" and "international agreement" have not been defined either in the Charter or in the regulations, and the Secretariat follows the principle that it acts in accordance with the position of the Member State submitting an instrument for registration that so far as that party is concerned the instrument is a treaty or an international agreement within the meaning of Article 102. Registration of an instrument submitted by a Member State, therefore, does not imply a judgement by the Secretariat on the nature of the instrument, the status of a party or any similar question. It is the understanding of the Secretariat that its action does not confer on the instrument the status of a treaty or an international agreement if it does not already have that status and does not confer on a party a status which it would not otherwise have.

Unless otherwise indicated, the translations of the original texts of treaties, etc., published in this *Series* have been made by the Secretariat of the United Nations.

#### NOTE DU SECRÉTARIAT

Aux termes de l'Article 102 de la Charte des Nations Unies, tout traité ou accord international conclu par un Membre des Nations Unies après l'entrée en vigueur de la Charte sera, le plus tôt possible, enregistré au Secrétariat et publié par lui. De plus, aucune partie à un traité ou accord international qui aurait dû être enregistré mais ne l'a pas été ne pourra invoquer ledit traité ou accord devant un organe des Nations Unies. Par sa résolution 97 (I), l'Assemblée générale a adopté un règlement destiné à mettre en application l'Article 102 de la Charte (voir texte du règlement, vol. 859, p. IX).

Le terme « traité » et l'expression « accord international » n'ont été définis ni dans la Charte ni dans le règlement, et le Secrétariat a pris comme principe de s'en tenir à la position adoptée à cet égard par l'Etat Membre qui a présenté l'instrument à l'enregistrement, à savoir que pour autant qu'il s'agit de cet Etat comme partie contractante l'instrument constitue un traité ou un accord international au sens de l'Article 102. Il s'ensuit que l'enregistrement d'un instrument présenté par un Etat Membre n'implique, de la part du Secrétariat, aucun jugement sur la nature de l'instrument, le statut d'une partie ou toute autre question similaire. Le Secrétariat considère donc que les actes qu'il pourrait être amené à accomplir ne confèrent pas à un instrument la qualité de « traité » ou d'« accord international » si cet instrument n'a pas déjà cette qualité, et qu'ils ne confèrent pas à une partie un statut que, par ailleurs, elle ne posséderait pas.

Having regard to the Declaration signed by the EFTA States and Hungary in Gothenburg on 13 June 1990,

Recalling their firm commitment to the Final Act of the Conference on Security and Co-operation in Europe,<sup>2</sup> the Charter of Paris for a New Europe,<sup>3</sup> and in particular the principles contained in the final document of the CSCE Bonn Conference on Economic Co-operation in Europe,<sup>4</sup>

Reaffirming their commitment to the principles of a market economy, which constitutes the basis for their relations,

2. Quantitative restrictions on exports and any measures having equivalent effect shall be abolished in the EFTA States not later than on the entry into force of this Agreement, except as provided for in Annex XI.

3. Quantitative restrictions on exports and any measures having equivalent effect shall be abolished in Hungary not later than on the entry into force of this Agreement, except as provided for in Annex XII.

#### Article 11

##### *General exceptions*

This Agreement shall not preclude prohibitions or restrictions on imports, exports or

goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants and the environment; the protection of national treasures of artistic, historic or archaeological value, or the protection of intellectual property, or rules relating to gold or silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the States, Parties to this Agreement.

#### Article 12

##### *State monopolies*

1. The States, Parties to this Agreement, shall ensure that any State monopoly of a commercial character be adjusted, subject to the provisions laid down in Protocol D, so that no discrimination regarding the conditions under which goods are procured and marketed will exist between nationals of the EFTA States and of Hungary.

2. The provisions of this Article shall apply to any body through which the competent authorities of a State, Party to this Agreement, in law or in fact, either directly or indirectly supervise, determine or appreciably influence imports or exports between the States, Parties to this Agreement. These provisions shall likewise apply to monopolies delegated by the State to others.

#### Article 13

##### *Notification of draft technical regulations*

1. The EFTA States and Hungary shall notify each other, at the earliest practicable stage, in accordance with the provisions laid down in Annex XIII of draft technical regulations and draft amendments thereto, which they intend to issue.

2. The provisions of this Article and of Annex XIII shall start to be applied one year after the entry into force of this Agreement.

#### Article 14

##### *Trade in agricultural products*

1. The States, Parties to this Agreement, declare their readiness to foster, in so far as their agricultural policies allow, harmonious development of trade in agricultural products and to discuss this issue periodically in an appropriate forum among the States Parties concerned.

2. In pursuance of this objective each individual EFTA State and Hungary have concluded a bilateral arrangement providing for measures to facilitate trade in agricultural products.

3. The States, Parties to this Agreement, shall not apply their regulations in veterinary, plant health and health matters as an arbitrary or unjustifiable discrimination between the States Parties where the same conditions prevail, or as a disguised restriction on trade between them.

#### Article 15

##### *Internal taxation*

1. The States, Parties to this Agreement, shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products originating in an EFTA State and like products originating in Hungary.

2. Products exported to the territory of one of the States, Parties to this Agreement, may not benefit from repayment of internal taxation in excess of the amount of direct or indirect taxation imposed on them.

## Article 16

### *Payments*

1. Payments relating to trade in goods between an EFTA State and Hungary and the transfer of such payments to the territory of the State, Party to this Agreement, where the creditor resides shall be free from any restrictions.

2. The States, Parties to this Agreement, shall refrain from any exchange or administrative restrictions on the grant, repayment or acceptance of short and medium-term credits covering commercial transactions in which a resident participates.

3. Until a full convertibility of the Hungarian currency in the meaning of Article VIII of the Articles of Agreement of the International Monetary Fund<sup>1</sup> is introduced, Hungary maintains the right to apply exchange restrictions on the grant or acceptance of short and medium-term credits, provided that these restrictions are applied on a non-discriminatory manner as regards the origin of the products and that they are not applied only to specific products of kinds of products.

## Article 17

### *Public procurement*

1. The States, Parties to this Agreement, consider the effective liberalization of their respective public procurement markets an objective of this Agreement.

2. As of the entry into force of this Agreement, the EFTA States shall grant Hungarian companies access to contract award procedures on their respective public procurement markets according to the Agreement on Government Procurement of 12 April 1979,<sup>2</sup> as

amended by a Protocol of Amendments of 2 February 1987,<sup>3</sup> negotiated under the auspices of the General Agreement on Tariffs and Trade.

3. Hungary shall, taking into account the restructuring and development process of its economy, gradually ensure that companies from the EFTA States have access on the same principles to contract award procedures on its market. In so doing Hungary shall notify to the Joint Committee the entities or agencies which it would list in Annex I to the Agreement referred to in paragraph 2 in case of accession thereto.

4. As soon as possible after the entry into force of this Agreement, the States, Parties to this Agreement, shall take a further step to expand their undertakings governing participation in public procurement contracts, so as to ensure free access and transparency, and that there is no discrimination between potential suppliers from the States, Parties to this Agreement. After a period of decreasing asymmetry in favour of Hungary, a full balance of rights and obligations between the States, Parties to this Agreement, shall be established not later than at the end of the transitional period.

5. The Joint Committee, acting in accordance with Articles 28 and 29, shall deal with the practical modalities for this development including, inter alia, scope, timetable and rules to be applied, and categories of entities awarding public procurement contracts.

6. The States Parties concerned shall endeavour to accede to the relevant Agreements negotiated under the auspices of the General Agreement on Tariffs and Trade.

<sup>3</sup> *Ibid.*, vol. 1511, p. 286.

## Article 18

### *Protection of intellectual property*

The States, Parties to this Agreement, shall grant and ensure adequate, effective and non-discriminatory protection of intellectual property rights. Protection of intellectual property shall, by 1 January 1997, be of a level similar to that prevailing in the area of the States, Parties to this Agreement. They shall adopt and take adequate, effective and non-discriminatory measures for the enforcement of such rights against infringement thereof and in particular against counterfeiting and piracy. Particular obligations are contained in Annex XIV.

## Article 19

### *Rules of competition concerning undertakings*

1. The following are incompatible with the proper functioning of this Agreement in so far as they may affect trade between an EFTA State and Hungary:

(a) all agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition;

(b) abuse by one or more undertakings of a dominant position in the territories of the States, Parties to this Agreement, as a whole or in a substantial part thereof.

2. The provisions of paragraph 1 shall apply to the activities of all undertakings, including public undertakings and undertakings to which a State, Party to this Agreement, grants special or exclusive rights. Undertakings entrusted with the operation of services of general economic interest or having the character of a revenue-producing monopoly shall be subject to the rules contained in this Article,

in so far as the application of such rules does not obstruct the performance, in law or fact, of the particular tasks assigned to them.

3. If a State, Party to this Agreement, considers that a given practice is incompatible with paragraphs 1 and 2, it may take measures it considers necessary to deal with the serious difficulties resulting from the practices in question, under the conditions and in accordance with the procedures laid down in Article 26.

## Article 20

### *State aid*

1. Any aid granted by a State Party to this Agreement or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it may affect trade between an EFTA State and Hungary, be incompatible with the proper functioning of this Agreement.

2. Any practices contrary to paragraph 1 should be assessed on the basis of the criteria set out in Annex XV.

3. For the purpose of applying the provisions of paragraph 1, Hungary may, during the first five years after the entry into force of this Agreement, grant aid with a higher intensity than would be tolerated for EFTA States according to the criteria set out in Annex XV.

4. The States, Parties to this Agreement, shall ensure transparency in the area of State aid, *inter alia*, by reporting annually to the Joint Committee on the total amount and the distribution of the aid given and by providing, upon request, information on aid schemes. Upon request by a State Party, the State Party concerned shall provide information on particular individual cases of State aid.

5. If a State Party to this Agreement considers that a given practice is incompatible with the provisions of paragraph 1, it may take appropriate measures against this practice under the conditions and in accordance with the procedures laid down in Article 26.

6. Such appropriate measures may, where the General Agreement on Tariffs and Trade applies thereto, only be adopted in conformity with the procedures and under the conditions laid down by the General Agreement on Tariffs and Trade and any other relevant instrument negotiated under its auspices which are applicable between the States, Parties to this Agreement.

7. The States, Parties to this Agreement, shall exchange information taking into account the limitations imposed by the requirements of professional and business secrecy.

#### Article 21

##### *Dumping*

If an EFTA State finds that dumping within the meaning of Article VI of the General Agreement on Tariffs and Trade is taking place in its trade with Hungary, or if Hungary finds that dumping within this meaning is taking place in trade with an EFTA State, the State Party concerned may take appropriate measures against this practice in accordance with the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade and with the procedure laid down in Article 26.

#### Article 22

##### *Emergency action on imports of a particular product*

Where any product is being imported in such increased quantities and under such conditions as to cause, or threaten to cause:

(a) serious injury to domestic producers of like or directly competitive products in the territory of the importing State Party to this Agreement, or

(b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region,

the State Party concerned may take appropriate measures under the conditions and in accordance with the procedure laid down in Article 26.

#### Article 23

##### *Structural adjustment*

1. Exceptional measures of limited duration which derogate from the provisions of Article 4 may be taken by Hungary in the form of increased customs duties.

2. These measures may only concern infant industries, or certain sectors undergoing restructuring or facing serious difficulties, particularly where these difficulties produce important social problems.

3. Customs duties on imports applicable in Hungary to products originating in the EFTA States, introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the EFTA States. The total value of imports of the products which are subject to these measures may not exceed 15% of total imports of industrial products from the EFTA States, as defined in Article 2, during the last year for which statistics are available.

4. These measures shall be applied for a period not exceeding five years unless a longer duration is authorized by the Joint Committee. They shall cease to apply at the latest at the expiration of the transition period.

5. No such measures can be introduced in respect of a product if more than three years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having an equivalent effect concerning that product.

6. Hungary shall inform the Joint Committee of any exceptional measures it intends to take and, at the request of the EFTA States, consultations shall be held in the Joint Committee on such measures and the sectors to which they apply before they are applied. When taking such measures Hungary shall provide the Joint Committee with a schedule for the elimination of the customs duties introduced under this Article. This schedule shall provide for a phasing out of these duties starting at the latest two years after their introduction, at equal annual rates. The Joint Committee may decide on a different schedule.

#### Article 24

##### *Re-export and serious shortage*

Where compliance with the provisions of Articles 8 and 10 leads to:

(a) re-export towards a third country against which the exporting State, Party to this Agreement, maintains for the product concerned quantitative export restrictions, export duties or measures or charges having equivalent effect; or

(b) a serious shortage, or threat thereof, of a product essential to the exporting State Party;

and where the situations referred to above give rise or are likely to give rise to major difficulties for the exporting State, Party to this Agreement, that State Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 26.

#### Article 25

##### *Balance of payments difficulties*

1. Where an EFTA State or Hungary is in serious balance of payments difficulties, or under imminent threat thereof, the EFTA State or Hungary, as the case may be, may, in accordance with the conditions established under the General Agreement on Tariffs and Trade, adopt trade restrictive measures, which shall be of limited duration and may not go beyond what is necessary to remedy the balance of payments situation. The EFTA State or Hungary, as the case may be, shall inform the other States, Parties to this Agreement, and the Joint Committee forthwith of their introduction and, as soon as possible, of a time schedule for their removal.

2. The States, Parties to this Agreement, shall, nevertheless, endeavour to avoid the imposition of restrictive measures for balance of payments purposes.

#### Article 26

##### *Procedure for the application of safeguard measures*

1. Before initiating the procedure for the application of safeguard measures set out in this Article, the States Parties concerned shall endeavour to solve any differences between them through direct consultations, and inform the other States Parties thereof.

2. In the event of Hungary or an EFTA State subjecting imports of products liable to give rise to the situation referred to in Article 22 to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other State Party.

3. Without prejudice to paragraph 7, a State, Party to this Agreement, which considers resorting to safeguard measures referred to in paragraph 4 shall promptly notify the other States Parties and the Joint Committee thereof and supply all relevant information. Consultations between the States Parties shall take place without delay in the Joint Committee with a view to finding a solution.

4. (a) As regards Articles 19 and 20, the States Parties concerned shall give to the Joint Committee all the assistance required in order to examine the case and, where appropriate, eliminate the practice objected to. If the State Party in question fails to put an end to the practice objected to within the period fixed by the Joint Committee or if the Joint Committee fails to reach an agreement, in cases under Article 19 within three months, and in cases under Article 20 within thirty working days, of the matter being referred to it, the State Party concerned may adopt the appropriate measures to deal with the difficulties resulting from the practice in question.

(b) As regards Articles 21, 22 and 24, the Joint Committee shall examine the situation and may take any decision needed to put an end to the difficulties notified by the State Party concerned. In the absence of such a decision within thirty days of the matter being referred to the Joint Committee, the State Party concerned may adopt the measures necessary in order to remedy the situation.

(c) As regards Article 31, the State Party concerned may take appropriate measures after the consultations have been concluded or a period of thirty days has elapsed from the date of notification.

5. The safeguard measures taken shall be notified immediately to the other States Parties and to the Joint Committee. They shall be

restricted with regard to their extent and to their duration to what is strictly necessary in order to rectify the situation giving rise to their application and shall not be in excess of the injury caused by the practice or the difficulty in question. Priority shall be given to such measures as will least disturb the functioning of the Agreement. The measures taken by Hungary against an action or an omission of an EFTA State may only affect the trade with that State. The measures taken against an action or omission of Hungary may only be taken by that or those EFTA States the trade of which is affected by the said action or omission.

6. The safeguard measures taken shall be the object of regular consultations within the Joint Committee with a view to their relaxation as soon as possible, or abolition when conditions no longer justify their maintenance.

7. Where exceptional circumstances requiring immediate action make prior examination impossible, the State Party concerned may, in the cases of Articles 21, 22 and 24, apply forthwith the precautionary measures strictly necessary to remedy the situation. The measures shall be notified without delay and consultations between the States Parties shall take place as soon as possible within the Joint Committee.

#### Article 27

##### *Security exceptions*

Nothing in this Agreement shall prevent a State, Party to this Agreement, from taking any measure which it considers necessary:

(a) to prevent the disclosure of information contrary to its essential security interests;

PROTOCOL A

CONCERNING PRODUCTS REFERRED TO IN ARTICLE 2,  
SUB-PARAGRAPH (b) OF THE AGREEMENT

Article 1

The provisions of the Agreement shall apply to the products listed in Table I.

Article 1

1. In order to take account of differences in the cost of the agricultural raw materials incorporated in the goods specified in the Tables referred to in Articles 3 and 4, the Agreement does not preclude:

- (i) the levying, upon import, of a variable component or fixed amount, or the application of internal price compensation measures;
- (ii) the application of measures adopted upon export.

2. The price compensation measures shall not exceed the differences between the domestic price paid by industry and the world market price of the agricultural raw materials incorporated into the goods concerned.

Article 1

1. For products listed in Tables II, III, IV, V and VI, the respective EFTA State shall accord to Hungary the concessions indicated in those Tables.

2. The treatment to be accorded by Iceland is laid down in Table VII. The customs duties are indicated in List 1 and the duties of a fiscal nature in List 2 of the Table. Iceland may, however, replace these duties with other price compensation measures in accordance with Article 2 but any such action shall not result in a treatment less favourable for Hungary than accorded by Iceland to the European Economic Community.

#### Article 4

1. Hungary shall decrease its duties on processed agricultural products according to Table VIII and to the provisions in its Appendix.

2. For the products listed in Tables VIII and IX Hungary reserves the right to introduce, instead of the present arrangements on imports and exports of products listed in Table VIII, a system of compensatory amounts in accordance with the provisions of paragraphs 1 and 2 of Article 2 or any other compensatory measures to the same effect. The application of such measures shall not restrict the foreseen reduction of the duties for the products listed in Table IX.

#### Article 5

Without prejudice to concessions granted for products mentioned in Tables II to VIII the EFTA States and Hungary shall not in any way be restricted in pursuing their agricultural policies or in taking relevant measures under those policies.

#### Article 6

The EFTA States shall notify Hungary and Hungary shall notify the EFTA States of all price compensation measures applied under Article 2 of this Protocol.

#### Article 4

The Joint Committee shall review at two-yearly intervals the development of their trade in processed agricultural products. A first review shall be held before the end of 1993. In the light of these reviews and taking into account the arrangements between the States, Parties to the Agreement and the European Economic Community in this field and in GATT, the EFTA States and Hungary shall decide on possible changes to the product coverage of this Protocol, changes in the treatment, as well as on a possible development of the rules concerning price compensation systems.

1. For the purpose of implementing this Agreement, and without prejudice to the provisions of Article 2, the following products shall be considered as products originating in a State, Party to this Agreement:

- (a) products wholly obtained in that State within the meaning of Article 4;

  - (i) such materials have undergone sufficient working or processing in that State within the meaning of Article 5, or that
  - (ii) such materials originate, within the meaning of this Protocol, in any of the other States, Parties to this Agreement, or that
  - (iii) such materials originate in the Czech Republic, in Poland or in the Slovak Republic in application of the origin rules in the Agreements establishing Free Trade Areas between the EFTA States on the one side and the Czech Republic, Poland or the Slovak Republic on the other, in so far as the said rules are identical to those of this Protocol.

2. For products obtained in Hungary the provisions of paragraph 1 (b) (iii) may be applied only on condition that the necessary administrative cooperation between Hungary, the Czech Republic, Poland and the Slovak Republic for the implementation of these provisions has been established in accordance with the provisions of this Protocol.

ARTICLE 2

1. Notwithstanding the provisions of sub-paragraph (b) (ii) and (iii) of paragraph 1 of Article 1, products originating, within the meaning of this Protocol, in any State, Party to this Agreement, or in the Czech Republic, in Poland or in the Slovak Republic in application of the origin rules referred to in sub-paragraph (b) (iii) of paragraph 1 of Article 1, and exported from one State, Party to this Agreement, to another in the same state or

having undergone in the exporting State no working or processing going beyond that referred to in paragraph 5 of Article 5, retain their origin.

2. For the purpose of implementing paragraph 1, where products originating in two or more of the States, Parties to this Agreement, or in one or more of the States, Parties to this Agreement and the Czech Republic, Poland and/or the Slovak Republic are used and those products have undergone no working or processing in the exporting State going beyond that referred to in paragraph 5 of Article 5, the origin is determined by the product with the highest customs value or, if this is not known and cannot be ascertained, with the highest first ascertainable price paid for the products in that State.

The expression "classified" shall refer to the classification of a product or material under a particular heading.

2. For the purposes of Article 1, non-originating materials are considered to be sufficiently worked or processed when the product obtained is classified within a heading which is different from those in which all the non-originating materials used in its manufacture are classified, subject to the provisions of paragraphs 3, 4 and 5.

3. For a product mentioned in columns 1 and 2 of the List in Annex II to this Protocol, the conditions set out in column 3 for the product concerned must be fulfilled instead of the rule in paragraph 2.

4. For the products of Chapters 84 to 91 inclusive, as an alternative to satisfying the conditions set out in column 3, the exporter may opt to apply the conditions set out in column 4 instead.

5. For the purpose of implementing sub-paragraph (b) (i) of paragraph 1 of Article 1, the following shall still be considered as insufficient working or processing to confer the status of originating product, whether or not there is a change of heading:

- (a) operations to ensure the preservation of merchandise in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);

- (h) slaughter of animals.

#### ARTICLE 6

1. The term "value" in the List in Annex II to this Protocol shall mean the customs value at the time of the import of the non-originating materials used or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the territory concerned.

Where the value of the originating materials used needs to be established, this paragraph shall be applied *mutatis mutandis*.

2. The term "ex-works price" in the List in Annex II shall mean the ex-works price of the product obtained minus any internal taxes which are, or may be, repaid when the product obtained is exported.

#### ARTICLE 7

Goods originating in the sense of this Protocol and constituting a single shipment which is not split up may be transported through territory other than that of any State, Party to this Agreement, of the Czech Republic, of Poland or of the Slovak Republic with, should the occasion arise, transshipment or temporary warehousing in such territory, provided that the crossing of the latter territory is justified for geographical reasons, that the goods have remained under the surveillance of the customs authorities in the country of transit or of warehousing, that they have not entered into the commerce of such countries or been delivered for home use there and have not undergone operations other than unloading, reloading or any operation designed to preserve them in good condition.

## TITLE II

## Methods for administrative co-operation

## ARTICLE 8

1. Originating products within the meaning of this Protocol shall, on importation into a State, Party to this Agreement, benefit from the Agreement upon submission of one of the following documents:

- (a) an EUR.1 movement certificate, hereinafter referred to as an "EUR.1 certificate" or an EUR.1 certificate, valid for a long term, and invoices referring to such certificate made out in accordance with Article 13. A specimen of the EUR.1 certificate is given in Annex III to this Protocol;
- (b) an invoice bearing the exporter's declaration as given in Annex IV to this Protocol, made out in accordance with Article 13;
- (c) an invoice bearing the exporter's declaration as given in Annex IV to this Protocol, made out by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed 5,110 units of account.

2. The following originating products within the meaning of this Protocol shall, on importation into a State, Party to the Agreement, benefit from the Agreement without it being necessary to produce any of the documents referred to in paragraph 1:

- (a) products sent as small packages from private persons to private persons, provided that the value of the products does not exceed 365 units of account;
- (b) products forming part of travellers' personal luggage, provided that the value of the products does not exceed 1,025 units of account.

These provisions shall be applied only when such goods are not imported by way of trade and have been declared as meeting the conditions required for the application of the Agreement, and where there is no doubt as to the veracity of such declaration.

Importations which are occasional and consist solely of goods for the personal use of the recipients or travellers or their families shall not be considered as importations by way of trade if it is evident from the nature and quantity of the goods that no commercial purpose is in view.

3. Amounts in the national currency of the exporting State, Party to the Agreement, equivalent to the amounts expressed in units of account shall be fixed by the exporting State and communicated to the other States, Parties to the Agreement. When the amounts are higher than the corresponding amounts fixed by the importing State, the importing State shall accept them if the goods are invoiced in the currency of the exporting State.

If the goods are invoiced in the currency of another State, Party to the Agreement, of the Czech Republic, of Poland or of the Slovak Republic the importing State shall recognize the amount notified by the State concerned.

4. The equivalent of a unit of account in the currencies of the States, Parties to the Agreement, of the Czech Republic, of Poland or of the Slovak Republic shall be the amounts specified in Annex VI to this Protocol.

5. The amounts expressed in units of account should be reviewed whenever necessary but at least every second year.

6. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the price thereof or are not separately invoiced are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

7. Sets, within the meaning of General Rule 3 of the Harmonized System, shall be regarded as originating when all component articles are originating products. Nevertheless, when a set is composed of originating and non-originating articles, the set as a whole shall be regarded as originating provided that the value of the non-originating articles does not exceed 15 per cent of the ex-works price of the set.

#### ARTICLE 9

1. An EUR.1 certificate shall be issued by the customs authorities of the exporting State when the goods to which it relates are exported. It shall be made available to the exporter as soon as actual exportation has been effected or ensured.

2. The EUR.1 certificate shall be issued by the customs authorities of a State, Party to this Agreement, if the goods to be exported can be considered as products originating in that State within the meaning of Article 1.

3. The customs authorities of a State, Party to this Agreement, may, provided that the goods to be covered by the EUR.1 certificates are in its territory, issue EUR.1 certificates under the conditions laid down in this Protocol if the goods to be exported can be considered as products originating in a State, Party to this Agreement, or in the Czech Republic, in Poland or in the Slovak Republic within the meaning of Article 2.

In such cases, the issue of the EUR.1 certificate is subject to the presentation of the evidence of origin issued or made out previously.

4. An EUR.1 certificate may be issued only where it can serve as the documentary evidence required for the purpose of implementing the preferential treatment provided for in this Agreement or the Agreements referred to in subparagraph (b) (iii) of paragraph 1 of Article 1.

The date of issue of the EUR.1 certificate must be indicated in the box on the EUR.1 certificate reserved for the customs authorities.

5. In exceptional circumstances an EUR.1 certificate may also be issued after exportation of the goods to which it relates if it was not issued at the time of exportation because of errors, involuntary omissions or special circumstances.

The customs authorities may issue an EUR.1 certificate retrospectively only after verifying that the particulars supplied in the exporter's application agree with those on the corresponding document.

EUR.1 certificates issued retrospectively must be endorsed with one of the following phrases: "ISSUED RETROSPECTIVELY", "ANNETTU JÄLKIKÄTEEN", "DELIVRE A POSTERIORI", "NACHTRÄGLICH AUSGESTELLT", "ÖTGEFID EFTIR À", "RILASCIATO A POSTERIORI", "UTSTEDT SENERE", "UTFÄRDAT I EFTERHAND", "KIADVA VISSZAMENŐLEGES HATALLYAL", "VYSTAVENO DODATECNE", "VYSTAVENÉ DODATOCNE", "WYDANE RETROSPEKTYWNIE".

6. In the event of the theft, loss or destruction of an EUR.1 certificate, the exporter may apply to the customs authorities which issued it for a duplicate to be made out on the basis of the export documents in their possession. The duplicate issued in this way must be endorsed with one of the following words: "DUPLICATE", "KAKSOISKAPPALE", "DUPLICATA", "DUPLIKAT", "EFTIRRIT", "DUPLICATO", "MASOLAT", "DUPLIKÄT".

The duplicate, which must bear the date of issue of the original EUR.1 certificate, shall take effect as from that date.

7. The endorsements referred to in paragraphs 5 and 6 shall be inserted in the "Remarks" box on the EUR.1 certificate.

8. It shall always be possible to replace one or more EUR.1 certificates by one or more EUR.1 certificates, provided that this is done at the customs office where the goods are located.

9. For the purpose of verifying whether the conditions stated in paragraphs 2 and 3 have been met, the customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

10. The provisions of paragraphs 2 to 9 above shall apply, *mutatis mutandis*, to the evidence of origin made out by approved exporters under the conditions set out in Article 13.

#### ARTICLE 10

1. An EUR.1 certificate shall be issued only on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative, on the form of which a specimen is given in Annex III to this Protocol, which shall be completed in accordance with this Protocol.

2. It shall be the responsibility of the customs authorities of the exporting State to ensure that the form referred to in paragraph 1 is properly completed. In particular, they shall check whether the box reserved for the description of the goods has been completed in such a manner as to exclude any possibility of fraudulent additions. To this end, the description of the goods must be given without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. Since the EUR.1 certificate constitutes the documentary evidence for the application of the preferential tariff and quota arrangements laid down in the Agreement, it shall be the responsibility of the customs authorities of the exporting State to take any steps necessary to verify the origin of the goods and to check the other statements on the certificate.

4. When an EUR.1 certificate is issued within the meaning of paragraph 5 of Article 9 after the goods to which it relates have actually been exported, the exporter must in the application referred to in paragraph 1:

- indicate the place and date of exportation of the goods to which the EUR.1 certificate relates,
- certify that no EUR.1 certificate was issued at the time of exportation of the goods in question, and state the reasons.

5. Applications for EUR.1 certificates and the evidence of origin referred to in the second sub-paragraph of paragraph 3 of Article 9, upon presentation of which new EUR.1 certificates are issued, must be preserved for at least two years by the customs authorities of the exporting State.

#### ARTICLE 11

1. EUR.1 certificates shall be made out on the form of which a specimen is given in Annex III to this Protocol. This form shall be printed in one or more of the official languages of the States, Parties to this Agreement, or in English. EUR.1 certificates shall be made out in one of those languages and in accordance with the provisions of the domestic law of the exporting State; if they are handwritten, they shall be completed in ink in capital letters.

2. The EUR.1 certificate shall be 210 x 297 millimetres. A tolerance of up to plus 8 millimetres or minus 5 millimetres in the length may be allowed. The paper used must be white-sized writing paper not containing mechanical pulp and weighing not less than 25 grammes per square metre. It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.

3. The States, Parties to this Agreement, may reserve the right to print the EUR.1 certificates themselves or may have them printed by printers approved by them. In the latter case, each EUR.1 certificate must include a reference to such approval. Each EUR.1 certificate must bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, whether or not printed, by which it can be identified.

## ARTICLE 12

1. An EUR.1 certificate must be submitted, within four months of the date of issue by the customs authorities of the exporting State, to the customs authorities of the importing State where the goods are entered, in accordance with the procedures laid down by that State. The said authorities may require a translation of a certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the goods meet the conditions required for the implementation of the Agreement.

2. Without prejudice to paragraph 5 of Article 5, where, at the request of the person declaring the goods at customs, a dismantled or non-assembled article falling within Chapter 84 or 85 of the Harmonized System is imported by instalments under the conditions laid down by the competent authorities, it shall be considered to be a single article and an EUR.1 certificate may be submitted for the whole article upon importation of the first instalment.

3. An EUR.1 certificate which is submitted to the customs authorities of the importing State after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit the certificate by the final date is due to *force majeure* or exceptional circumstances.

In other cases of belated presentation, the customs authorities of the importing State may accept the EUR.1 certificates where the goods have been submitted to them before the said final date.

4. The discovery of slight discrepancies between the statements made in the EUR.1 certificate and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the goods shall not *ipso facto* render the certificate null and void, provided it is duly established that the certificate corresponds to the goods.

5. EUR.1 certificates shall be preserved by the customs authorities of the importing State in accordance with the rules in force in that State.

6. Proof that the conditions set out in Article 7 have been met shall be provided by submission to the customs authorities of the importing State of either:

- (a) a single supporting transport document, made out in the exporting State, under the cover of which the transit country has been crossed; or

- (b) a certificate issued by the customs authorities of the transit country containing:
- an exact description of the goods,
  - the date of unloading and reloading of the goods and, where applicable, the names of the ships,
  - certified proof of the conditions under which the goods have stayed in the transit country;
- (c) or, failing these, any substantiating documents.

#### ARTICLE 13

1. Notwithstanding paragraphs 1 to 7 of Article 9 and paragraphs 1, 4 and 5 of Article 10, a simplified procedure for the issue of the documentation relating to the evidence of origin shall be applicable under the terms of the provisions set out below.

2. The customs authorities in the exporting State may authorize any exporter, hereinafter referred to as "approved exporter", who makes frequent shipments for which EUR.1 certificates may be issued, and who offers to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the goods, not to submit to the customs office in the exporting State at the time of export either the goods or the application for an EUR.1 certificate relating to those goods, for the purpose of obtaining an EUR.1 certificate under the conditions laid down in paragraphs 1 to 4 of Article 9.

3. In addition, the customs authorities may authorize an approved exporter to draw up EUR.1 certificates, valid for a maximum period of one year from the date of issue, hereinafter referred to as "LT certificates". The authorization shall be granted only where the originating status of the goods to be exported is expected to remain unchanged for the period of validity of the LT certificate. If any goods are no longer covered by the LT certificate, the approved exporter shall immediately inform the customs authorities who gave the authorization.

Where the simplified procedure applies, the customs authorities of the exporting State may prescribe the use of EUR.1 certificates bearing a distinctive sign by which they may be identified.

4. The authorization referred to in paragraphs 2 and 3 shall stipulate, at the choice of the customs authorities, that the Box 11, 'Customs endorsement', of the EUR.1 certificate must:

- (a) either be endorsed beforehand with the stamp of the competent customs office of the exporting State and the handwritten or non-handwritten signature of an official of that office; or
- (b) be endorsed by the approved exporter with a special stamp which has been approved by the customs authorities of the exporting State and corresponds to the specimen given in Annex V to this Protocol; this stamp may be preprinted on the form.

Box 11, 'Customs endorsement', of the EUR.1 certificate shall be completed if necessary by the approved exporter.

5. In the cases referred to in paragraph 4 (a), one of the following phrases shall be entered in box 7, "Remarks", of the EUR.1 certificate: "Simplified procedure", "Yksinkertaistettu menettely", "Procédure simplifiée", "Vereinfachtes Verfahren", "Einföldud afgreidsla", "Procedura simplificata", "Forenklet prosedyre", "Förenklad procedur", "Egyszerűsített eljárás", "Zjednodusené rizení", "Zjedodusené konanie", "Uproszczone procedura". The approved exporter shall if necessary indicate in Box 13, "Request for verification", the name and address of the customs authority competent to verify the EUR.1 certificate.

6. In the case referred to in paragraph 3, the approved exporter shall also enter in box 7 of the EUR.1 certificate one of the following phrases:

"LT certificate valid until ...",  
 "LT-todistus voimassa ... saakka",  
 "certificat LT valable jusqu'au ...",  
 "LT-Zertifikat gültig bis ...",  
 "LT-skírteini gildir til ...",  
 "certificato LT valido fino al ...",  
 "LT-sertifikat gyldig til ...",  
 "LT-certifikat giltigt till ...",  
 "LT bizonyítvány érvényes ... -ig",  
 "LT osvědčení platné do ...",  
 "LT osvedčenie platné do ...",  
 "LT-certifikat wazny do ...",

(date indicated in numerals),

and a reference to the authorization under which the relevant LT certificate has been issued.

The approved exporter shall not be required to refer in Box 8 and Box 9 of the LT certificate to the marks and numbers and number and kind of packages and the gross weight (kg) or other measure (litres, m<sup>3</sup>, etc.) Box 8 must, however, contain a description and designation of the goods which is sufficiently precise to allow for their identification.

7. Notwithstanding paragraphs 1 to 3 of Article 12, the LT certificate must be submitted to the customs office of import at or before the first importation of any goods to which it relates. When the importer carries out the customs clearance at several customs offices in the State of importation, the customs authorities may request him to produce a copy of the LT certificate to all of those offices.

8. Where an LT certificate has been submitted to the customs authorities, the evidence of the originating status of the imported goods shall, during the validity of the LT certificate, be given by invoices which satisfy the following conditions:

- (a) when an invoice includes both goods originating in a State, Party to this Agreement, in the Czech Republic, in Poland or in the Slovak Republic and non-originating goods, the exporter shall distinguish clearly between these two categories;
- (b) the exporter shall state on each invoice the number of the LT certificate which covers the goods and the date of expiry of the certificate and the name(s) of the country or countries in which the goods originate.

The statement on the invoice made by the exporter of the number of the LT certificate with the indication of the country of origin shall constitute a declaration that the goods fulfil the conditions laid down in this Protocol for the acquisition of preferential origin status in trade between the States, Parties to this Agreement.

The customs authorities of the exporting State may require that the entries, which, under the above provisions, must appear on the invoice, be supported by the manuscript signature followed by the name of the signatory in clear script;

- (c) the description and the designation of the goods on the invoice shall be in sufficient detail to show clearly that the goods are also listed on the LT certificate to which the invoice refers;
- (d) the invoices can be made out only for the goods exported during the period of validity of the relevant LT certificate. They may, however, be produced at the import customs office within four months of the date of their being made out by the exporter.

9. In the framework of the simplified procedures, invoices which satisfy the conditions of this Article may be made out and/or transmitted using telecommunications or electronic data processing methods. Such invoices shall be accepted by the customs of the importing State as evidence of the originating status of the goods imported in accordance with the procedures laid down by the customs authorities there.

10. Should the customs authorities of the exporting State identify that a certificate and/or invoice issued under the provisions of this Article is invalid in relation to any goods supplied, they shall immediately notify the customs authorities of the importing State of the facts.

11. The customs authorities may authorize an approved exporter to make out invoices bearing the declaration given in Annex IV to this Protocol in place of EUR.1 certificates.

The declaration made by the approved exporter on the invoice shall be made out in one of the official languages of the States, Parties to this Agreement, of the Czech Republic, of Poland, of the Slovak Republic, or in English. It shall be signed in manuscript and must either:

- (a) have a reference to the approved exporter's authorization number, or
- (b) be endorsed by the approved exporter with the special stamp referred to in paragraph 4 (b) which has been approved by the customs authorities of the exporting State. This stamp may be preprinted on the invoice.

12. However, the customs authorities in the exporting State may authorize an approved exporter not to sign the statement in paragraph 8 (b) or the declaration referred to in paragraph 11 given on the invoice, when such invoices are made out and/or transmitted using telecommunications or electronic data processing methods.

The said customs authorities shall lay down conditions for the implementation of this paragraph, including, if they so require, a written undertaking from the approved exporter, that he accepts full responsibility for such statement and declaration as if they had in fact been signed in manuscript by him.

13. In the authorizations referred to in paragraphs 2, 3 and 11 the customs authorities shall specify in particular:

- (a) the conditions under which the application for EUR.1 certificates or for LT certificates are made or under which the declaration concerning the origin of goods is made on the invoice;
- (b) the conditions under which these applications, as well as a copy of the invoices referring to an LT certificate and of the invoices bearing the exporter's declaration, are kept for at least two years. In the case of LT certificates or invoices referring to an LT certificate, this period shall begin from the date of expiry of validity of the LT certificate. These provisions shall also apply to the EUR.1 certificates or LT certificates and the invoices referring to an LT certificate, as well as to invoices bearing the

exporter's declaration, having served as the basis for the issue of other evidence of origin, used under the conditions laid down in the second sub-paragraph of paragraph 3 of Article 9.

14. The customs authorities in the exporting State may declare certain categories of goods ineligible for the special treatment provided for in paragraphs 2, 3 and 11.

15. The customs authorities shall refuse the authorizations referred to in paragraphs 2, 3 and 11 to exporters who do not offer all the guarantees which they consider necessary.

The customs authorities may withdraw the authorizations at any time. They must do so where the conditions of approval are no longer satisfied or the approved exporter no longer offers those guarantees.

16. The approved exporter may be required to inform the customs authorities, in accordance with the rules which they lay down, of goods to be dispatched by him, so that the competent customs office may make any verification it thinks necessary before the dispatch of the goods.

17. The provisions of this Article shall not prejudice application of the rules of the States, Parties to this Agreement, on customs formalities and the use of customs documents.

#### ARTICLE 14

The declaration referred to in paragraph 1 (c) of Article 8 shall be made out by the exporter in the form given in Annex IV to this Protocol in one of the official languages of the States, Parties to this Agreement, of the Czech Republic, of Poland, of the Slovak Republic or in English. It shall be typed or stamped and signed by hand. The exporter must keep a copy of the invoice bearing the said declaration for at least two years.

#### ARTICLE 15

1. The exporter or his representative shall submit with his request for an EUR.1 certificate any appropriate supporting document proving that the goods to be exported qualify for the issue of an EUR.1 certificate.

He shall undertake to submit at the request of the appropriate authorities, any supplementary evidence they may require for the purpose of establishing the correctness of the originating status of the goods eligible for

preferential treatment and shall undertake to agree to any inspection of his accounts and to any check on the processes of the obtaining of the above goods, carried out by the said authorities.

2. Exporters must keep for at least two years the supporting documents referred to in paragraph 1.

3. The provisions of paragraphs 1 and 2 shall apply *mutatis mutandis* in the case of the use of the procedures laid down in paragraphs 2 and 3 of Article 13 and of the declarations referred to in paragraphs 1 (b) and 1 (c) of Article 8.

#### ARTICLE 16

1. Goods sent from an EFTA State or from Hungary for exhibition in a country other than a State, Party to this Agreement, the Czech Republic, Poland or the Slovak Republic, and sold after the exhibition for importation into Hungary or into an EFTA State shall benefit on importation from the provisions of this Agreement on condition that the goods meet the requirements of this Protocol entitling them to be recognized as originating in an EFTA State or in Hungary and provided that it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these goods from an EFTA State or from Hungary to the country in which the exhibition is held and has exhibited them there;
- (b) the goods have been sold or otherwise disposed of by that exporter to someone in Hungary or in an EFTA State;
- (c) the goods have been consigned during the exhibition or immediately thereafter to Hungary or to an EFTA State in the state in which they were sent for exhibition;
- (d) the goods have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. An EUR.1 certificate must be produced to the customs authorities in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the goods and the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign goods, and during which the goods remain under customs control.

## ARTICLE 17

1. In order to ensure the proper application of this Title, the States, Parties to this Agreement, shall assist each other through their respective customs administrations, in checking the authenticity and accuracy of EUR.1 certificates, including those issued under paragraph 3 of Article 9 and the exporters' declarations made on invoices.
2. The Joint Committee shall be authorized to take any decisions necessary for the methods of administrative co-operation to be applied in due time in the States Parties to this Agreement.
3. The customs authorities of the States, Parties to this Agreement, shall provide each other, through the EFTA Secretariat, with specimen impressions of stamps used in their customs offices for the issue of EUR.1 certificates.
4. Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect particulars for the purpose of obtaining a preferential treatment for goods.
5. The States, Parties to this Agreement, shall take all necessary steps to ensure that goods traded under cover of an EUR.1 certificate, which in the course of transport use a free zone situated in their territory, are not substituted by other goods and that they do not undergo handling other than normal operations designed to prevent their deterioration.
6. When products originating in a State, Party to this Agreement, and imported into a free zone under cover of an EUR.1 certificate undergo treatment or processing, the customs authorities concerned must issue a new EUR.1 certificate at the exporter's request if the treatment or processing undergone is in conformity with the provisions of this Protocol.

## ARTICLE 18

1. Subsequent verifications of EUR.1 certificates and of exporters' declarations made on invoices shall be carried out at random or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy of the information regarding the true origin of the goods in question.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing State shall return the EUR.1 certificate and the invoice, if it has been submitted, or the invoice referring to an LT certificate, or the invoice bearing the exporter's

declaration or a copy of those documents, to the customs authorities of the exporting State, giving where appropriate, the reasons of substance or form for an inquiry.

The customs authorities shall forward, in support of the request for a *posteriori* verification, any documents and information that have been obtained suggesting that the particulars given on the EUR.1 certificate or the invoice are inaccurate.

If the customs authorities of the importing State decide to suspend the provisions of the Agreement while awaiting the results of the verification, they shall offer to release the goods to the importer subject to any precautionary measures judged necessary.

3. The customs authorities of the importing State shall be informed of the results of the verification as soon as possible. These results must be such as to make it possible to determine whether the documents returned under paragraph 2 apply to the goods actually exported, and whether these goods can, in fact, qualify for application of the preferential arrangements.

Where such disputes cannot be settled between the customs authorities of the importing State and those of the exporting State or where they raise a question as to the interpretation of this Protocol they shall be submitted to the Sub-Committee on customs and origin matters referred to in Article 26. The decisions shall be taken by the Joint Committee.

For the purpose of the subsequent verification of EUR.1 certificates, the customs authorities of the exporting State must keep the export documents, or copies of EUR.1 certificates used in place thereof, for at least two years.

### TITLE III

#### Final provisions

#### ARTICLE 19

The States, Parties to this Agreement, shall each take the steps necessary to implement this Protocol.

#### ARTICLE 20

The Annexes to this Protocol shall form an integral part thereof.

## ARTICLE 21

Goods which conform to the provisions of Title I and which on the date of entry into force of the Agreement are either being transported or are being held in a State, Party to this Agreement, in temporary storage, in bonded warehouses or in free zones, may be accepted as originating products subject to the submission, within four months from that date, to the customs authorities of the importing State of evidence of origin, drawn up retrospectively, and of any documents that provide supporting evidence of the conditions of transport.

## ARTICLE 22

The States, Parties to this Agreement, undertake to introduce measures necessary to ensure that the EUR.1 certificates which their customs authorities are authorized to issue in pursuance of this Agreement are issued under the conditions laid down by this Agreement. They also undertake to provide the administrative co-operation necessary for this purpose, in particular to check on the itinerary of goods traded under this Agreement and the places in which they have been held.

## ARTICLE 23

1. Without prejudice to the provisions of Protocol A, products which are of the kind to which the Agreement applies, and which are used in the manufacture of products for which an EUR.1 certificate, an LT certificate or the invoices referring to the LT certificate, or an invoice bearing the exporter's declaration are issued or completed, can only be the subject of drawback of customs duty or benefit from an exemption of customs duty of whatever kind when products originating in a State, Party to this Agreement, in the Czech Republic, in Poland or in the Slovak Republic, are concerned.

2. In this Article, the term "customs duty" also means charges having an effect equivalent to customs duty.

## ARTICLE 24

1. Where, by virtue of this Agreement, imports into an EFTA State are to be treated differently from imports covered by the EFTA Convention, the treatment provided for by this Agreement shall be applied to all products which are accompanied by evidence of origin referred to in paragraph 1 of Article 8, issued or made out in Hungary, or by any such evidence of origin issued in an EFTA State and bearing the expression "EFTA-Hungary Trade".

2. An exporter in an EFTA State or his representative shall enter the expression "EFTA-Hungary Trade" on the evidence of origin in trade between the EFTA States in cases where products have obtained their originating status by virtue of this Agreement by use of materials originating in Hungary, in the Czech Republic, in Poland or in the Slovak Republic.

3. Notwithstanding the provisions of paragraph 1, products originating in an EFTA State which are re-exported from Hungary, shall benefit at import into an EFTA State from treatment equal to that which they would have received, had they been sent directly from one EFTA State to another. The products must be in the same state or have undergone no working or processing in Hungary going beyond that referred to in paragraph 5 of Article 5. This treatment will be granted only upon submission to the customs authorities of the importing EFTA State of an EUR.1 certificate issued by the appropriate customs office in Hungary in which the expression "Application Article 24.3" has been inserted and authenticated by the stamp of the said office.

#### ARTICLE 25

1. Originating products within the meaning of this Protocol shall, on importation into Hungary benefit from the Agreement also upon submission of an EUR.1 certificate issued by a customs office in the Czech Republic, in Poland or in the Slovak Republic in which the expression "Application Article 25" has been inserted and authenticated by the stamp of the said office.

2. When products, previously imported into Hungary accompanied by evidence of origin referred to in paragraph 1 of Article 8, issued or made out in an EFTA State, are re-exported to the Czech Republic, to Poland or to the Slovak Republic, Hungary shall undertake to issue EUR.1 certificates with the expression "Application Article 25", provided that the products are re-exported in the same state or have undergone no working or processing in Hungary going beyond that referred to in paragraph 5 of Article 5.

#### ARTICLE 26

A Sub-Committee on customs and origin matters shall be set up under the Joint Committee in accordance with paragraph 5 of Article 29 of the Agreement charged with carrying out administrative co-operation with a view to ensuring a practical, correct and uniform application of this Protocol as well as a continuous information and consultation process between experts.

It shall be composed of experts from the States, Parties to the Agreement, responsible for questions related to customs and origin matters.

#### ARTICLE 27

For the purpose of implementing sub-paragraph (b) (ii) or (iii) of paragraph 1 of Article 1 any product originating in the territory of a State, Party to this Agreement, shall, on exportation to the territory of another State, Party to this Agreement, be treated as a non-originating product during the period or periods in which the last-mentioned State, Party to this Agreement, applies the rate of duty applicable to third countries or any corresponding safeguard measure to such products in accordance with this Agreement.

## ANNEX I TO PROTOCOL B

## EXPLANATORY NOTES

Note 1 - Article 1

The term "State, Party to this Agreement" shall also cover the territorial waters of this State.

Vessels operating on the high seas, including factory ships, on which the fish caught is worked or processed shall be considered as part of the territory of the State, Party to this Agreement, to which they belong provided that they satisfy the conditions set out in Explanatory Note 4.

Note 2 - Articles 1, 2 and 4

The conditions set out in Article 1 relative to the acquisition of originating status must be fulfilled without interruption in a State, Party to this Agreement, except as provided for in Article 2.

If originating products exported from a State, Party to this Agreement, to another country are returned, except in so far as provided for in Article 2, they must be considered as non-originating unless it can be demonstrated to the satisfaction of the customs authorities that:

- the goods returned are the same goods as those exported, and
- they have not undergone any operations beyond that necessary to preserve them in good condition while in that country.

Note 3 - Articles 1 and 2

In order to determine whether goods are originating products it shall not be necessary to establish whether the power and fuel, plant and equipment, and machines and tools used to obtain such goods originate in third countries or not.

Note 3 - Sub-paragraph (f) of Article 4

The term "its vessels" shall apply only to vessels:

- (a) which are registered or recorded in a State, Party to this Agreement;
- (b) which sail under the flag of a State, Party to this Agreement;

- (c) which are at least 50 per cent owned by nationals of a State, Party to this Agreement, or by a company with its head office in such a State, of which the manager or managers, chairman of the board of directors or of the supervisory board, and the majority of the members of such boards are nationals of a State, Party to this Agreement, and of which, in addition, in the case of partnerships or limited companies, at least half of the capital belongs to such a State or to public bodies or nationals of such a State;
- (d) of which the captain and officers are all nationals of a State, Party to this Agreement;
- (e) of which at least 75 per cent of the crew are nationals of a State, Party to this Agreement.

Note 5 - Articles 4 and 5

1. The unit of qualification for the application of the origin rules shall be the particular product which is considered as the basic unit when determining classification using the Nomenclature of the Harmonized System. In the case of sets of products which are classified by virtue of General Rule 3, the unit of qualification shall be determined in respect of each item in the set; this also applies to the sets of heading Nos 6308, 8206 and 9605.

Accordingly, it follows that:

- when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System within a single heading, the whole constitutes the unit of qualification,
- when a consignment consists of a number of identical products classified within the same heading of the Harmonized System, each product must be taken individually when applying the origin rules.

2. Where, under General Rule 5 of the Harmonized System, packing is included with the product for classification purposes, it shall be included for purposes of determining origin.

Note 5a - sub-paragraph (h) of Article 4

In the case of used tyres, the term "used articles collected there, fit only for the recovery of raw materials" does not only cover used tyres fit only for the recovery of raw materials but also used tyres fit only for retreading or for use as waste.

Note 6 - Paragraph 2 of Article 5

The Introductory Notes to Annex II shall also apply where appropriate to all products manufactured using non-originating materials even if they are not subject to a

specific condition contained in the List in Annex II but are subject instead to the change of heading rule set out in paragraph 2 of Article 5.

Note 7 - Article 6

"Ex-works price" shall mean the price paid to the manufacturer in whose undertaking the last working or processing is carried out, provided the price includes the value of all the products used in manufacture.

"Customs value" shall be understood as meaning the customs value as determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade done at Geneva on 12 April 1979.

Note 8 - Paragraph 1 of Article 8

The facility of using, under this Protocol, the invoice as evidence of the originating status of the goods, shall be extended to the delivery note or any other commercial document which describes the goods concerned in sufficient detail to enable them to be identified.

In the case of products sent by post which, within the meaning of paragraph 2 of Article 8, are not considered as importations by way of trade, the declaration of the originating status can also be made on the customs declaration C2/CP3 or on a sheet of paper annexed to that declaration.

Note 8 - Paragraph 1 of Article 17 and Article 22

Where an EUR.1 certificate has been issued under the conditions laid down in paragraph 3 of Article 9 and relates to goods re-exported in the same state, the customs authorities of the country of destination must be able to obtain, by means of administrative co-operation, true copies of the evidence of origin issued or made out previously relating to those goods.

Note 10 - Article 23

"Drawback of customs duty or exemption from customs duty of whatever kind" shall mean any arrangement for refund or remission, partial or complete, of customs duties applicable to products used in manufacture, provided that the said provision concedes, expressly or in effect, this repayment or non-charging or the non-imposition when goods obtained from the said products are exported but not when they are retained for home use.

"Products used in manufacture" shall mean any products in respect of which a "drawback of customs duty or exemption from customs duty of whatever kind" is requested as a result of the export of originating products for which an EUR.1 certificate, an LT certificate or the invoices referring to the LT certificate, or an invoice bearing the exporter's declaration are issued or made out.

## ANNEX II TO PROTOCOL B

List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status

## INTRODUCTORY NOTES

## General

## Note 1

- 1.1 The first two columns in the List describe the product obtained. The first column gives the heading number, or the Chapter number, used in the Harmonized System and the second column gives the description of goods used in that System for that heading or Chapter. For each entry in the first two columns a rule is specified in columns 3 and 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rule in column 3 or column 4 only applies to the part of that heading or Chapter as described in column 2.
- 1.2 Where several heading numbers are grouped together in column 1 or a Chapter number is given and the description of product in column 2 is therefore given in general terms, the adjacent rule in column 3 or column 4 applies to all products which, under the Harmonized System, are classified within headings of the Chapter or within any of the headings grouped together in column 1.
- 1.3 Where there are different rules in the List applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rule in column 3 or column 4.
- 1.4 For the products of Chapters 84 to 91 inclusive, if no origin rule is given in column 4, the rule set out in column 3 has to be applied.

## Note 2

- 2.1 The term "manufacture" covers any kind of working or processing including "assembly" or specific operations. However, see paragraph 5 of Note 3 below.
- 2.2 The term "material" covers any "ingredient", "raw material", "component" or "part", etc., used in the manufacture of the product.
- 2.3 The term "product" refers to the product being manufactured, even if it is intended for later use in another manufacturing operation.

## Note 3

- 3.1 In the case of any heading not in the List or any part of a heading that is not in the List, the "change of heading" rule set out in paragraph 2 of Article 5 applies. If a "change of heading" condition applies to any entry in the List, then it is contained in the rule in column 3.
- 3.2 The working or processing required by a rule in column 3 or column 4 has to be carried out only in relation to the non-originating materials used. The restrictions contained in a rule in column 3 or column 4 likewise apply only to the non-originating materials used.
- 3.3 Where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading including other materials of heading No..." means that only materials classified within the same heading as the product of a different description than that of the product as given in column 2 of the List may be used.
- 3.4 If a product, made from non-originating materials which has acquired originating status during manufacture by virtue of the change of heading rule or its own List rule, is used as a material in the process of manufacture of another product, then the rule applicable to the product in which it is incorporated does not apply to it.
  - For example:

An engine of heading No. 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No. 7224.

If this forging has been forged in the country concerned from a non-originating ingot then the forging has already acquired origin by virtue of the rule for heading No. ex 7224 in the List. It can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or another. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.
- 3.5 Even if the change of heading rule or the rule contained in the List are satisfied, a product does not have origin if the processing carried out, taken as a whole, is insufficient in the sense of paragraph 5 of Article 5.

**Note 4**

4.1 The rule in the List represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer origin. Thus if a rule says that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

4.2 When a rule in the List specifies that a product may be manufactured from more than one material, this means that any one or more of the materials may be used. It does not require that all be used.

- *For example:*

The rule for fabrics says that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used, one can use one or the other or both.

If, however, a restriction applies to one material and other restrictions apply to other materials in the same rule, then the restrictions only apply to the materials actually used.

- *For example:*

The rule for sewing machines specifies that the thread tension mechanism used has to originate and that the zigzag mechanism used also has to originate; these two restrictions only apply if the mechanisms concerned are actually incorporated into the sewing machine.

4.3 When a rule in the List specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule.

- *For example:*

The rule for heading No. 1904 which specifically excludes the use of cereals or their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not produced from cereals.

- *For example:*

In the case of an article made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth - even if non-wovens cannot

normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is the fibre stage.

See also paragraph 3 of Note 7 in relation to textiles.

- 4.4 If in a rule in the List two or more percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. The maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore the individual percentages must not be exceeded in relation to the particular materials they apply to.

#### Textiles

##### Note 5

- 5.1 The term "natural fibres" is used in the List to refer to fibres other than artificial or synthetic fibres and is restricted to the stages before spinning takes place, including waste and unless otherwise specified, the term "natural fibres" includes fibres that have been carded, combed or otherwise processed but not spun.
- 5.2 The term "natural fibres" includes horsehair of heading No. 0503, silk of headings Nos. 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of headings Nos. 5101 to 5105, the cotton fibres of headings Nos. 5201 to 5203 and the other vegetable fibres of headings Nos. 5301 to 5305.
- 5.3 The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the List to describe the materials not classified within Chapters 50 to 63 which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 5.4 The term "man-made staple fibres" is used in the List to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos. 5501 to 5507.

##### Note 6:

- 6.1 In the case of the products classified within those headings in the List where a reference is made to this Introductory Note, the conditions set out in column 3 of the List shall not be applied to any basic textile materials used in their manufacture which, taken together, represent 10 % or less of the total weight of all the basic textile materials used (but see also paragraph 3 and 4 of Note 6 below).

- 6.2 However, this tolerance may only be applied to mixed products which have been made from two or more basic textile materials, irrespective of their share of the product.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- synthetic man-made staple fibres,
- artificial man-made staple fibres.

- For example:

A yarn of heading No. 5205 made from cotton fibres and synthetic staple fibres is a mixed yarn. Therefore, non-originating materials that do not satisfy the origin rules may be used up to a weight of 10 % of the yarn.

- For example:

A woollen fabric of heading No. 5112 made from woollen yarn and synthetic yarn of staple fibres is a mixed fabric. Therefore, either non-originating synthetic yarn or woollen yarn or a combination thereof that does not satisfy the origin rules may be used up to a weight of 10 % of the fabric.

- For example:

Tufted textile of heading No. 5802 made from cotton yarn and cotton fabric is only a mixed product if the cotton fabric is itself a mixed fabric being made from two or more different basic textile materials or if the cotton yarns used are themselves mixtures.

- For example:

If the tufted textile concerned had been made from cotton yarn and synthetic fabric, then, obviously, two separate basic textile materials would have been used.

- For example:

A carpet with tufts made both from artificial yarns and tufts made from cotton yarns and with a jute backing is a mixed product because three basic textile

materials are used. Thus, any non-originating materials that are used at a later stage of manufacture than the rule allows, may be used, provided their total weight taken together does not exceed 10 % of the weight of the textile materials in the carpet. Thus, the jute backing, the artificial yarns and/or the cotton yarns could be imported at that stage of manufacture, provided the weight conditions are met.

- 6.3 In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 % in respect of this yarn.
- 6.4 In the case of products incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm., sandwiched by means of an adhesive between two films of plastic film, this tolerance is 30 % in respect of this strip.

*Note 7*

- 7.1 In the case of those textile products, which are marked in the List by a footnote referring to this Introductory Note, textile materials, with the exception of linings and interlinings, which do not satisfy the rule set out in the List in column 3 for the made-up product concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 7.2 Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of paragraph 3 of Note 4.
- 7.3 In accordance with paragraph 3 of Note 4, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.
  - *For example:*  
If a rule in the List says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.
- 7.4 Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

ANNEX VIIREFERRED TO IN ARTICLE 8, PARAGRAPH 2

The abolition of export duties and charges having equivalent effect does not apply to the products listed in the Table.

TABLE TO ANNEX VIISystem of export levy on fish products  
which Iceland may retain

Icelandic Law No. 4 of 28 February 1966 as amended by Laws Nos. 79 of 31 December 1968, 73 of 1 June 1970, 4 of 30 March 1971 and 17 of 4 May 1972, concerning export levy on fish products

## Article 1

A levy shall be applied to exports of Icelandic fish products specified in this Law.

Fish caught by fishing vessels registered in Iceland shall be considered as Icelandic products even if such fish is caught outside Icelandic fishing limits and not processed ashore.

## Article 2

In accordance with this Law, the export levy on fish products shall be applied as follows:

1. A levy of 2,300 Icelandic Crowns per ton shall be applied to exports of frozen fish fillets, frozen fish roes, salted whitefish, salted fish fillets, belly of salted cod, salted fish roes not elsewhere specified, salted fish bits, salted and frozen fish tongues, stockfish, dried fish heads, shellfish and preserved fish products in hermetic containers.

Should the levy applied under this Article exceed 4-5% of the fob value of the fish products in question, the Ministry of Fisheries may decide to abolish the part of the levy which is in excess thereof.

2. A levy of 3% of the fob value shall be applied to exports of whole frozen fish, frozen fish waste, frozen Norway lobster, frozen shrimp, frozen capelin, capelin meal, capelin oil and hydrogenated oils and fats from fish or marine mammals.

3. A levy of 5% of the fob value shall be applied to exports of whale products other than preserved in hermetic containers.

4. A levy of 6% of the fob value shall be applied to exports of fish meal, redfish meal, Norway lobster meal, shrimp meal, liver meal, codliver oil, redfish oil, whole frozen herring, frozen herring fillets, salted herring, salted herring fillets, salted lumpfish roes and other fish products not specified in this Article.

500 Icelandic Crowns per 100 kg of contents may be deducted from the fob value of salted herring and salted lumpfish roes to cover packing costs.

5. A levy of 7% of the fob value shall be applied to exports of fresh and chilled fish.

The Ministry of Fisheries may, however, decide that the levy on fresh or chilled herring shall be equal to that which would have been applicable had the herring been processed in Iceland by the same method as is to be used abroad (see points 4 and 6 of this Article).

6. A levy of 8% of the fob value shall be applied to exports of herring meal, herring solubles and herring oil.

7. Seal products are not subject to the export levy.

For the purposes of point 1, uncooked preserved products in hermetic containers shall mean uncooked preserved products ready for consumption in hermetic containers of 10 kg net or less. Fully processed uncooked products in larger containers shall also be regarded as uncooked preserved products in hermetic containers if the exporter supplies proof that the value of the unprocessed product is less than one-third of the export value of the exported products.

Where Icelandic vessels sell, in foreign ports, fresh or processed fish products caught by their own or other vessels and subject to this levy, the said levy shall be applied on the gross value of such sales, less customs duties and other unloading and sales charges, in accordance with rules issued by the Ministry of Fisheries.

### Article 3

The Treasury shall collect the export levy in accordance with the provision of Article 2, and the receipts shall be distributed as follows:

- |    |   |        |
|----|---|--------|
| 1. | For payments of insurance premiums for fishing vessels in accordance with rules issued by the Ministry of Fisheries | 82-0 % |
| 2. | To the Fisheries Loan Fund of Iceland   | 11-4 % |
| 3. | To the Fisheries Fund   | 3-1 %  |
| 4. | To the building of vessels for ocean and fishery research   | 1-8 %  |
| 5. | For the building of Fisheries Research Institutes   | 0-7 %  |
| 6. | To the Federation of Icelandic Fishing Vessel Owners  | 0-5 %  |
| 7. | To seamen's unions in accordance with rules issued by the Ministry of Fisheries                                     | 0-5 %  |

Payment of the insurance premiums for fishing vessels referred to in item 1 may be subject to the condition that the insurance company concerned be a member of the Underwriters' Reinsurance Union and be required to apply certain rules concerning calculation of premium rates, insurance terms and hull values.

Whalers may be exempted from these conditions and are then entitled to reimbursement of their contribution to the Fishing Vessels' Insurance Fund instead of the insurance premiums.

#### Article 4

The levy provided for in Article 2, points 2, 3 and 4, shall be applied to the selling price of the products, including packing, fob vessels in the first port of landing. The value of the products sold cif or under other terms, shall be adjusted to the fob valued in accordance with rules issued by the Ministry of Trade.

Where unsold products are exported the export levy provided for in Article 2, points 2, 3 and 4 shall be calculated on the basis of the minimum export price stipulated in the export licence.

If the exporter supplies proof, within 6 months of the date shown on the bill of lading, that the price of an unsold fish product, as determined by the competent authority, is higher than the actual selling price, the Ministry of Finance shall refund the difference, subject to confirmation by the Ministry of Trade that sale at the lower price has been approved.

The levy provided for in Article 2, point 1 shall be applied to the net weight of the sold product, which must be indicated in the export documents.

#### Article 5

The export levy falls due as soon as a ship has been cleared for sailing or before landing, should customs clearance not be required. The Ministry of Fisheries may, however, authorize the shipper to pay the dues when he receives the foreign currency, provided that the transaction is carried out through an Icelandic bank and that he gives the Customs Authorities a promissory note, representing the exchange value of the sum due.

## Article 6

Shippers of products covered by the provisions of this Law shall submit to the competent authority before a ship is cleared for sailing or before landing a duplicate or a certified copy of the bill of lading or other shipping documents, an export declaration, an invoice and, if required, a certificate of inspection, together with an export licence. If no export document has been issued, the shipper shall make a declaration regarding the quantity being shipped.

The provisions of this Article concerning the shipper shall also apply to the master of the ship, in the event of absence of or negligence by the shipper, and to the shipbrokers.

The levy shall be applied on the basis of the information contained in the documents mentioned in this Article.

## Article 7

The ship and its cargo shall constitute surety for payment of the export levy.

## Article 8

The competent authorities shall draw up a statement of export levies collected under the provisions of this Law in accordance with the instructions given by the Ministry of Finance and the rules relating to public accounts.

## Article 9

Any infringement of this Law is liable to a fine unless another law provides for a stricter penalty. Moreover, any shipper, ship's master or shipbroker found guilty of giving incorrect information about a ship's cargo shall pay triple the export levy in respect of which the fraud was attempted.

The fines shall be paid to the Treasury.

Should the competent authorities suspect that the documents referred to in Article 6 are incorrect, they shall inspect the ship's cargo before shipment or landing, or shall by some other means obtain the documents necessary for this purpose.

**Article 10**

Infringements of this Law shall be tried under the provisions of the law governing criminal procedure.

**Article 11**

The Government shall be authorized to apply levies on the net weight of the products specified in Article 2, point 1 of this Law in accordance with Article 9 of Law No. 77 of 28 April 1962 on the Fisheries Catch Equalization Fund and Article 9 Act No. 42 of 9 June 1960 on Fresh Fish Inspection.

**Article 12**

The Ministry of Fisheries may issue a regulation laying down further directives concerning the application of this Law.

PROTOCOL DREFERRED TO IN ARTICLE 12, PARAGRAPH 1

Article 12 of the Agreement shall apply to Switzerland and Liechtenstein with regard to State monopolies concerning salt and gunpowder and to the Icelandic monopoly on fertilizers only to the extent that these States will have to fulfil corresponding obligations under the Agreement between the EFTA States and the European Communities and its Member States on a European Economic Area.

Article 12 shall be applicable at the latest from 1 January 1995 in the case of the Austrian monopoly on salt.

ANNEX XIIIREFERRED TO IN ARTICLE 13Article 1

Article 2

1. The notification shall:
  - (a) include the full text of the draft technical regulation both in the original language and in a full translation or a summary into English;

  - (c) state the name and address of the national authority competent to give further information on the regulation;
  - (d) include the envisaged date of entry into force.
2. Where a draft technical regulation merely transposes the full text of an international or European standard, information regarding the relevant standard shall suffice.

Article 3

Any State, Party to this Agreement, may ask for further information on a draft technical regulation notified in accordance with this procedure.

Article 4

The exchange of notifications between the States, Parties to this Agreement, shall take place through the EFTA Secretariat.

Through the EFTA Secretariat, any State, Party to this Agreement, may make comments on the drafts communicated.

Article 5

The time-limit for comments on notifications shall be three months from the date of receipt by the EFTA Secretariat of the text of the draft regulation. During this period the draft technical regulation may not be adopted.

#### Article 6

An additional notification shall indicate to what extent it has been possible to take account of any comments received from the States, Parties to this Agreement, any change of substance made as compared with the notified draft, as well as the date of entry into force of the regulation.

#### Article 7

The standstill period of three months shall however not apply when for urgent reasons relating to the protection of public health or safety, the protection of health and life of animals or plants, the competent authorities are obliged to prepare technical regulations in a very short period of time in order to enact or introduce them immediately without any consultations being possible. The reasons which warrant the urgency of the measures taken shall be given.

ANNEX XV ON THE INTERPRETATION OF ARTICLE 20

The EFTA States and Hungary agree that the application of Article 20 shall be guided by the following criteria:

- (a) Only those measures can be classified as State aid which result in a net transfer of funds from State sources to the recipient through direct subsidies or which result in tax revenues foregone through tax concession; aid granted under schemes which are fully paid for by the beneficiaries are not State aid in the sense of Article 20; when assessing effects of State aid, the cumulative effects of all types of aid measures awarded to recipients are to be taken into consideration.
- (b) The following measures, in general fall outside, the scope of Article 20 :
  - (i) credits and loans from State sources or agencies, if the interest and capital repayments are in accordance with current market conditions;
  - (ii) guarantees given by States or State agencies, if the premiums cover the long-term cost of the scheme;
  - (iii) equity injections by States or State agencies if the rate of return on such investments can reasonably be expected to be at least equal to the cost of State borrowing;
  - (iv) tax measures including social security charges that are part of the general national income norm for tax purposes, available to all enterprises, and uniformly applied in a country.
- (c) The following measures are examples of types of aid normally consistent with the provisions of Article 20:
  - (i) aid to research, development and innovation, provided it is clearly intended for the stimulation of such activities and that such activities are at a pre-competitive level; the pre-competitive level is understood to include applied research and development up to and including the development of a first prototype; such aid may be awarded up to a rate of 50 per cent of project costs

or at differentiated tax rates of equivalent effect; basic research may be aided to a greater extent; the closer to the market place a project is, the lower the degree of subsidizations should be;

- (ii) aid given to sectors with problems of overcapacity to rationalize the structure of industry by ensuring an orderly downscaling of production and employment; such measures should strictly be limited in duration and be accompanied by an adjustment programme; when evaluating problems of overcapacity the international situation as a whole and not merely in the country in question is to be taken into account;
- (iii) general aid to export promotion such as national weeks, store promotion, industrial fairs, provided that such aid is not company-specific;
- (iv) regional development aid to the extent that it does not interfere with conditions of fair competition; its purpose must be to put industries in regional development areas on an equal economic footing with industries in other parts of the country and not to increase capacity in sectors already suffering from problems of overcapacity; the definition of regional development areas, including areas in industrial decline, lies within the sole competence of the States, Parties to this Agreement, which may be requested to furnish statistics detailing the reasons for the designation of such areas;
- (v) the aid in form of general public services to trade and industry on terms and conditions not favouring certain sectors and enterprises;
- (vi) general aid for the creation of new employment opportunities provided such jobs are not in sectors already suffering from overcapacity;
- (vii) environmental aid, under the general principle that the polluter-pays-principle is observed; investment specifically designated to reduce pollution may be aided up to a rate of 25 per cent or at differentiated tax rates of equivalent effect; recognizing the existence of different qualities of legislation or standards in other countries and their

potential impact on trade and competition, the degree of subsidizations for specific industries shall be kept under constant review;

- (viii) aid to small and medium-sized enterprises if intended to offset disadvantages directly linked to the size of the firm in question, such enterprises being understood as employing not more than 100 people and having an annual turnover of less than 10 million ECUs.

(d) The following measures are examples of types of aid normally not consistent with Article 20 :

- (i) aid to set against operating losses of enterprises, either directly or through the foregoing of payments due to public authorities;
- (ii) the injection of equity capital in firms if it has the same effect as to set aid against operating losses;
- (iii) aid to production in problem sectors suffering from the structural overcapacity or to enterprises in difficulties if not accompanied by an adjustment programme and strictly limited in duration;
- (iv) aid given as a rescue measure to specific firms if not given merely to provide time for the development of long-term solutions and to avoid acute social problems;
- (v) aid measures, including indirect taxes, that are applied in such a way as to discriminate in favour of domestically-produced goods and against like goods produced in another State, Party to this Agreement;
- (vi) the forms of aid to exports of goods to other States, Parties to this Agreement as described in the Appendix to this Annex.

**APPENDIX TO ANNEX XV****ILLUSTRATIVE LIST OF FORMS OF EXPORT AID REFERRED TO IN  
ANNEX XV (d) (vi)**

- (a) Currency retention schemes or any similar practices which involve a bonus on exports or re-exports.
- (b) The provision by governments of direct subsidies to exporters.
- (c) The remission, calculated in relation to exports, of direct taxes or social welfare charges on industrial or commercial enterprises.
- (d) The exemption, in respect of exported goods, from charges or taxes, other than charges in connection with importation or indirect taxes levied at one or several stages on the same goods if sold for internal consumption, or the payment, in respect of exported goods, of amounts exceeding those effectively levied at one or several stages on these goods in the form of indirect taxes or of charges in connection with importation or in both forms.
- (e) In respect of deliveries by governments or governmental agencies of imported raw materials for export business on different terms than for domestic business, the charging of prices below world prices.
- (f) In respect of government export credit guarantees, the charging of premiums at rates which are manifestly inadequate to cover the long-term operating costs and losses of the credit insurance institutions.
- (g) The grant by governments (or special institutions controlled by governments) of export credits at rates below those which they have to pay in order to obtain the funds so employed.
- (h) The government bearing all or part of the costs incurred by exporters in obtaining credit.

PROTOCOL E

CONCERNING THE TREATMENT THAT MAY BE APPLIED BY  
LIECHTENSTEIN AND SWITZERLAND  
TO IMPORTS OF CERTAIN PRODUCTS SUBJECT TO  
THE SCHEME FOR BUILDING UP COMPULSORY RESERVES

Liechtenstein and Switzerland may subject to a scheme of compulsory reserves products which are indispensable for the survival of the population, and in the case of Switzerland for the army, in times of serious supply shortages and the production of which in Liechtenstein and Switzerland is insufficient or non-existent and the characteristics and nature of which enable reserves to be built up.

Liechtenstein and Switzerland shall apply this scheme in a manner that does not involve discrimination, direct or indirect, between the products imported from the other States, Parties to this Agreement, and like or substitute national products.

ANNEX XVIREFERRED TO IN ARTICLE 23Application of Article 23 of the EFTA-Hungary Agreement

1. In view of the fact that all customs duties on industrial products have already been abolished in trade between Finland and Hungary by virtue of the Finland-Hungary Agreement, the following rules concerning Article 23 will apply.

Before taking exceptional measures authorized under Article 23 of this Agreement with respect to products originating in Finland, Hungary shall inform Finland thereof and, if requested by Finland, enter into consultation on the application of the planned measures on imports from Finland.

Agreement Finland - Hungary

2. The duty-free admission provided for in the Finland-Hungary Agreement shall be granted in trade between the two countries upon presentation of the declaration of origin foreseen by the rules of origin of that Agreement.

3. The declaration of origin may be issued in Finland or in Hungary only in respect of products fulfilling the rules of origin of the said Agreement.

4. The rules of origin allow the use of materials originating in Finland and in Hungary (bilateral cumulation) whereas materials originating in other EFTA countries than Finland are considered to be of third-country origin.

Agreement EFTA - Hungary

5. The treatment provided for by virtue of the Agreement EFTA-Hungary shall be granted in trade between Finland and Hungary upon presentation of evidence of origin foreseen by that Agreement (EUR.1 and invoice declaration).

6. Such evidence of origin may be issued in Finland or in Hungary in respect of products fulfilling the rules of origin of that Agreement.

7. The rules of origin allow the use of materials originating in other EFTA countries and, under the conditions of Article 1, paragraph 2 of Protocol B, in the Czech Republic, in Poland and in the Slovak Republic.

JOINT DECLARATION BY THE EFTA STATES AND HUNGARY  
CONCERNING THE EXTENSION OF THE RULES OF ORIGIN

The EFTA States and Hungary agree to explore the possibilities for further extending and improving the rules of origin, including cumulation, in order to expand and promote production and trade within Europe.

**RECORD OF UNDERSTANDINGS  
RELATING TO THE AGREEMENT BETWEEN  
THE EFTA STATES AND THE REPUBLIC OF HUNGARY**

1. The EFTA States and Hungary recognize that there is a certain parallelism between the levels of concessions regarding tariffs, quantitative restrictions, charges and measures having equivalent effect at the entry into force of the free trade Agreement EFTA States-Hungary and the Agreement establishing an Association between Hungary and the European Communities. The EFTA States and Hungary further recognize that this parallelism should basically be maintained during the whole transitional period. The possibility of applying such parallelism to concessions exchanged under special conditions will be considered in the Joint Committee.
2. The States, Parties to this Agreement, have taken note that under the Agreement concluded between the EFTA States and the European Communities on the European Economic Area, obstacles to trade in certain industrial goods will be further decreased and free trade will be extended to some new products. After the entry into force of that Agreement, the possibility of liberalizing trade in these products in the trade between the States, Parties to this Agreement, will be examined in the Joint Committee, which will decide on corresponding adjustments to the relevant Annexes of this Agreement, taking into account any concessions exchanged under special conditions between the EFTA States and the European Communities. The EFTA States declare their readiness to discuss in the Joint Committee further liberalization of trade in goods if such liberalization were to occur in the relations between the EFTA States and the European Communities.
3. The EFTA States and Hungary agree that the provisions in Article 23 of Protocol B shall not apply until 1 January 1994. On the request of a State, Party to this Agreement, consultations should be held regarding any negative effect resulting from this derogation with the aim of reaching a satisfactory solution. This derogation, including the possibility of consultation, shall be prolonged by the Joint Committee on condition that the present practice applied between Hungary and the European Communities is not changed.
4. The EFTA States and Hungary agree to closely co-ordinate their efforts in training those concerned with the use of the simplified procedure laid down in Protocol B with regard to the issue, control and verification of evidence of origin, in order to enable them to be authorized to use this procedure. The simplified procedure shall be used in a restricted way and its implementation be subject to deliberations in the Sub-Committee on origin and customs matters.

5. Hungary shall notify the EFTA States of all the arrangements made to establish the administrative co-operation between Hungary, the Czech Republic, Poland and the Slovak Republic for the implementation of Protocol B and of changes thereto.

6. With regard to goods exported from an EFTA State for processing (outward processing) in Hungary and processed there (inward processing), or vice versa, the States, Parties to this Agreement, declare their readiness to discuss, as soon as possible, arrangements under which

- such goods would be admitted free of customs duties into Hungary or an EFTA State, as the case may be, for processing, subject to re-exportation;
- the products obtained from such processing would be admitted totally or partly free of customs duties and charges having equivalent effect on importation into an EFTA State or Hungary, as the case may be.

7. The States, Parties to this Agreement, have taken note of the unilateral declaration by Hungary in the Agreement establishing an Association between Hungary and the European Communities that the value of customs duty-free imports into Hungary from the European Communities from 1 January 1994 will amount to at least 25 per cent of total industrial imports from the European Communities. Should Hungary, in order to fulfil this undertaking, add new products to the list of duty-free items, Hungary will, to the extent possible, take the trade interests of EFTA States into account when selecting such products. The Joint Committee shall decide on corresponding adjustments to the relevant Annexes to this Agreement, taking into account any concessions exchanged under special conditions between Hungary and the European Communities, as referred to in paragraph 1.

8. The States, Parties to this Agreement, have taken note that in accordance with Annex VIa to the Agreement establishing an Association between Hungary and the European Communities, Hungary shall, starting on 1 January 1995 and up to 31 December 1997, eliminate quantitative restrictions on imports originating in the European Communities of products still subject to such restrictions at 31 December 1994, up to an amount of 40 per cent of such imports into Hungary from the European Communities on the basis of last available annual statistics. Should products be deleted from Annex VIa to the Agreement establishing an Association between Hungary and the European Communities, Hungary will, to the extent possible, take into account the trade interests of the EFTA States. The Joint Committee shall decide on corresponding adjustments to the relevant Annexes to this Agreement, taking into account any concessions exchanged under special conditions between Hungary and the European Communities, as referred to in paragraph 1.

9. Starting on 1 January 1998 and up to 31 December 2000 at the latest, Hungary shall eliminate all remaining quantitative restrictions relating to products contained in Annex IX to this Agreement.
10. In case any textile or clothing item imported into Hungary will be subject to quota arrangements as a result of negotiations between Hungary and the European Communities, Hungary is prepared to enter into negotiations on this subject with the interested EFTA States.
11. The right of Iceland to retain customs duties of a fiscal nature as set out in Table I of Protocol C, in accordance with Article 7, should not result in a less favourable treatment for Hungary as regards the products specified in that Table, than that accorded by Iceland to the European Economic Community.
12. The EFTA States and Hungary agree that measures referred to in Article 11 of this Agreement for the protection of the environment may be applied to the extent permitted under Article XX of the General Agreement on Tariffs and Trade and any other relevant instruments negotiated under its auspices which are applicable between the States, Parties to this Agreement, and to the extent permitted under the Agreement establishing an Association between Hungary and the European Communities.
13. Hungary may apply restrictions in the sense of paragraph 3 of Article 16 only to the extent permitted according to its agreement under the IMF.
14. In defining categories of entities to be covered by Article 17 the States, Parties to this Agreement, will be guided by the definitions of the European Communities.
15. For the purpose of interpreting Article 20, paragraph 3, the States, Parties to this Agreement, agree that the term "higher intensity" refers to the level of aid granted by way of measures contained in Annex XV, paragraph (c) and that the application of normally inconsistent measures under paragraph (d), applied with a view to promoting the restructuring of Hungary's economy, shall be considered as not being inconsistent with Article 20, paragraph 1, provided that such measures are compatible with the rules on State aid in the Agreement establishing an Association between Hungary and the European Communities, as implemented under the rules referred to in Article 62, paragraph 3 of the said Agreement.
16. With regard to Article 20, paragraph 3, the Joint Committee shall decide on prolongation by further periods of five years of the application of that paragraph, provided that the Hungary/EC Association Council takes a similar decision as referred to in Article 62, paragraph 4(a) of the Agreement establishing an Association between Hungary and the European Communities.

17. The EFTA States and Hungary agree that the provisions of Article 20, paragraph 6 of this Agreement should be implemented in the same manner and for as long as applicable under Article 62, paragraph 6, second sub-paragraph, of the Agreement establishing an Association between Hungary and the European Communities.

18. The EFTA States and Hungary agree that in cases where the imports into the territory of a State, Party to this Agreement, of a textile product originating in the other State, Party to this Agreement, take place under the conditions and cause the damage defined in Article 8, paragraph 2 of the Additional Protocol to the Europe Agreement on Trade in Textile Products between the Republic of Hungary and the European Economic Community, the EFTA States or Hungary, as the case may be, may resort to the safeguard mechanism provided for by the said Article and in accordance with the procedure laid down in Article 26 of this Agreement.

For the purpose of this Understanding, appropriate measures may consist of

(a) the temporary reintroduction of the basic duty referred to in Article 5 of this Agreement or the actual MFN duty, whichever the lower, on imports exceeding a level which in no case may be lower than 110 per cent of the level of the importing State Party's imports during the twelve-month period terminating two months, or where data is not available three months, preceding the month in which the request for consultation is made, of the product in question originating in the other State Party,

or

(b) the imposition by Hungary of a quantitative restraint the limit of which may in no case be lower than 110 per cent of the level of Hungary's imports during the twelve-month period terminating two months, or where data is not available three months, preceding the month in which the request for consultation is made, of the product in question originating in the other State Party.

In no case may the aforementioned safeguard mechanism be invoked, or the measures taken pursuant to it be applied, after the period for the elimination of all quantitative restrictions and measures of equivalent effect on textile trade between Hungary and the European Economic Community, laid down in the said Protocol between Hungary and the European Economic Community, has elapsed.

The EFTA States and Hungary furthermore agree that in no case shall non-tariff barriers be applied in trade in textile products between the EFTA States and Hungary after the transitional period referred to in Article 1 of this Agreement.

At the request of either State, Party to this Agreement, consultations will take place without delay on any problem arising from trade in textile and clothing products.

19. If there is a disagreement with regard to the actual value of imports of industrial products referred to in Article 23, paragraph 3, international trade statistics such as those of UN/ECE, GATT and OECD will serve as a basis.

20. The EFTA States and Hungary consider that an arbitration procedure could be envisaged for disputes which cannot be settled through consultations between the States Parties concerned or in the Joint Committee. Such a possibility, *inter alia*, regarding Article 19, will be further examined in the Joint Committee.

21. The States, Parties to this Agreement, in accordance with the General Agreement on Tariffs and Trade, in particular Article I, and its Protocols, Annexes and related Agreements which are applicable between the States, Parties to this Agreement, shall ensure as from the entry into force of this Agreement that measures are not applied in a discriminatory way *vis-à-vis* any State, Party to this Agreement, concerning all conditions, rules and formalities in connection with imports and exports, including import licensing procedures.

22. Taking into account developments in other international fora and in their respective relations with the European Communities and in view of the growing importance of areas closely related to trade in goods, the EFTA States and Hungary will periodically discuss, in an appropriate forum among the States Parties concerned, possibilities to extend their economic relations to areas beyond trade in goods. The States, Parties to this Agreement, will immediately notify each other of developments in this field, having occurred in particular in their relations with the European Communities.

Rappelant leur intention de prendre une part active à l'intégration économique en Europe et se déclarant prêts à coopérer à la recherche de moyens de la renforcer,

Eu égard à la déclaration signée par les pays de l'AELE et la Hongrie à Gothenburg, le 13 juin 1990,

Réaffirmant leur attachement aux principes d'une économie de marché, qui constitue la base de leurs relations,

Prenant note du mémorandum d'accord entre l'Organisation de coopération et de développement économiques et le Gouvernement hongrois signé à Paris le 4 juin 1994, en particulier la disposition selon laquelle la Hongrie s'engage fermement à finir d'instaurer le cadre économique, juridique et institutionnel nécessaire à une économie de marché solidement ancrée,

Réaffirmant leur attachement à une démocratie pluraliste fondée sur l'Etat de droit, ainsi que les droits et libertés fondamentales de la personne humaine et rappelant leur appartenance au Conseil de l'Europe,

*Article 11*

## EXCEPTIONS GÉNÉRALES

Le présent Accord n'exclut pas les interdictions ou restrictions applicables aux importations, aux exportations ou au transit de marchandises et justifiées par des raisons d'ordre moral ou d'ordre public ou de sécurité publique, la protection de la santé et de la vie des personnes, des animaux ou des plantes et du milieu, la protection des trésors nationaux de valeur artistique, historique ou archéologique, ou la protection de la propriété intellectuelle ou les règles relatives à l'or ou l'argent. Ces interdictions ou restrictions ne constituent cependant pas un moyen de discrimination arbitraire ou de limitation déguisée du commerce entre les Etats parties au présent Accord.

*Article 12*

## MONOPOLES D'ETAT

1. Les Etats parties au présent Accord veillent à ce que les monopoles d'Etat de caractère commercial soient ajustés, sous réserve des dispositions contenues dans le Protocole D, de sorte qu'il n'y ait pas de discrimination concernant les conditions d'achat ou de commercialisation des biens entre les ressortissants des pays de l'AELE et les ressortissants hongrois.

2. Les dispositions du présent article s'appliqueront à tout organe par l'intermédiaire duquel les autorités compétentes d'un Etat partie au présent Accord, en droit ou en fait, directement ou indirectement, surveillent ou déterminent les importations ou les exportations entre les Etats parties ou exercent une influence appréciable sur elles. Les présentes dispositions s'appliquent de même aux monopoles délégués par les Etats à des tiers.

*Article 13*

## NOTIFICATION DE PROJETS DE RÈGLEMENTS TECHNIQUES

1. Les pays de l'AELE et la Hongrie se notifient mutuellement, le plus tôt possible, conformément aux dispositions définies à l'Annexe XIII, les projets de règlements techniques et les projets de modification de ces règlements qu'ils ont l'intention d'adopter.

2. Les dispositions du présent article et de l'Annexe XIII au présent Accord commencent à s'appliquer un an à compter de l'entrée en vigueur du présent Accord.

*Article 14*

## COMMERCE DE PRODUITS AGRICOLES

1. Les Etats parties au présent Accord se déclarent prêts à favoriser, autant que leur politique agricole le permet, le développement harmonieux du commerce des produits agricoles et à examiner cette question régulièrement dans une enceinte appropriée avec les Etats parties intéressés.

2. A cette fin, chaque pays de l'AELE a conclu avec la Hongrie un arrangement bilatéral prévoyant des mesures propres à faciliter le commerce des produits agricoles.

3. Les Etats parties au présent Accord n'appliquent pas leurs règlements vétérinaires, phytosanitaires et sanitaires pour produire une discrimination arbitraire ou injustifiable entre les Etats parties où les conditions sont les mêmes, ou à titre de restriction déguisée au commerce entre eux.

### *Article 15*

#### FISCALITÉ INTERNE

1. Les Etats parties au présent Accord s'abstiennent de toute mesure ou pratique d'ordre fiscal interne qui, directement ou indirectement, créerait une discrimination entre les produits ayant leur origine dans un pays de l'AELE et des produits identiques ayant leur origine en Hongrie.

2. Les produits exportés vers le territoire de l'un des Etats parties au présent Accord peuvent ne pas bénéficier du remboursement de la fiscalité interne qui dépasse le montant de la fiscalité directe ou indirecte à laquelle ils sont soumis.

### *Article 16*

#### PAIEMENTS

1. Les paiements afférant au commerce de marchandises entre un pays de l'AELE et la Hongrie et le transfert des montants correspondants au territoire de l'Etat partie au présent Accord où réside le créancier ne font l'objet d'aucune restriction.

2. Les Etats parties au présent Accord s'abstiennent d'appliquer toute restriction de change ou d'ordre administratif à l'octroi au remboursement ou l'acceptation de crédits à court ou moyen terme concernant des opérations commerciales auxquelles participe une personne qui réside sur leur territoire.

3. Jusqu'à ce que la monnaie hongroise soit pleinement convertible au sens de l'article VIII des statuts du Fonds monétaire international<sup>1</sup>, la Hongrie conserve le droit d'appliquer des restrictions de change à l'octroi ou à l'acceptation de crédits à court ou moyen terme, à condition de le faire d'une manière non discriminatoire par rapport à l'origine des produits et de ne pas les appliquer uniquement à des produits ou types de produits particuliers.

### *Article 17*

#### MARCHÉS PUBLICS

1. Les Etats parties au présent Accord considèrent la libéralisation effective de leurs marchés publics respectifs comme un objectif du présent Accord.

<sup>1</sup> Nations Unies, *Recueil des Traités*, vol. 2, p. 39.

2. A compter de l'entrée en vigueur du présent Accord, les pays de l'AELE admettront les sociétés hongroises parmi celles qui peuvent soumissionner pour des marchés publics conformément à l'Accord relatif aux marchés publics du 12 avril 1979<sup>1</sup>, modifié par un protocole du 2 février 1987<sup>2</sup>, négocié à ce sujet sous les auspices de l'Accord général sur les tarifs douaniers et le commerce.

3. Compte tenu de la restructuration et du développement de son économie, la Hongrie fera en sorte progressivement que les sociétés des pays de l'AELE soient admises, sur la base des mêmes principes, à soumissionner pour les contrats publics hongrois. Ce faisant, la Hongrie indiquera à la Commission mixte les entités ou organismes qu'elle inscrira sur la liste de l'Annexe I à l'Accord visé au paragraphe 1 ci-dessus, au cas où elle-même y adhérerait.

4. Dès que possible après l'entrée en vigueur du présent Accord, les Etats parties prendront une mesure supplémentaire pour étendre leurs engagements concernant la participation aux marchés publics afin que la participation à ceux-ci soit libre et ait lieu dans la transparence et qu'il n'y ait pas de discrimination entre les fournisseurs potentiels des Etats parties. Après une période au cours de laquelle l'asymétrie diminuera en faveur de la Hongrie, un équilibre complet des droits et obligations entre les Etats parties sera établi au plus tard à la fin de la période de transition.

5. La Commission mixte, conformément aux dispositions des articles 28 et 29 du présent Accord, s'occupera des modalités pratiques de cette évolution, y compris, entre autres, de sa portée, du calendrier et des règles à appliquer, ainsi que des catégories d'entités qui attribuent les marchés publics.

6. Les Etats parties intéressés s'efforcent d'adhérer aux accords pertinents négociés sous les auspices de l'Accord général sur les tarifs douaniers et le commerce.

### *Article 18*

#### PROTECTION DE LA PROPRIÉTÉ INTELLECTUELLE

Les Etats parties au présent Accord accordent et assurent à la propriété intellectuelle une protection adéquate, effective et non discriminatoire. La protection de la propriété intellectuelle se trouvera d'ici au 1<sup>er</sup> janvier 1997 à un niveau analogue à celui qui prévaut sur le territoire des Etats parties au présent Accord. Les Etats parties au présent Accord adoptent et prennent des mesures adéquates, effectives et non discriminatoires pour faire appliquer ces droits et empêcher leur violation, en particulier la contrefaçon et le piratage. Des applications particulières sont définies à l'Annexe XIV.

### *Article 19*

#### RÈGLES DE CONCURRENCE CONCERNANT LES ENTREPRISES

1. Sont incompatibles avec une mise en œuvre adéquate du présent Accord, dans la mesure où ils peuvent nuire au commerce entre un pays de l'AELE et la Hongrie :

<sup>1</sup> Nations Unies, *Recueil des Traités*, vol. 1235, p. 259.

<sup>2</sup> *Ibid.*, vol. 1511, p. 287.

a) Tous les accords conclus entre des entreprises, toutes les décisions adoptées par des associations d'entreprises et toutes les pratiques concertées entre des entreprises, lorsque leur objet ou leur effet est d'empêcher, de restreindre ou de fausser la concurrence touchant la production ou le commerce des marchandises;

b) Tout abus de position dominante, de la part d'une ou de plusieurs entreprises, sur la totalité ou sur une grande partie du territoire des États parties au présent Accord.

2. Les dispositions du paragraphe 1 du présent article s'appliquent aux activités de toutes les entreprises, y compris les entreprises publiques et celles auxquelles un Etat partie au présent Accord accorde des droits spéciaux ou exclusifs. Les entreprises auxquelles est confiée l'exploitation de services d'intérêt économique général ou qui ont le caractère d'un monopole générateur de recettes sont soumises aux règles énoncées dans le présent article dans la mesure où l'application de celles-ci ne fait pas obstacle à l'exécution, en droit ou en fait, des tâches particulières qui leur sont confiées.

3. Si un Etat partie au présent Accord considère qu'une pratique donnée est incompatible avec les dispositions des paragraphes 1 et 2 du présent article, il peut prendre les mesures qu'il estime nécessaires pour surmonter les difficultés graves posées par les pratiques en question, sous réserve des dispositions et conformément aux modalités définies à l'article 26 du présent Accord.

#### *Article 20*

#### AIDE PUBLIQUE

1. Toute aide accordée par un Etat partie au présent Accord ou au moyen de ressources publiques sous une forme quelconque qui déforme ou menace de déformer la concurrence en favorisant certaines entreprises ou la production de certaines marchandises, dans la mesure où il risque d'en résulter des conséquences pour le commerce entre un pays de l'AELE et la Hongrie, est incompatible avec l'application du présent Accord.

2. Toute pratique contraire aux dispositions du paragraphe 1 du présent article doit être évaluée d'après les critères définis à l'Annexe XV.

3. Aux fins de l'application des dispositions du paragraphe 1 du présent Accord, la Hongrie peut, pendant les cinq années qui suivent l'entrée en vigueur du présent Accord, accorder une aide supérieure à celle que les critères définis à l'Annexe XV du présent Accord admettent de la part de pays de l'AELE.

4. Les Etats parties au présent Accord veillent à ce que l'aide publique soit transparente, entre autres en faisant connaître chaque année à la Commission mixte le montant total et la répartition de l'aide accordée et en fournissant sur demande des renseignements sur les mécanismes d'aide. Si un autre Etat partie le demande, l'Etat partie intéressé fournit des informations sur des cas particuliers et individuels d'aide publique.

5. Si un Etat partie au présent Accord considère qu'une pratique est incompatible avec les dispositions du paragraphe 1 du présent article, il peut prendre des mesures appropriées contre elle, conformément aux conditions et modalités définies à l'article 26 du présent Accord.

6. Lorsque s'y appliquent les dispositions de l'Accord général sur les tarifs douaniers et le commerce, ces mesures appropriées ne peuvent être adoptées que si elles sont conformes aux modalités et aux conditions définies par l'Accord général et tout autre instrument pertinent négocié dans son cadre qui s'applique entre les Etats parties au présent Accord.

7. Les Etats parties au présent Accord échangent des informations compte tenu des limites résultant des exigences du secret professionnel et commercial.

### *Article 21*

#### DUMPING

Si un pays de l'AELE considère qu'il y a pratique de dumping dans ses échanges commerciaux avec la Hongrie, au sens de l'article VI de l'Accord général sur les tarifs douaniers et le commerce, ou si la Hongrie considère qu'il y a dumping au sens de cet article dans ses échanges commerciaux avec un pays de l'AELE, l'Etat partie considéré peut prendre des mesures appropriées contre cette pratique conformément aux dispositions de l'accord d'application de l'article VI de l'Accord général sur les tarifs douaniers et le commerce et aux modalités définies à l'article 26 du présent Accord.

### *Article 22*

#### MESURES D'URGENCE APPLICABLES AUX IMPORTATIONS D'UN PRODUIT PARTICULIER

Si un produit est importé en quantités accrues et dans des conditions telles qu'elles occasionnent ou menacent d'occasionner :

a) Soit des dommages graves aux producteurs nationaux de produits identiques ou directement concurrentiels sur le territoire de l'Etat partie qui les importe,

b) Soit de graves perturbations dans un secteur quelconque de l'économie ou des difficultés sérieuses qui risquent de détériorer gravement la situation économique d'une région,

l'Etat partie considéré peut prendre des mesures appropriées conformément aux dispositions et aux modalités définies à l'article 26 du présent Accord.

### *Article 23*

#### AJUSTEMENT STRUCTUREL

1. La Hongrie peut prendre des mesures exceptionnelles de durée limitée qui dérogent aux dispositions de l'article 4 du présent Accord sous forme d'accroissement de droits de douane.

2. Ces mesures ne peuvent s'appliquer qu'à des industries naissantes ou à certains secteurs en cours de restructuration ou qui éprouvent des difficultés graves, particulièrement lorsque ces difficultés provoquent d'importants problèmes sociaux.

3. Les droits de douane sur les importations qui sont applicables en Hongrie aux produits ayant leur origine dans les pays de l'AELE et qui sont institués par ces mesures ne peuvent pas excéder 25% *ad valorem* et doivent laisser subsister un élément de préférence pour les produits ayant leur origine dans les pays de l'AELE. La valeur totale des importations des produits soumis à ces mesures ne doit pas excéder 15% de celle de toutes les importations de produits industriels en provenance de pays de l'AELE, au sens de l'article 2 du présent Accord, au cours de la dernière année pour laquelle des statistiques sont disponibles.

4. La période pendant laquelle ces mesures s'appliquent ne dépasse pas cinq ans à moins qu'une durée plus longue soit autorisée par la Commission mixte. Ces mesures cessent de s'appliquer au plus tard à l'expiration de la période de transition.

5. Aucune mesure de cette nature ne peut être appliquée à un produit si plus de trois ans se sont écoulés depuis l'élimination de tous les droits et restrictions quantitatives ou de toutes les redevances ou mesures ayant un effet équivalent concernant ce produit.

6. La Hongrie informe la Commission mixte de toute mesure exceptionnelle qu'elle a l'intention de prendre et, à la demande des pays de l'AELE, des consultations ont lieu préalablement dans le cadre de la Commission mixte au sujet de ces mesures et des secteurs auxquels elles vont s'appliquer. En prenant de telles mesures, la Hongrie fournit à la Commission mixte un calendrier de l'élimination des droits de douane dont elle décide conformément au présent article. Ce calendrier prévoit cette élimination progressivement, par réduction chaque année d'un même pourcentage, à compter au plus tard de deux ans après la création de ces droits. La Commission mixte peut décider d'un calendrier différent.

#### Article 24

##### RÉEXPORTATION ET PÉNURIE GRAVE

Si l'application des dispositions des articles 8 et 10 du présent Accord provoquent :

a) Soit la réexportation vers un pays tiers alors que ce produit est soumis, par l'Etat exportateur, partie au présent Accord, à des restrictions quantitatives ou des droits d'exportation ou des mesures ou prélèvements en cas d'exportation ayant un effet équivalent;

b) Soit une grave pénurie, ou la menace d'une grave pénurie, d'un produit indispensable à l'Etat partie exportateur;

et si ces situations occasionnent de graves difficultés pour le pays exportateur partie au présent Accord ou risquent de l'exposer à de graves difficultés, ce pays peut prendre des mesures appropriées sous réserve des dispositions et conformément aux modalités définies à l'article 26 du présent Accord.

#### Article 25

##### DIFFICULTÉS DE BALANCE DES PAIEMENTS

1. Si un pays de l'AELE ou la Hongrie éprouve de graves difficultés de balance des paiements ou est menacé par l'imminence de telles difficultés, ce pays ou la Hongrie, selon le cas, peut, conformément aux dispositions prévues par l'Ac-

cord général sur les tarifs douaniers et le commerce, adopter des mesures commerciales restrictives qui doivent être de durée limitée et ne pas aller au-delà de ce qui est nécessaire pour remédier au déséquilibre de la balance des paiements. Le pays de l'AELE ou la Hongrie, selon le cas, informe immédiatement les autres Etats parties au présent Accord ainsi que la Commission mixte de l'adoption de ces mesures et, dès que possible, du calendrier de leur élimination.

2. Les Etats parties au présent Accord s'efforcent néanmoins d'éviter d'imposer des mesures restrictives pour des raisons de balance des paiements.

### *Article 26*

#### PROCÉDURE D'APPLICATION DE MESURES DE SAUVEGARDE

1. Avant de déclencher la procédure d'application de mesures de sauvegarde prévue par le présent article, les Etats parties intéressés s'efforcent de résoudre tout différend entre eux par des consultations directes et en informent les autres Etats parties.

2. Au cas où la Hongrie ou un pays de l'AELE qui soumet les importations de produits risquant de provoquer la situation visée à l'article 22 du présent Accord à des mesures administratives ayant pour objet la fourniture rapide de renseignements sur les tendances des courants commerciaux, il en informe les autres Etats parties.

3. Sans préjudice des dispositions du paragraphe 7 du présent article, l'Etat partie au présent Accord qui envisage de recourir aux mesures de sauvegarde visées au paragraphe 4 du présent article le notifie promptement aux autres Etats parties et à la Commission mixte et fournit toutes les informations pertinentes. Des consultations se déroulent sans retard dans le cadre de la Commission mixte entre les Etats parties en vertu d'une solution.

4. a) Au sujet des articles 19 et 20 du présent Accord, les Etats parties intéressés apportent à la Commission mixte toute l'assistance dont elle a besoin pour examiner la question et, le cas échéant, éliminer la pratique à laquelle il est fait objection. Si l'Etat partie considéré ne met pas fin à cette pratique dans les délais définis par la Commission mixte, ou en l'absence d'accord au sein de celle-ci, dans les cas visés à l'article 19 dans les trois mois et dans les cas visés à l'article 20 dans les trente jours ouvrables à compter de la date à laquelle la question a été soulevée, l'Etat partie intéressé peut adopter les mesures qui conviennent pour surmonter les difficultés résultant de ladite pratique.

b) Au sujet des articles 21, 22 et 24 du présent Accord, la Commission mixte examine la situation et peut prendre toute décision nécessaire pour mettre fin aux difficultés signalées par l'Etat partie intéressé. Si la Commission mixte ne prend pas de décision dans les trente jours qui suivent la date à laquelle elle a été saisie, l'Etat partie intéressé peut adopter les mesures nécessaires pour remédier à la situation.

c) Au sujet de l'article 31 du présent Accord, l'Etat partie intéressé peut prendre des mesures appropriées une fois les consultations conclues ou une fois écoulée la période de trente jours à compter de la date de notification.

5. Les mesures de sauvegarde qui sont prises sont notifiées immédiatement aux autres Etats parties et à la Commission mixte. Leur étendue et leur durée se limitent à ce qui est strictement nécessaire pour remédier à la situation qui a provoqué leur application et ne doivent pas être excessives par rapport aux dommages

provoqués par la pratique ou à la difficulté en question. Priorité est donnée aux mesures qui troublent le moins possible l'application de l'Accord. Les mesures prises par la Hongrie en cas d'action ou d'omission d'un pays de l'AELE ne peuvent avoir d'incidence que sur le commerce avec ce pays. Les mesures prises au sujet d'une action ou d'une omission de la Hongrie peuvent seulement l'être par le ou les pays de l'AELE dont le commerce subit les conséquences de ladite action ou omission.

6. Les mesures de sauvegarde prises font l'objet, dans le cadre de la Commission mixte, de consultations régulières dont le but est leur relâchement dès que possible ou leur suppression une fois que la situation ne les justifie plus.

7. Si des circonstances exceptionnelles requérant une action immédiate ne permettent pas un examen préalable, l'Etat partie intéressé peut, dans les cas visés aux articles 21, 22 et 24, appliquer immédiatement les mesures préventives strictement nécessaires pour remédier à la situation. Ces mesures sont notifiées sans retard et des consultations ont lieu dès que possible entre les Etats parties dans le cadre de la Commission mixte.

#### *Article 27*

##### EXCEPTIONS POUR RAISON DE SÉCURITÉ

Aucune disposition du présent Accord n'empêche un Etat partie de prendre toute mesure qu'il juge nécessaire :

- a) Pour empêcher la divulgation d'informations contraires à ses intérêts fondamentaux en matière de sécurité;
  - b) Pour protéger ses intérêts de sécurité essentiels ou pour respecter des obligations internationales ou des règles de conduite nationales :
- i) Soit concernant le commerce d'armes, de munitions et de matériel de guerre, à condition que ces mesures ne gênent pas les conditions de concurrence concernant des produits qui ne sont pas expressément conçus à des fins militaires, et le commerce d'autres biens, matières et services qui a lieu directement ou indirectement pour fournir une entité militaire;
  - ii) Soit concernant la non-prolifération des armes biologiques et chimiques, des armes nucléaires ou d'autres dispositifs explosifs nucléaires;
  - iii) Soit qui sont valables en temps de guerre ou de tension internationale sérieuse constituant une menace de guerre.

#### *Article 28*

##### LA COMMISSION MIXTE

1. L'application du présent Accord est surveillée et administrée par la Commission mixte créée en vertu de la Déclaration signée par les pays de l'AELE et la Hongrie à Gothenburg le 13 juin 1990.

2. Aux fins de la bonne application du présent Accord, les Etats qui y sont parties échangent des informations et, à la demande de n'importe lequel d'entre eux, tiennent des consultations dans le cadre de la Commission mixte. Celle-ci considère en permanence la possibilité d'éliminer davantage les obstacles au commerce entre les pays de l'AELE et la Hongrie.

3. La Commission mixte peut prendre des décisions dans les cas visés dans le présent Accord. Au sujet des autres questions, elle peut faire des recommandations.

#### *Article 29*

##### RÈGLEMENT INTÉRIEUR DE LA COMMISSION MIXTE

1. Aux fins de la bonne application du présent Accord, la Commission mixte se réunit au moins une fois par an et chaque fois qu'il le faut. Tout Etat partie au présent Accord peut demander qu'elle se réunisse.

2. La Commission mixte se prononce par commun accord de ses membres.

3. Si un représentant à la Commission mixte d'un Etat partie au présent Accord accepte une décision sous réserve que les conditions constitutionnelles correspondantes soient remplies, la décision entre en vigueur à la date à laquelle est notifié le retrait de la réserve, à moins qu'elle ne prévoie une date ultérieure.

4. La Commission mixte adopte son règlement intérieur qui, entre autres, contient des dispositions pour la convocation des réunions ainsi que la désignation du Président et son mandat.

5. La Commission mixte peut décider de créer les sous-commissions et groupes de travail qu'elle juge nécessaires pour l'assister dans sa tâche.

#### *Article 30*

##### EVOLUTION

1. Si un Etat partie au présent Accord estime qu'il serait de l'intérêt économique des Etats parties de développer et d'approfondir les relations instituées par cet Accord en les étendant à des domaines non visés par celui-ci, il présente une demande motivée aux autres Etats parties. Ceux-ci peuvent charger la Commission mixte d'examiner cette demande et, le cas échéant, de leur faire des recommandations, particulièrement en vue de l'ouverture de négociations.

2. Les accords résultant d'actes visés au paragraphe 1 du présent article sont soumis à ratification ou à l'approbation des Etats parties, conformément à leur droit interne.

#### *Article 31*

##### EXÉCUTION DES OBLIGATIONS

1. Les Etats parties au présent Accord prennent toute mesure générale ou particulière pour s'acquitter des obligations que leur impose l'Accord. Ils veillent à ce que les objectifs définis dans l'Accord soient atteints.

2. Si un pays de l'AELE considère que la Hongrie, ou si la Hongrie considère qu'un pays de l'AELE, a manqué à une obligation prévue par le présent Accord, il peut prendre les mesures appropriées conformément aux dispositions et à la procédure définies à l'article 26 du présent Accord.

### Article 32

#### ANNEXES ET PROTOCOLES

Les Annexes et Protocoles au présent Accord font partie intégrante de celui-ci. La Commission mixte peut décider de modifier les Annexes et les Protocoles A et B.

### Article 33

#### RELATIONS COMMERCIALES RÉGIES PAR D'AUTRES ACCORDS

1. Le présent Accord s'applique aux relations commerciales entre les différents pays de l'AELE qui y sont parties d'une part, et la Hongrie d'autre part, mais non pas aux relations commerciales entre les différents pays de l'AELE, à moins qu'il ne contiennent des dispositions contraires.

2. L'Accord relatif à la suppression réciproque d'obstacles au commerce entre la Finlande et la Hongrie signé le 2 mai 1974<sup>1</sup> tel que modifié (ci-après dénommé l'Accord Finlande-Hongrie) reste en vigueur jusqu'à ce que le bénéfice des avantages mutuels qu'il prévoit pour ses Parties soit pleinement assuré par le présent Accord. A ce stade, la Finlande et la Hongrie mettront fin à l'Accord entre elles par décision commune. Tout sera fait pour assurer qu'aucune des concessions ne sera retirée du fait de l'extinction de l'Accord Finlande-Hongrie. Cette décision et ces mesures seront notifiées sans retard aux autres Etats parties au présent Accord.

Aucune concession accordée en vertu de l'Accord Finlande-Hongrie ne sera retirée en conséquence de l'entrée en vigueur du présent Accord. Si l'une quelconque risquait de l'être, la Finlande et la Hongrie se consulteraient immédiatement pour éviter qu'il en soit ainsi.

3. Les dispositions des articles 8, 10, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 23, 24 et 30 du présent Accord s'appliquent aussi, *mutatis mutadis*, au commerce entre la Finlande et la Hongrie visé par l'Accord Finlande-Hongrie.

4. Des règles particulières d'application du présent article sont définies à l'Annexe XVI.

### Article 34

#### UNIONS DOUANIÈRES, ZONES DE LIBRE-ÉCHANGE ET COMMERCE FRONTALIER

1. Le présent Accord n'empêche pas que continuent d'exister ou soient créés des unions douanières, de même que des zones de libre-échange ou des arrangements concernant le commerce frontalier, dans la mesure où ils ne nuisent pas au régime commercial, en particulier aux dispositions concernant les règles d'origine contenues dans le présent Accord.

<sup>1</sup> Nations Unies, *Recueil des Traités*, vol. 1289, p. 157.

2. Des consultations entre les Etats parties au présent Accord auront lieu sur demande à la Commission mixte au sujet d'accords créant de telles unions douanières ou zones de libre-échange.

### *Article 35*

#### APPLICATION TERRITORIALE

Le présent Accord s'applique aux territoires des Etats qui y sont parties.

### *Article 36*

#### MODIFICATIONS

Des modifications au présent Accord autres que celles qui sont visées à l'article 32 de celui-ci et qui sont approuvées par la Commission mixte sont soumises aux Etats parties audit Accord pour acceptation et entrent en vigueur si elles sont acceptées par tous. Les instruments d'acceptation sont déposés auprès du dépositaire.

### *Article 37*

#### ADHÉSION

1. Tout Etat qui devient membre de l'Association européenne de libre-échange peut adhérer au présent Accord à condition que la Commission mixte décide d'approuver son adhésion, qui doit faire l'objet de négociations, entre les Etats parties au présent Accord intéressés et l'Etat candidat, au sujet des conditions que doit prévoir cette décision. L'instrument d'adhésion est déposé auprès du dépositaire qui le notifie à tous les autres Etats parties.

2. A l'égard d'un Etat qui y adhère, le présent Accord entre en vigueur le premier jour du troisième mois qui suit le dépôt de l'instrument d'adhésion de cet Etat.

### *Article 38*

#### RETRAIT ET EXTINCTION

1. Tout Etat partie peut se retirer de l'Accord en le notifiant par écrit à l'Etat dépositaire. Le retrait prend effet six mois après la date à laquelle l'Etat dépositaire reçoit la notification.

2. En cas de retrait de la Hongrie, le présent Accord expire à la fin de la période de préavis, et en cas de retrait de tous les pays de l'AELE il expire à la fin de la période de préavis correspondant à la dernière notification.

3. Tout pays membre de l'AELE qui se retire de la Convention instituant l'Association européenne de libre-échange<sup>1</sup> cesse de ce fait le même jour d'être partie au présent Accord.

<sup>1</sup> Nations Unies, *Recueil des Traités*, vol. 370, p. 3.

*Article 39*

## ENTRÉE EN VIGUEUR

1. Le présent Accord entrera en vigueur le 1<sup>er</sup> juillet 1993 à condition que tous les Etats signataires aient déposé leurs instruments de ratification ou d'acceptation auprès de l'Etat dépositaire.

2. Si le présent Accord n'entre pas en vigueur conformément aux dispositions du paragraphe 1 du présent article, et à condition que la Hongrie ait déposé son instrument de ratification ou d'acceptation, les représentants des Etats signataires ayant déposé cet instrument se rencontreront avant le 1<sup>er</sup> août 1993 et pourront décider de la date d'entrée en vigueur de l'Accord à leur égard. Tant qu'une telle décision n'est pas prise, une réunion ayant le même objet se tiendra au plus tard trente jours après que tout autre Etat signataire aura déposé son instrument.

3. Le présent Accord entrera en vigueur, à l'égard des Etats signataires qui déposeront leur instrument de ratification ou d'acceptation après la réunion visée au paragraphe 2 du présent article, le premier jour du deuxième mois qui suivra le dépôt mais pas avant la date décidée conformément aux dispositions du paragraphe 2 du présent article.

4. Tout Etat signataire peut, dès la date de la signature, déclarer que dans une phase initiale il appliquera le présent Accord provisoirement si celui-ci ne peut pas entrer en vigueur à son égard au plus tard le 1<sup>er</sup> juillet 1993, à condition que ledit Accord soit entré en vigueur à l'égard de la Hongrie.

*Article 40*

ANNEXE I VISÉE À L'ALINÉA *a* DE L'ARTICLE 2

PROTOCOLE A RELATIF AUX PRODUITS VISÉS À L'ALINÉA *b*  
DE L'ARTICLE 2 DE L'ACCORD

*Article premier*

Les dispositions de l'Accord s'appliquent aux produits dont la liste figure au Tableau I.

*Article 2*

1. Afin que soit tenu compte des différences de coût des matières premières agricoles incorporées aux produits définis dans les tableaux visés aux articles 3 et 4 de l'Accord, celui-ci n'exclut pas que :

- i) Soit prélevé à l'importation une composante variable ou un montant fixe ou que soient appliquées des mesures internes de compensation de prix;
- ii) Soient appliquées des mesures adoptées concernant l'exportation.

2. Les mesures de compensation de prix ne dépassent pas l'écart entre le prix interne payé par la branche d'activité et le prix du marché mondial des matières premières agricoles incorporées aux produits considérés.

*Article 3*

1. En ce qui concerne les produits inscrits aux Tableaux II, III, IV, V et VI, le pays de l'AELE intéressé accorde à la Hongrie les concessions indiquées dans ces tableaux.

2. Le traitement qui est accordé à l'Islande est indiqué au Tableau VII. Les droits de douane sont indiqués dans la liste 1 et les droits de caractère fiscal dans la liste 2 du tableau. L'Islande peut cependant remplacer ces droits par d'autres mesures de compensation de prix conformes aux dispositions de l'article 2 mais ce remplacement quel qu'il soit ne doit pas aboutir à un traitement qui serait moins favorable pour la Hongrie que celui que l'Islande accorde à la Communauté économique européenne.

*Article 4*

1. La Hongrie abaisse les droits qu'elle applique aux produits agricoles transformés conformément aux dispositions du Tableau VIII et de celles de son appendice.

2. En ce qui concerne les produits inscrits aux Tableaux VIII et IX, la Hongrie se réserve le droit d'adopter, à la place des arrangements actuels concernant les importations et les exportations de produits inscrits au Tableau VIII, un système de montants compensatoires conformes aux dispositions des paragraphes 1 et 2 de l'article 2 ou toute autre mesure compensatoire au même effet. L'application de telles mesures ne restreint pas la réduction prévue des droits applicable aux produits inscrits au Tableau IX.

*Article 5*

Sans préjudice des concessions accordées aux produits mentionnés aux Tableaux II à VIII, les pays de l'AELE et la Hongrie ne sont en aucune façon limités dans la poursuite de leurs politiques agricoles ou dans l'adoption de mesures pertinentes prises au titre de ces politiques.

*Article 6*

Les pays de l'AELE notifient à la Hongrie et la Hongrie notifie aux pays de l'AELE toutes les mesures de compensation de prix appliquées conformément aux dispositions de l'article 2 du présent Protocole.

*Article 7*

La Commission mixte examine tous les deux ans l'évolution du commerce de produits agricoles transformés entre les Parties. Un premier examen aura lieu avant la fin de 1993. A la lumière de ces examens et compte tenu des arrangements entre les Etats parties à l'Accord et la Communauté économique européenne dans le domaine considéré ainsi que dans celui du GATT, les pays de l'AELE et la Hongrie décident de modifier éventuellement l'éventail des produits visés dans le présent Protocole, de leur appliquer des traitements différents et, éventuellement, d'élaborer des règles concernant les systèmes de compensation des prix.

ANNEXE II VISÉE À L'ALINÉA *c* DE L'ARTICLE 2

PROTOCOLE B CONCERNANT LA DÉFINITION DE LA NOTION DE  
« PRODUITS ORIGINAIRES » ET LES MÉTHODES DE COOPÉRATION  
ADMINISTRATIVE

TITRE I

DÉFINITION DE LA NOTION DE « PRODUITS ORIGINAIRES »

*Article premier*

1. Aux fins d'application de l'Accord et sans préjudice des dispositions de l'article 2, sont réputés originaires d'un Etat partie :

a) Les produits entièrement obtenus dans cet Etat au sens de l'article 4;

b) Les produits qui ont été obtenus dans cet Etat et dans la fabrication desquels entrent des matières non obtenues dans cet Etat à condition que :

- i) Soit ces matières aient été suffisamment ouvrées et transformées dans cet Etat au sens de l'article 5;
- ii) Soit ces matières aient leur origine, au sens du présent Protocole, dans tout autre Etat partie;
- iii) Soit ces matières aient leur origine en Pologne, en République slovaque ou en République tchèque, en application des règles d'origine des accords portant création des zones de libre-échange entre les pays de l'AELE d'une part et la Pologne, la République slovaque et la République tchèque de l'autre, dans la mesure où ces règles sont identiques à celles du présent Protocole.

2. Les dispositions du sous-alinéa *b*, *iii*, du paragraphe 1 peuvent s'appliquer aux produits obtenus en Hongrie seulement si la coopération administrative nécessaire a été instaurée entre la Hongrie, la Pologne, la République slovaque et la République tchèque, aux fins de l'application de ces dispositions, conformément aux dispositions du présent Protocole.

*Article 2*

1. Indépendamment des dispositions des sous-alinéas *b*, *ii* et *b*, *iii*, du paragraphe 1 de l'article premier du présent Protocole, conservent leur origine les produits qui, au sens du présent Protocole, sont originaires de tout Etat partie à l'Accord ou de la Pologne, de la République slovaque ou de la République tchèque en application des règles d'origine visées au sous-alinéa *b*, *iii*, du paragraphe 1 de l'article premier de l'Accord et sont exportés d'un Etat partie à l'Accord vers un autre Etat tels quels ou sans avoir subi dans l'Etat exportateur d'ouvrison ou de transformation autre que celles qui sont visées au paragraphe 5 de l'article 5.

2. Aux fins de l'application des dispositions du paragraphe 1 du présent article, si des produits sont originaires de deux ou plusieurs Etats parties à l'Accord ou sont employés dans un ou plusieurs Etats parties à l'Accord et en Pologne, en République slovaque et en République tchèque, et que ces produits n'ont subi dans l'Etat exportateur aucune ouvrison ou transformation allant au-delà de ce que prévoit le paragraphe 5 de l'article 5, l'origine est déterminée par le produit qui a la valeur douanière la plus élevée, ou, si cette valeur n'est pas connue et ne peut pas être déterminée, par le produit qui, selon ce qu'il est possible de déterminer, est payé le prix le plus élevé dans sa catégorie dans cet Etat.

### Article 3

Le présent Protocole ne contient pas d'article 3.

### Article 4

Sont réputés entièrement obtenus dans un Etat partie au présent Accord au sens de l'alinéa *a* du paragraphe 1 de l'article premier :

- a) Les produits minéraux extraits du sol ou des fonds marins de ce pays;
- b) Les produits végétaux récoltés dans ce pays;
- c) Les animaux vivants nés et élevés dans ce pays;
- d) Les produits obtenus à partir d'animaux vivants élevés dans ce pays;
- e) Les produits de la chasse ou de la pêche pratiquées dans ce pays;
- f) Les produits de la pêche en mer et autres produits marins extraits par les navires de ce pays;
- g) Les produits fabriqués à bord des navires-usines de ce pays exclusivement à partir de produits mentionnés à l'alinéa *f*;
- h) Les articles usagés recueillis dans ce pays et qui ne peuvent servir qu'à la récupération de matières premières sous réserve des dispositions de la note 5 *a* relative aux pneumatiques usagés à l'Annexe I au présent Protocole;
- i) Les déchets et rebuts résultant d'opérations manufacturières effectuées dans ce pays;
- j) Les marchandises fabriquées dans ce pays exclusivement à partir de produits énumérés aux alinéas *a* à *i* ci-dessus.

### Article 5

1. Au sens du présent Protocole, les mots « chapitres » et « rubriques » s'entendent des chapitres et rubriques (code à quatre chiffres) employés dans la nomenclature qui constitue le « Système harmonisé de désignation et de codification des marchandises » (ci-après dénommé le « Système harmonisé »). Le mot « classé » s'entend d'un produit ou d'une matière classée dans une rubrique particulière.

2. Aux fins de l'application de l'article premier du présent Protocole, les matières non originaires sont considérées comme suffisamment ouvrées ou transformées lorsque le produit obtenu est classé dans une rubrique différente de celles dans lesquelles étaient classées toutes les matières non originaires employées pour le fabriquer, sous réserve des dispositions des paragraphes 3, 4 et 5 du présent article.

3. Dans le cas des produits inscrits dans les colonnes 1 et 2 de la liste de l'Annexe II au présent Protocole, ce sont les conditions indiquées dans la colonne 3 pour ce produit qui doivent être respectées et non pas la règle énoncée au paragraphe 2 du présent article.

4. Dans le cas des produits des chapitres 84 à 91 inclus, pour remplir les conditions indiquées dans la colonne 3, l'exportateur a la faculté de choisir d'appliquer à leur place les conditions indiquées dans la colonne 4.

5. Aux fins d'application du sous-alinéa *b*, ii, du paragraphe 1 du présent Protocole, sont considérés comme des ouvraisons ou transformations insuffisantes

pour conférer la qualité de produit originaire, qu'il y ait ou non eu changement de position tarifaire :

a) Les opérations visant à assurer la conservation des marchandises en bon état lors du transport et de l'entreposage (ventilation, éparpillement, séchage, réfrigération, salaison, mise en solution à base de dioxyde de soufre ou autres solutions aqueuses, élimination des parties endommagées et opérations analogues);

b) Les opérations simples consistant à dépoussiérer, à tamiser ou cribler, à trier, à classer, à apparier (y compris à constituer des assortiments d'articles), à laver, à peindre, à découper;

c) i) Les changements d'emballage ainsi que le fractionnement et l'assemblage des envois;

ii) La mise en bouteilles, en flacons, en sacs, en caisses, en boîtes, la fixation simple sur des cartes ou des panneaux, etc., ainsi que toutes les autres opérations d'emballage simples;

d) L'apposition de marques, d'étiquettes ou autres signes distinctifs analogues sur les produits ou leur emballage;

e) Le simple mélange de produits, qu'ils soient ou non de types différents, lorsqu'un ou plusieurs éléments du mélange ne remplissent pas les conditions fixées dans la présente Annexe pour pouvoir être réputés originaires;

f) Le simple assemblage de parties d'articles pour constituer un article complet;

g) Une combinaison de deux, ou plus, des opérations précisées aux alinéas a à f du présent paragraphe;

h) L'abattage d'animaux.

#### Article 6

1. Le mot « valeur » dans la liste de l'Annexe II au présent Protocole s'entend de la valeur douanière à la date de l'importation des produits non originaires employés ou, si cette valeur n'est pas connue et ne peut pas être déterminée, du premier prix qui est payé pour les produits sur le territoire considéré et qu'il est possible de déterminer.

S'il est nécessaire de déterminer la valeur des produits d'origine, les dispositions du présent paragraphe s'appliquent *mutatis mutandis*.

2. Dans la liste de l'Annexe II, on entend par prix départ usine le prix départ produit obtenu diminué du montant de tout droit interne qui est ou peut être remboursé lorsque le produit obtenu est exporté.

#### Article 7

Les marchandises qui sont des produits originaires au sens du présent Protocole et forment un envoi unique non fractionné peuvent être transportées à travers un territoire autre que celui de tout Etat partie au présent Accord, de la Pologne, de la République slovaque et de la République tchèque et être, le cas échéant, transbordées ou temporairement entreposées sur ce territoire, à condition que la traversée de celui-ci soit géographiquement justifiée, que les marchandises soient restées sous la surveillance des autorités douanières dans le pays de transit ou d'entreposage, qu'elles n'aient pas été mises dans le circuit commercial de ce pays ni

livrées à des fins de consommation privée et qu'elles n'aient pas subi d'autres opérations que celles du déchargement et du rechargement ou toute opération destinée à les conserver en bon état.

## TITRE II

### MÉTHODES DE COOPÉRATION ADMINISTRATIVE

#### *Article 8*

1. Les produits originaires au sens du présent Protocole bénéficient de l'Accord lorsqu'ils sont importés dans un Etat partie à celui-ci sur présentation d'un des documents ci-après :

a) Un certificat de mouvement EUR.1, ci-après dénommé « certificat EUR.1 », ou un certificat EUR.1 valable pour une longue période et les factures correspondant à ce certificat établies conformément aux dispositions de l'article 13. Un spécimen du certificat EUR.1 figure à l'Annexe III au présent Protocole;

b) Une facture sur laquelle figure la déclaration de l'exportateur visée à l'Annexe IV au présent Protocole, établie conformément aux dispositions de l'article 13;

c) Une facture sur laquelle figure la déclaration de l'exportateur visée à l'Annexe IV au présent Protocole, établie par tout exportateur de tout envoi composé d'un ou de plusieurs colis contenant des produits originaires d'une valeur totale qui ne dépasse pas 5 110 unités de compte.

2. Les produits originaires suivants, au sens du présent Protocole, lorsqu'ils sont importés dans un Etat partie à l'Accord, bénéficient des dispositions de celui-ci sans qu'il soit nécessaire de produire l'un quelconque des documents visés au paragraphe 1 du présent article :

a) Les produits expédiés en petits colis à des particuliers pour d'autres particuliers, à condition que leur valeur ne dépasse pas 365 unités de compte;

b) Les produits qui font partie des bagages personnels des voyageurs, à condition que leur valeur ne dépasse pas 1 025 unités de compte.

Ces dispositions s'appliquent seulement lorsque les marchandises ne sont pas importées commercialement, lorsqu'il a été déclaré qu'elles remplissent les conditions requises pour l'application de l'Accord et lorsque la véracité de cette déclaration ne fait aucun doute.

Les importations qui sont occasionnelles et consistent uniquement en marchandises destinées à l'usage personnel des destinataires ou voyageurs ou de leurs familles ne sont pas considérées comme des importations commerciales s'il ressort manifestement de la nature et de la quantité des marchandises que l'opération n'a aucune fin commerciale.

3. L'Etat exportateur partie au présent Accord détermine les montants, dans sa monnaie nationale, qui équivalent aux montants exprimés en unités de compte et les communique aux autres Etats parties à l'Accord. Lorsque les montants sont supérieurs aux montants correspondants déterminés par l'Etat importateur, celui-ci les accepte si les marchandises sont facturées dans la monnaie de l'Etat exportateur.

Si les marchandises sont facturées dans la monnaie d'un autre Etat partie à l'Accord, de la Pologne, de la République slovaque ou de la République tchèque, l'Etat importateur reconnaît le montant notifié par l'Etat intéressé.

4. L'équivalent d'une unité de compte dans les monnaies des Etats parties à l'Accord, de la Pologne, de la République slovaque ou de la République tchèque sont les montants spécifiés à l'Annexe VI au présent Protocole.

5. Les montants exprimés en unités de compte doivent être réexaminés chaque fois que nécessaire et au moins tous les deux ans.

6. Les accessoires, pièces de rechange et outils qui, expédiés avec un élément de matériel, une machine, un appareil ou un véhicule, font partie de son équipement normal et figurent dans son prix ou ne sont pas facturés séparément sont réputés former un tout avec l'élément de matériel, la machine, l'appareil ou le véhicule en question.

7. Les assortiments de produits, au sens de la règle générale 3 du Système harmonisé, sont réputés originaires lorsque tous les articles qui les composent sont des produits originaires. Néanmoins, lorsqu'un assortiment se compose à la fois d'articles originaires et d'articles non originaires, il est, dans son ensemble, réputé originaire à condition que la valeur des articles non originaires ne dépasse pas 15 % de sa valeur totale.

#### *Article 9*

1. Les autorités douanières de l'Etat exportateur délivrent un certificat EUR.1 quand les marchandises visées par ce certificat sont exportées. Il est remis à l'exportateur dès que l'exportation proprement dite a été effectuée ou confirmée.

2. Les autorités douanières d'un Etat partie à l'Accord délivrent un certificat EUR.1 si les marchandises à exporter peuvent être considérées comme des produits originaires de cet Etat au sens de l'article premier du présent Protocole.

3. Les autorités douanières des Etats parties à l'Accord peuvent délivrer des certificats EUR.1 dans les conditions définies dans le présent Protocole si les marchandises à exporter peuvent être considérées comme des produits originaires d'un Etat partie à l'Accord au sens de l'article 2 de la présente Annexe ou de Pologne, de République slovaque ou de République tchèque, et à condition que les marchandises visées par les certificats EUR.1 se trouvent sur le territoire de cet Etat partie.

Dans ces cas, la délivrance du certificat EUR.1 est subordonnée à la présentation des certificats d'origine établis ou délivrés antérieurement.

4. Un certificat EUR.1 n'est délivré que s'il peut servir de pièce justificative aux fins d'application du régime préférentiel prévu dans l'Accord ou les accords visés au sous-alinéa *b*, iii, du paragraphe 1 de l'article premier du présent Protocole.

La date de délivrance du certificat EUR.1 doit figurer dans la case réservée aux autorités douanières.

5. Un certificat EUR.1 peut aussi être exceptionnellement délivré après l'exportation des marchandises visées, au cas où il n'aurait pas été délivré au moment de l'exportation en raison d'erreurs, d'omissions involontaires ou de circonstances particulières.

Les autorités douanières ne peuvent délivrer un certificat EUR.1 *a posteriori* qu'après avoir vérifié que les indications données dans la demande présentée par l'exportateur concordent avec celles qui figurent sur le document correspondant.

Les certificats EUR.1 délivrés *a posteriori* doivent porter l'une des mentions suivantes : « ISSUED RETROSPECTIVELY », « ANNETTU JÄLKIKÄTEEN », « DÉLIVRÉ A POSTERIORI », « NACHTRÄGLICH AUSGESTELLT », « ÛTGEFID EFTIR À », « RILASCIATO A POSTERIORI », « UTSTEDT SENERE », « UTFÄRDAT I EFTERHAND », « KIADVA VISSZAMENÖLEGES HATALLYAL », « VYSTAVENO DODATECNE », « VYSTAVENÉ DODATOCNE », « WYDANE RETROSPEKTYWNIIE ».

6. En cas de vol, perte ou destruction d'un certificat EUR.1, l'exportateur peut demander aux autorités douanières qui le lui ont délivré d'en établir un duplicata à partir des documents d'exportation en leur possession. Ce duplicata doit porter l'une des mentions suivantes : « DUPLICATE », « KAKSOISKAPPALE », « DUPLICATA », « DUPLIKAT », « EFTIRIT », « DUPLICATO », « MASOLAT », « DUPLIKÀT ».

Le duplicata, sur lequel doit figurer la date de délivrance du certificat EUR.1 original, prend effet à compter de cette date.

7. Les mentions visées aux paragraphes 5 et 6 du présent article doivent figurer dans la case « Remarks » du certificat EUR.1.

8. Il est toujours possible de remplacer un ou plusieurs certificats EUR.1 par un ou plusieurs autres certificats EUR.1, à condition que ce remplacement soit fait au bureau de douane où se trouvent les marchandises.

9. Pour vérifier si les conditions indiquées aux paragraphes 2 et 3 du présent article ont été remplies, les autorités douanières ont le droit de demander toute pièce justificative ou de procéder à tout contrôle qu'elles jugent approprié.

10. Les dispositions des paragraphes 2 à 9 du présent article s'appliquent, *mutatis mutandis*, aux certificats d'origine établis par des exportateurs agréés conformément aux conditions définies à l'article 13 du présent Protocole.

#### Article 10

1. Un certificat EUR.1 n'est délivré que si l'exportateur ou, sous sa responsabilité, son représentant par lui dûment autorisé, en présente la demande par écrit sur la formule dont un modèle figure à l'Annexe III au présent Protocole et en la remplissant comme il est prévu dans le présent Protocole.

2. Il incombe aux autorités douanières de l'Etat exportateur de s'assurer que la formule visée au paragraphe 1 du présent article est convenablement remplie. Elles doivent en particulier vérifier si la case réservée à la désignation des marchandises a été complétée de manière à exclure toute possibilité d'adjonctions frauduleuses. A cette fin, il y a lieu d'indiquer la désignation des marchandises sans laisser de lignes en blanc. Lorsque la case n'est pas complètement remplie, il convient de tirer un trait horizontal sous la dernière ligne de la désignation et de biffer d'un trait diagonal tout espace restant.

3. Etant donné que le certificat EUR.1 constitue la pièce justificative de la demande d'admission au bénéfice des arrangements tarifaires et contingentaires préférentiels prévus dans l'Accord, il incombe aux autorités douanières de l'Etat exportateur de prendre toutes les dispositions nécessaires pour vérifier l'origine des marchandises et contrôler les autres mentions figurant sur le certificat.

4. Quand un certificat EUR.1 est délivré, au sens du paragraphe 5 de l'article 9 du présent Protocole, après que les marchandises visées ont effectivement été exportées, l'exportateur doit faire figurer dans la demande mentionnée au paragraphe 1 du présent article :

- Une indication du lieu et de la date d'exportation des marchandises auxquelles le certificat EUR.1 se réfère;
- Une attestation qu'aucun certificat EUR.1 n'a été délivré au moment de l'exportation des marchandises en question, en indiquant les raisons.

5. Les autorités douanières de l'Etat exportateur doivent conserver pendant au moins deux ans les demandes de certificats EUR.1 ainsi que les certificats EUR.1 visés au second alinéa du paragraphe 3 de l'article 9 du présent Protocole sur présentation desquels de nouveaux certificats EUR.1 sont délivrés.

#### *Article 11*

1. Les certificats EUR.1 doivent être établis sur la formule dont un modèle figure à l'Annexe II au présent Protocole. Cette formule doit être imprimée dans une ou plusieurs des langues officielles des Etats parties au présent Accord, ou en langue anglaise. Les certificats EUR.1 doivent être établis dans une de ces langues et conformément aux dispositions du droit interne de l'Etat exportateur; s'ils sont remplis à la main, ils doivent l'être à l'encre, en capitales d'imprimerie.

2. Le certificat EUR.1 doit avoir un format de 210 x 297 mm, une marge de tolérance maximale de plus de 8 mm ou moins de 5 mm étant admise. Le papier utilisé doit être un papier à écrire blanc glacé ne contenant pas de pâte mécanique et d'un poids minimal de 25 g/m<sup>2</sup>. Il doit comporter un fond guilloché vert imprimé rendant visible à l'œil nu toute falsification par des moyens mécaniques ou chimiques.

3. Les Etats parties à l'Accord peuvent se réserver le droit d'imprimer eux-mêmes les certificats EUR.1 ou de les faire imprimer par des imprimeurs qu'ils auront agréés, auquel cas chaque certificat EUR.1 devra porter mention de cet agrément ainsi que du nom et de l'adresse de l'imprimeur ou une marque permettant de l'identifier. Il portera aussi un numéro de série, imprimé ou non, permettant d'individualiser le certificat.

#### *Article 12*

1. Tout certificat EUR.1 doit être présenté, dans un délai de quatre mois à compter de la date de sa délivrance par les autorités douanières de l'Etat exportateur, aux autorités douanières de l'Etat importateur où les marchandises sont admises, conformément aux procédures arrêtées par cet Etat. Ces autorités peuvent en exiger une traduction. Elles peuvent aussi exiger que la déclaration d'importation soit accompagnée d'une attestation de l'importateur certifiant que les marchandises remplissent les conditions requises pour l'application de l'Accord.

2. Sans préjudice des dispositions du paragraphe 5 de l'article 5 du présent Protocole, lorsqu'à la demande de la personne déclarant les marchandises en douane un article démonté ou non totalement monté relevant des chapitres 84 ou 85 du Système harmonisé est importé en plusieurs envois dans les conditions fixées par les autorités compétentes, il est réputé former un seul et même article et un certificat EUR.1 peut être présenté pour la totalité de cet article à l'importation du premier envoi.

3. Un certificat EUR.1 présenté aux autorités douanières de l'Etat importateur après la date limite à laquelle se réfère le paragraphe 1 du présent article peut être accepté aux fins d'application du régime préférentiel lorsque sa non-représentation à la date limite est due à un cas de force majeure ou à des circonstances exceptionnelles.

Dans d'autres cas de présentation tardive, les autorités douanières de l'Etat importateur peuvent accepter les certificats EUR.1 lorsque les marchandises leur ont été présentées avant la date limite.

4. La découverte de légères divergences entre les indications figurent dans le certificat EUR.1 et celles qui figurent dans les documents présentés au service de douane aux fins d'acquittement des formalités d'importation des marchandises ne rend pas automatiquement le certificat nul et non avenu, à condition qu'il soit dûment établi que ledit certificat correspond bien aux marchandises.

5. Les certificats EUR.1 sont conservés par les autorités douanières de l'Etat importateur conformément aux règles en vigueur dans cet Etat.

6. Pour prouver que les conditions fixées à l'article 7 du présent Protocole ont été remplies, il y aura lieu de présenter aux autorités douanières de l'Etat importateur :

a) Soit un bordereau justificatif unique de transport, délivré dans l'Etat exportateur, en vertu duquel le pays de transit a été traversé;

b) Soit un certificat délivré par les autorités douanières du pays de transit où seront indiquées :

— La désignation exacte des marchandises;

— La date de déchargement et de rechargement ainsi que, le cas échéant, les noms des navires;

— L'attestation des conditions dans lesquelles les marchandises ont séjourné dans le pays de transit; ou

c) A défaut, toutes pièces justificatives.

### *Article 13*

1. Indépendamment des dispositions des paragraphes 1 à 7 de l'article 9 et des paragraphes 1, 4 et 5 de l'article 10 du présent Protocole, une procédure simplifiée est appliquée pour l'établissement des documents liés à la preuve d'origine, conformément aux dispositions définies ci-après.

2. Les autorités douanières de l'Etat exportateur peuvent autoriser tout exportateur, ci-après dénommé « l'exportateur agréé », qui effectue des envois fréquents pour lesquels des certificats EUR.1 peuvent être délivrés et qui leur fournit toutes les garanties dont elles ont besoin pour vérifier l'origine des marchandises, à ne pas présenter au service de douane de l'Etat exportateur, au moment de l'exportation, les marchandises ou la demande de certificat EUR.1 concernant ces marchandises afin d'obtenir ledit certificat dans les conditions définies aux paragraphes 1 à 4 de l'article 9 du présent Protocole.

3. En outre, les autorités douanières peuvent autoriser un exportateur agréé à établir des certificats EUR.1 valables pour une durée maximale d'un an à compter de la date d'émission, ci-après dénommés « certificats LT ». L'autorisation n'est accordée que si on s'attend à ce que le statut d'origine des marchandises à exporter

reste le même pendant toute la période de validité du certificat LT. Au cas où le certificat LT ne s'applique plus aux marchandises, l'exportateur agréé en informe immédiatement les autorités douanières qui ont donné l'autorisation.

Dans les cas qui relèvent de la procédure simplifiée, les autorités douanières du pays exportateur peuvent exiger que les certificats EUR.1 portent un signe distinctif qui permette de les identifier.

4. L'autorisation visée aux paragraphes 2 et 3 du présent article stipulera, au choix des autorités douanières, que la case n° 11 du certificat EUR.1 (« Customs Endorsement ») devra :

a) Soit porter préalablement le sceau du service de douane compétent de l'Etat exportateur, ainsi que la signature manuscrite ou non d'un responsable de ce service;

b) Soit porter un cachet spécial de l'exportateur agréé, cachet qui aura été approuvé par les autorités douanières de l'Etat exportateur et correspondra au modèle figurant à l'Annexe V du présent Protocole; ce cachet pourra être préimprimé sur les formules.

La case n° 11 du certificat EUR.1 (« Customs Endorsement ») sera complétée au besoin par l'exportateur agréé.

5. Dans les cas visés à l'alinéa a du paragraphe 4 du présent article, une des mentions ci-après devra figurer dans la case n° 7 du certificat EUR.1 (« Remarks ») : « Simplified procedure », « Yksinkertaistettu menettely », « Procédure simplifiée », « Vereinfachtes Verfahren », « Einföldud afgreidsla », « Procedura simplificata », « Forenklet prosedyre », « Förenklad procedur », « Egyszerűsített eljárás », « Zjednodusené rizení », « Zjedodusené konanie », « Vproszczona procedura ». Au besoin, l'exportateur agréé indiquera dans la case n° 13, « Request for verification », le nom et l'adresse des autorités douanières qui sont compétentes pour vérifier le certificat EUR.1.

6. Dans les cas visés au paragraphe 3 du présent article, l'exportateur agréé inscrira aussi dans la case 7 du certificat EUR.1 l'une des observations suivantes :

- « LT certificate valid until . . . »,
  - « LT-todistus voimassa . . . saakka »,
  - « certificat LT valable jusqu'au . . . »,
  - « LT-Zertifikat gültig bis . . . »,
  - « LT-skírteini gildir til . . . »,
  - « certificato LT valido fino a . . . »,
  - « LT-sertifikat gyldig til . . . »,
  - « LT-certifikat giltigt till . . . »,
  - « LT bizonyítvány érvényes . . . -ig »,
  - « LT osvědčení platné do . . . »,
  - « LT osvedčenie platné do . . . »,
  - « LT-certifikat wazny do . . . »,
- (date indiquée en chiffres),

et une mention de l'autorisation en vertu de laquelle le certificat LT correspondant a été délivré.

L'exportateur approuvé n'a pas à indiquer dans les cases 8 et 9 du certificat LT les marques, nombres ni numéros, ni la nature des colis et le poids brut (kilos) ou toute autre mesure (litres, mètres cubes, etc.). Néanmoins, dans la case 8, il devra décrire et désigner les marchandises suffisamment précisément pour en permettre l'identification.

7. Indépendamment des dispositions des paragraphes 1 à 3 de l'article 12 du présent Protocole, le certificat LT doit être présenté aux bureaux des douanes du lieu d'importation au plus tard à la date de la première importation de toute marchandise à laquelle il correspond. Si l'importateur effectue les formalités douanières dans plusieurs bureaux de douanes de l'Etat d'importation, les autorités douanières peuvent lui demander de produire une copie du certificat LT dans tous ces bureaux.

8. Dans les cas où un certificat LT a été présenté aux autorités douanières, la preuve du statut d'origine des marchandises importées, pendant la durée de validité du certificat LT, est indiquée par les factures qui doivent répondre aux conditions suivantes :

a) Lorsqu'une facture concerne à la fois des marchandises originaires d'un Etat partie à l'Accord, de Pologne, de République slovaque ou de République tchèque et des marchandises non originaires de cet Etat, l'exportateur fait une distinction claire entre ces deux catégories;

b) L'exportateur précise sur chaque facture le numéro du certificat LT qui concerne les marchandises, sa date d'expiration ainsi que le nom du ou des pays dont les marchandises sont originaires.

L'indication sur la facture, par l'exportateur, du numéro du certificat LT et celle du pays d'origine constituent une déclaration selon laquelle les marchandises répondent aux conditions que le présent Protocole définit pour l'acquisition du statut d'origine préférentiel dans les échanges commerciaux entre les Etats parties à l'Accord.

Les autorités douanières du pays exportateur peuvent exiger que les inscriptions qui, conformément aux dispositions ci-dessus, doivent figurer sur la facture, soient accompagnées par la signature manuscrite suivie du nom du signataire lisiblement écrit en lettres capitales;

c) La description et la désignation des marchandises sur la facture doivent être suffisamment détaillées pour montrer clairement que les marchandises figurent aussi sur la liste du certificat LT auquel se rapporte la facture;

d) Les factures ne peuvent être établies que pour les marchandises exportées pendant la période de validité du certificat LT correspondant. Cependant, elles peuvent être présentées au bureau douanier d'importation dans les quatre mois qui suivent la date à laquelle elles ont été établies par l'exportateur.

9. Dans le cadre de la procédure simplifiée, les factures conformes aux conditions énoncées dans le présent article peuvent être établies ou transmises au moyen de méthodes de télécommunication ou de traitement électronique des données. Ces factures sont admises par les services des douanes de l'Etat d'importation comme preuve du statut d'origine des marchandises importées conformément aux modalités qui sont définies par leurs autorités douanières.

10. Si les services douaniers de l'Etat d'exportation constatent qu'un certificat ou une facture établi conformément aux dispositions du présent article n'est pas valable pour les marchandises fournies, il le notifie immédiatement aux autorités douanières de l'Etat d'importation.

11. Les autorités douanières peuvent autoriser un exportateur agréé à établir des factures comportant la déclaration de l'Annexe IV au présent Protocole au lieu des certificats EUR.1.

La déclaration faite par l'exportateur agréé sur la facture doit l'être dans l'une des langues officielles des Etats parties à l'Accord, de la Pologne, de la République slovaque ou de la République tchèque, ou en anglais. Elle doit porter une signature manuscrite et :

*a)* Soit indiquer le numéro d'autorisation de l'exportateur agréé;

*b)* Soit être approuvée par l'exportateur agréé qui, pour cela, y appose le timbre spécial visé à l'alinéa *b* du paragraphe 4 du présent article, qui a été approuvé par les autorités douanières de l'Etat d'exportation. Ce timbre peut être préimprimé sur la facture.

12. Néanmoins, les autorités douanières de l'Etat exportateur peuvent autoriser un exportateur agréé à ne pas signer la déclaration visée à l'alinéa *b* du paragraphe 8 ou la déclaration visée au paragraphe 11 sur la facture lorsque celle-ci a été établie ou transmise par un moyen de télécommunication ou une méthode de traitement électronique des données.

Ces autorités douanières définissent les conditions d'application du présent paragraphe, y compris, si elles le requièrent, un engagement écrit de l'exportateur agréé par lequel celui-ci accepte la pleine responsabilité de cette déclaration au même titre que s'il l'avait signée lui-même de sa main.

13. Les autorités douanières précisent en particulier sur les autorisations visées aux paragraphes 2, 3 et 11 du présent article :

*a)* Les conditions dans lesquelles sont demandés les certificats EUR.1 ou les certificats LT ou dans lesquelles la déclaration concernant l'origine des marchandises doit être faite sur la facture;

*b)* Les conditions dans lesquelles ces demandes ainsi que les copies des factures concernant les certificats LT et des factures sur lesquelles figurent la déclaration de l'exportateur sont conservées pendant au moins deux ans. Dans le cas des certificats LT ou des factures se rapportant à ces certificats, cette période commence à courir à la date d'expiration de la validité du certificat LT. Ces dispositions s'appliquent aussi aux certificats EUR.1 ou LT et aux factures qui correspondent aux certificats LT, ainsi qu'aux factures portant la déclaration de l'exportateur et qui ont justifié la délivrance d'autres preuves d'origine, dans les conditions définies au sous-paragraphe 2 du paragraphe 3 de l'article 9.

14. Les autorités douanières de l'Etat d'exportation peuvent déclarer que certaines catégories de marchandises ne peuvent pas bénéficier du traitement spécial prévu aux paragraphes 2, 3 et 11 du présent article.

15. Les autorités douanières refusent les autorisations visées aux paragraphes 2, 3 et 11 du présent article aux exportateurs qui n'offrent pas toutes les garanties qu'elles jugent nécessaires.

Les autorités douanières peuvent retirer les autorisations à tout moment. Elles doivent le faire si les conditions d'agrément ne sont plus remplies ou si l'exportateur agréé n'offre plus ces garanties.

16. L'exportateur agréé peut être tenu, conformément aux règles que les autorités douanières auront arrêtées, d'informer ces dernières des marchandises qu'il compte expédier afin que le service de douane compétent puisse effectuer toute vérification qu'il juge nécessaire avant l'expédition de ces marchandises.

17. Les dispositions du présent article sont sans préjudice de l'application des règles des Etats parties à l'Accord relatives aux formalités douanières et à l'utilisation de documents douaniers.

#### Article 14

La déclaration visée à l'alinéa *c* du paragraphe 1 de l'article 8 est établie par l'exportateur sous la forme indiquée à l'Annexe IV au présent Protocole dans l'une des langues officielles des Etats parties à l'Accord, de la Pologne, de la République slovaque ou de la République tchèque ou en anglais. Elle doit être dactylographiée ou imprimée et porter une signature manuscrite. L'exportateur doit conserver une copie de la facture sur laquelle figure cette déclaration pendant au moins deux ans.

#### Article 15

1. L'exportateur ou son représentant qui demande un certificat EUR.1 présente en même temps tous les justificatifs prouvant que les marchandises à exporter justifient la délivrance d'un tel certificat.

Il s'engage à soumettre, à la demande des autorités compétentes, tout élément de preuve supplémentaire qu'elles pourraient demander pour déterminer l'exactitude du statut d'origine des marchandises qui ont droit à un traitement préférentiel et accepter de leur part toute inspection de ses comptes et toute vérification des méthodes par lesquelles il s'est procuré lesdites marchandises.

2. Les exportateurs doivent conserver les justificatifs visés au paragraphe 1 du présent article pendant au moins deux ans.

3. Les dispositions des paragraphes 1 et 2 du présent article s'appliquent *mutatis mutandis* dans les cas où sont appliquées les modalités définies aux paragraphes 2 et 3 de l'article 13 et où sont faites les déclarations visées aux alinéas *b* et *c* du paragraphe 1 de l'article 8.

#### Article 16

1. Les marchandises qui sont expédiées depuis un pays de l'AELE ou depuis la Hongrie en vue d'une exposition dans un pays autre qu'un Etat partie à l'Accord, que la Pologne, que la République slovaque et que la République tchèque et qui sont vendues, après ladite exposition, pour être importées en Hongrie ou dans un pays de l'AELE sont admises à bénéficier du régime d'importation prévu dans l'Accord à condition qu'elles satisfassent aux prescriptions du présent Protocole relatives à la reconnaissance de leur qualité de produits originaires de l'AELE ou de la Hongrie et que les autorités douanières aient acquis la conviction que :

a) Un exportateur a expédié ces marchandises depuis un pays de l'AELE ou depuis la Hongrie vers le pays où se tient l'exposition et les y a effectivement exposées;

b) Les marchandises ont été vendues ou autrement cédées à un tiers en Hongrie ou dans un pays de l'AELE par ledit exportateur;

c) Les marchandises ont été expédiées à destination de la Hongrie ou d'un pays de l'AELE au cours de l'exposition ou immédiatement après celle-ci, telles qu'elles avaient été envoyées à l'exposition;

d) Les marchandises n'ont pas été utilisées, depuis leur expédition en vue de l'exposition, sinon à des fins de démonstration lors de ladite exposition.

2. Un certificat EUR.1 sur lequel figurent le nom et l'adresse du centre d'exposition doit être présenté aux autorités douanières de la manière habituelle. Il peut être exigé au besoin des justificatifs supplémentaires quant à la nature des marchandises et aux conditions dans lesquelles elles ont été exposées.

3. Les dispositions du paragraphe 1 du présent article s'appliquent à toute exposition, foire ou manifestation publique du même type à vocation commerciale, industrielle, agricole ou artisanale qui n'a pas été organisée à des fins privées dans des magasins ou des locaux commerciaux en vue de la vente d'articles étrangers et au cours de laquelle les marchandises restent sous contrôle douanier.

#### Article 17

1. Pour veiller à la bonne application des dispositions figurant sous le présent titre, les Etats parties se viendront mutuellement en aide, par l'intermédiaire de leurs administrations douanières respectives, afin de vérifier l'authenticité et l'exactitude des certificats EUR.1, y compris ceux qui auront été délivrés conformément au paragraphe 3 de l'article 9 de la présente annexe, et des déclarations des exportateurs sur les formules EUR.2.

2. La Commission mixte est habilitée à prendre toute décision nécessaire concernant les méthodes de coopération administrative à appliquer en temps voulu dans les Etats parties à l'Accord.

3. Les autorités douanières des Etats parties à l'Accord se communiqueront, par l'intermédiaire du secrétariat de l'AELE, des spécimens des cachets utilisés dans leurs services de douane pour la délivrance des certificats EUR.1.

4. Est passible de sanctions quiconque établit ou fait établir, en vue d'obtenir un régime préférentiel pour des marchandises, un document contenant des indications incorrectes.

5. Les Etats parties à l'Accord prennent toutes les mesures nécessaires pour que les marchandises négociées en vertu d'un certificat EUR.1 et traversant durant leur transport une zone franche située sur leur territoire ne soient pas remplacées par d'autres marchandises et ne subissent pas d'autre manutention que les opérations courantes destinées à éviter leur dégradation.

6. Lorsque des marchandises originaires d'un Etat partie à l'Accord et importées dans une zone franche en vertu d'un certificat EUR.1 subissent un traitement ou une transformation, les autorités douanières compétentes doivent, sur demande de l'exportateur, délivrer un nouveau certificat EUR.1 si le traitement ou la transformation en question est conforme aux dispositions du présent Protocole.

#### Article 18

1. Des vérifications ultérieures des certificats EUR.1 et des déclarations faites par l'exportateur sur les factures sont effectuées au hasard ou chaque fois que les

autorités douanières de l'Etat importateur sont fondées à douter de l'authenticité de ces documents ou de l'exactitude des renseignements concernant l'origine réelle des marchandises visées.

2. Aux fins d'application des dispositions du paragraphe 1 du présent article, les autorités douanières de l'Etat importateur renverront le certificat EUR.1 et la facture, si elle a été présentée, ou la facture correspondant à un certificat LT ou la facture portant la déclaration de l'exportateur, ou une copie de ces documents, aux autorités douanières de l'Etat exportateur en indiquant, le cas échéant, les éléments de fond ou de forme qui justifient une enquête.

Les autorités douanières qui demanderont une vérification *a posteriori* communiqueront tout renseignement ou information obtenu qui donne à penser que les indications figurant sur le certificat EUR.1 ou sur la facture sont inexacts.

Si les autorités douanières de l'Etat importateur décident de suspendre l'application des dispositions de l'Accord en attendant les résultats de la vérification, elles proposeront de remettre les marchandises à l'importateur, sous réserve de toute mesure préventive jugée nécessaire.

3. Les autorités douanières de l'Etat importateur seront informées dès que possible des résultats de la vérification. Ceux-ci devront permettre d'établir si les certificats renvoyés en application des dispositions du paragraphe 2 s'appliquent aux marchandises effectivement exportées et si ces dernières peuvent effectivement être admises à bénéficier des arrangements préférentiels.

Si un différend de ce type ne peut être réglé entre les autorités douanières de l'Etat importateur et celles de l'Etat exportateur ou qu'il soulève une question d'interprétation du présent Protocole, il convient d'en saisir la Sous-Commission des questions douanières et d'origine visée à l'article 26 qui fera rapport pour décision à la Commission mixte.

Aux fins de vérification ultérieure des certificats EUR.1, les autorités douanières de l'Etat exportateur doivent conserver pendant au moins deux ans les documents d'exportation ou les copies des certificats EUR.1 utilisées en leur lieu et place.

### TITRE III

#### DISPOSITIONS FINALES

##### *Article 19*

Les Etats parties à l'Accord prennent chacun les mesures nécessaires à l'application du présent Protocole.

##### *Article 20*

Les annexes au présent Protocole font partie intégrante de celui-ci.

##### *Article 21*

Les marchandises qui satisfont aux dispositions du titre premier du présent Protocole et qui, à la date d'entrée en vigueur de l'Accord, sont transportées ou sont temporairement immobilisées dans un Etat partie à l'Accord, à l'intérieur d'entrepôts de douane ou de zones franches, peuvent être acceptées comme produits

originaires, à condition que soient présentés aux autorités douanières de l'Etat importateur, dans les quatre mois suivant cette date, une attestation d'origine établie rétroactivement, ainsi que tous documents justificatifs des conditions de transport.

#### *Article 22*

Les Etats parties à l'Accord s'engagent à prendre toutes les mesures nécessaires pour que les certificats EUR.1 que leurs autorités douanières sont habilitées à délivrer en application de l'Accord soient effectivement délivrés dans les conditions fixées par celui-ci. Ils s'engagent aussi à apporter la collaboration administrative nécessaire à cette fin, notamment à vérifier l'itinéraire des marchandises négociées en vertu de l'Accord ainsi que les lieux où elles ont été immobilisées.

#### *Article 23*

1. Sans préjudice des dispositions du Protocole A, les produits auxquels l'Accord s'applique et qui servent à fabriquer des marchandises pour lesquelles sont délivrés ou remplis les certificats EUR.1, les certificats LT ou les factures correspondant aux certificats LT ou les factures comportant la déclaration de l'exportateur ne peuvent subir les inconvénients des droits de douane ou bénéficier d'une exonération des droits de douane de quelque nature que ce soit lorsqu'ils ont leur origine dans un Etat partie à l'Accord, en Pologne, en République slovaque ou en République tchèque.

2. Les mots « droits de douane » employés dans le présent article s'entendent aussi des prélèvements qui ont un effet équivalent aux droits de douane.

#### *Article 24*

1. Si, en vertu de l'Accord, des importations dans un pays de l'AELE doivent être traitées différemment d'importations faisant l'objet de la Convention AELE, le traitement prévu par l'Accord s'applique à toutes marchandises qui sont accompagnées des preuves d'origine visées au paragraphe 1 de l'article 8, fournies ou établies en Hongrie, ou de toute preuve d'origine établie par un pays de l'AELE et portant les mots « commerce AELE-Hongrie ».

2. Les exportateurs des pays de l'AELE ou leurs représentants inscrivent les mots « commerce AELE-Hongrie » sur les documents prouvant l'origine dans les échanges commerciaux entre les pays de l'AELE dans les cas où les marchandises ont obtenu leur statut d'origine en vertu de l'Accord en raison de l'emploi de marchandises ayant leur origine en Hongrie, en Pologne, en République slovaque ou en République tchèque.

3. Indépendamment des dispositions du paragraphe du présent article, les marchandises ayant leur origine dans un pays de l'AELE qui sont réexportées vers la Hongrie bénéficient, lors de leur importation dans un pays de l'AELE, d'un traitement égal à celui qu'elles auraient reçu si elles avaient été envoyées directement d'un pays de l'AELE dans un autre. Les marchandises doivent être dans le même état et n'avoir subi en Hongrie ni ouvraison ni transformation allant au-delà de ce qui est précisé au paragraphe 5 de l'article 5. Un tel traitement n'est accordé que sur présentation aux autorités douanières du pays de l'AELE importateur d'un certificat EUR.1, délivré par le bureau de douane hongrois compétent, sur lequel les mots « application de l'article 24.3 » ont été ajoutés et authentifiés par le timbre de ce bureau.

### Article 25

1. Les marchandises originaires au sens du présent Protocole, lorsqu'elles sont importées en Hongrie, bénéficient des dispositions de l'Accord également sur présentation d'un certificat EUR.1 établi par un bureau de douane polonais, slovaque ou tchèque si les mots « application de l'article 25 » ont été ajoutés et authentifiés par le timbre de ce bureau.

2. Lorsque des marchandises précédemment importées en Hongrie et accompagnées des preuves d'origine visées au paragraphe 1 de l'article 8, fournies ou établies dans un pays de l'AELE, sont réexportées vers la Pologne, la République slovaque ou la République tchèque, la Hongrie s'engage à délivrer un certificat EUR.1 portant les mots « application de l'article 25 » à condition que les marchandises soient réexportées dans le même état et n'aient pas subi en Hongrie d'ouvrage ou de transformation autre que celles qui sont visées au paragraphe 5 de l'article 5.

### Article 26

Une sous-commission de la Commission mixte est constituée et chargée des questions douanières et d'origine, conformément aux dispositions du paragraphe 5 de l'article 29 de l'Accord; elle a à s'occuper de la coopération administrative afin de garantir une application concrète correcte et uniforme du présent Protocole, ainsi que la continuité des échanges d'informations et des consultations entre les experts.

La sous-commission est composée d'experts des Etats parties à l'Accord qui sont chargés des questions liées aux questions de douane et d'origine.

### Article 27

Aux fins d'application des dispositions du sous-alinéa *b*, ii ou *b*, iii, du paragraphe 1 de l'article premier du présent Protocole, toute marchandise originaire du territoire d'un Etat partie à l'Accord est réputée être, à l'exportation vers le territoire d'un autre Etat partie à l'Accord, une marchandise non originaire pendant la ou les périodes au cours desquelles l'Etat partie mentionné en dernier applique aux produits de cette catégorie le taux de droit applicable aux pays tiers ou toute mesure de sauvegarde correspondante conformément à l'Accord.

## ANNEXE I AU PROTOCOLE B

*Notes explicatives**Note 1 : Article premier*

Les mots « Etat partie à l'Accord » s'entendent aussi des eaux territoriales de cet Etat.

Les navires opérant en haute mer (y compris les navires-usines) et à bord desquels les poissons pêchés sont préparés ou transformés sont réputés faire partie du territoire de l'Etat partie au présent Accord auquel ils appartiennent, à condition de remplir les conditions énoncées dans la note 4 ci-après.

*Note 2 : Articles premier, 2 et 4*

Les conditions énoncées à l'article premier concernant l'acquisition du statut de produit originaire doivent être remplies sans interruption dans un Etat partie à l'Accord, sauf comme prévu à l'article 2.

Si des produits originaires exportés d'un Etat partie à l'Accord à destination d'un autre pays sont renvoyés, sauf dans les conditions prévues à l'article 2, ils devront être considérés comme non originaires à moins qu'il ne puisse être démontré à la satisfaction des douanes :

- Que les marchandises retournées sont les mêmes que celles qui ont été exportées, et
- Qu'elles n'ont subi aucune opération allant au-delà de celles nécessaires pour les conserver en bon état durant leur séjour dans cet autre pays.

*Note 3 : Articles premier et 2*

Pour déterminer si les marchandises sont des produits originaires, il n'est pas nécessaire d'établir si l'électricité et le combustible, les immobilisations ainsi que les machines et les outils utilisés pour obtenir ces produits sont originaires ou non de pays tiers.

*Note 3 : Article 4 f*

Les mots « ses navires » s'appliquent seulement :

- a) Aux navires qui sont immatriculés ou enregistrés dans un Etat partie à l'Accord;
- b) Aux navires qui battent pavillon d'un Etat partie à l'Accord;
- c) Aux navires qui sont, pour 50% au moins, la propriété de ressortissants d'un Etat partie à l'Accord ou d'une entreprise dont le siège est situé dans un tel Etat, dont le ou les directeurs, le président du conseil d'administration et la majorité des membres de ce conseil sont des ressortissants d'un Etat partie à l'Accord et dont, en outre, dans le cas des sociétés de personnes ou des sociétés à responsabilité limitée, la moitié au moins du capital appartient à un tel Etat ou à des organismes publics ou à des ressortissants d'un tel Etat;
- d) Aux navires dont le capitaine et les officiers ont tous la nationalité d'un Etat partie à l'Accord;
- e) Aux navires dont 75% au moins des membres de l'équipage sont des ressortissants d'un Etat partie à l'Accord.

*Note 5 : Articles 4 et 5*

1. L'unité retenue pour l'application des règles d'origine est le produit considéré comme l'unité de base pour son classement au moyen de la nomenclature du Système harmonisé. Dans le cas d'ensembles de produits classés en application de la règle générale 3, l'unité est déterminée pour chaque élément de l'ensemble; ceci vaut aussi pour les séries des rubriques 6308, 8206 et 9605.

Il en découle que :

- Lorsqu'un produit composé d'un groupe ou d'un ensemble d'articles est classé conformément au Système harmonisé sous une rubrique unique, le tout constitue l'unité.
- Lorsqu'un colis est composé d'un certain nombre de produits identiques classés sous la même rubrique du Système harmonisé, les règles d'origine doivent être appliquées individuellement à chaque produit.

2. Si, conformément à la règle générale 5 du Système harmonisé, l'emballage est inclus dans le produit aux fins de la classification, il l'est pour la détermination de l'origine.

*Note 5 a : Alinéa h de l'article 4*

Dans le cas des pneumatiques usagés, les mots « articles usagés recueillis dans ce pays et qui ne peuvent servir à la récupération des matières premières » ne désignent pas seulement les pneumatiques usagés propres uniquement à la récupération des matières premières mais aussi les pneumatiques usagés qui ne peuvent qu'être rechapés ou utilisés comme déchets.

*Note 6 : Paragraphe 2 de l'article 5*

Les notes liminaires à l'Annexe II s'appliquent aussi le cas échéant à tous les produits fabriqués à partir de matières non originaires même s'ils sont soumis non pas à une condition spécifique figurant dans la liste de l'Annexe II mais à la modification de la règle de classement définie au paragraphe 2 de l'article 5.

*Note 7 : Article 6*

Les mots « prix départ usine » désignent le prix payé au fabricant dans l'entreprise duquel est effectuée la dernière ouvraison ou transformation, à condition que ce prix englobe la valeur de tous les produits entrant dans la fabrication.

Les mots « valeur en douane » s'entendent de la valeur en douane définie conformément à l'Accord relatif à la mise en œuvre de l'article VII de l'Accord général sur les tarifs douaniers et le commerce, fait à Genève le 12 avril 1979.

*Note 8 : Paragraphe 1 de l'article 8*

La possibilité prévue par le présent Protocole d'utiliser la facture comme preuve du statut d'origine des marchandises s'étend au bordereau de livraison ou tout autre document commercial qui décrit les marchandises considérées de manière suffisamment détaillée pour permettre leur identification.

Dans le cas des produits envoyés par la poste qui, au sens des dispositions du paragraphe 2 de l'article 8, ne sont pas considérés comme des importations commerciales, la déclaration du statut d'origine peut aussi être faite sur la déclaration de douane C2/CP3 ou sur une feuille libre jointe en annexe à cette déclaration.

*Note 9 : Paragraphe 1 de l'article 17 et article 22*

Lorsqu'un certificat EUR.1 a été délivré conformément aux conditions définies au paragraphe 3 de l'article 9 et qu'il concerne des marchandises réexportées telles quelles, les autorités douanières du pays de destination doivent pouvoir obtenir, par voie de coopération administrative, des copies certifiées conformes de l'attestation d'origine établie antérieurement pour ces marchandises.

*Note 10 : Article 23*

Par « inconvénients de droits de douane » ou « exonération de droits de douane de quelque nature que ce soit », on entend tout arrangement prévoyant le remboursement ou l'exonération, partiellement ou complètement, des droits de douane applicables aux produits utilisés pour la fabrication, à condition que cette disposition accorde, expressément ou dans les faits, le remboursement ou le non-prélèvement ou la non-imposition, si les marchandises obtenues à partir desdits produits sont exportées et non pas conservées pour usage interne.

Les mots « produits . . . qui servent à fabriquer » s'entendent de tous produits qui subissent les « inconvénients de droits de douane » ou bénéficient d'« une exonération des droits de douane de quelque nature que ce soit », parce qu'il y a exportation des produits d'origine au sujet desquels sont fournis ou établis des certificats EUR.1 ou des certificats LT ou les factures concernant les certificats LT ou une facture sur laquelle figure la déclaration de l'exportateur.

L'article 12 de l'Accord s'applique à la Suisse et au Liechtenstein en ce qui concerne les monopoles d'Etat sur le sel et la poudre, et le monopole de l'Islande sur les engrais uniquement dans la mesure où ces Etats doivent s'acquitter des obligations correspondantes prévues par l'Accord entre les pays de l'AELE et la Communauté européenne ainsi que ses Etats membres de la Zone économique européenne.

L'article 12 s'appliquera au plus tard à compter du 1<sup>er</sup> janvier 1995 au sujet du monopole de l'Autriche sur le sel.

PROTCOLE E RELATIF AU TRAITEMENT QUE LE LIECHTENSTEIN ET  
LA SUISSE PEUVENT APPLIQUER AUX IMPORTATIONS DE CER-  
TAINS PRODUITS SOUMIS AU RÉGIME DE CONSTITUTION DE  
RÉSERVES OBLIGATOIRES

Le Liechtenstein et la Suisse peuvent soumettre à un régime de réserves obligatoires les produits qui sont indispensables à la survie de la population et, dans le cas de la Suisse, à l'armée en période de grave pénurie, dont la production est insuffisante ou non existante au Liechtenstein et en Suisse, et dont les caractéristiques et la nature permettent la constitution de réserves.

Le Liechtenstein et la Suisse appliquent ce régime de manière à ne pas provoquer de discrimination, directe ou indirecte, entre les produits importés des autres États parties à l'Accord d'une part, et les produits analogues ou les produits de substitution d'origine nationale d'autre part.

## ANNEXE XVI VISÉE À L'ARTICLE 33

## APPLICATION DE L'ARTICLE 23 DE L'ACCORD ENTRE L'AELE ET LA HONGRIE

1. Etant donné que les droits de douane applicables aux produits industriels ont déjà été supprimés dans les échanges entre la Finlande et la Hongrie en vertu de l'Accord Finlande-Hongrie, les règles ci-après relatives à l'article 23 sont applicables.

Avant de prendre des mesures exceptionnelles autorisées au titre de l'article 23 du présent Accord en ce qui concerne les produits en provenance de la Finlande, la Hongrie en informe la Finlande et, à la demande de la Finlande, des consultations ont lieu au sujet de l'application des mesures prévues touchant les importations en provenance de la Finlande.

## ACCORD FINLANDE-HONGRIE

2. L'admission en franchise prévue au titre de l'Accord Finlande-Hongrie est accordée dans le cadre des échanges entre les deux pays sur présentation de la déclaration d'origine prévue par les règles d'origine définies dans ledit accord.

3. La déclaration d'origine n'est émise en Finlande ou en Hongrie que pour les produits visés par les règles d'origine dudit accord.

4. Les règles d'origine permettent d'utiliser des matières en provenance de la Finlande et de la Hongrie (cumul bilatéral) alors que les matières en provenance d'autres pays de l'AELE sont considérées comme ayant pour origine un pays tiers.

## ACCORD AELE-HONGRIE

5. Le traitement prévu au titre de l'Accord AELE-Hongrie est accordé dans les échanges entre la Finlande et la Hongrie sur présentation de la preuve de l'origine telle que prévue par l'Accord (EUR.1 et déclaration de facture).

6. La preuve de l'origine est émise en Finlande ou en Hongrie pour les produits visés par les règles d'origine dudit accord.

7. Les règles d'origine permettent d'utiliser des matières en provenance d'autres pays de l'AELE et, sous réserve des dispositions du paragraphe 2 de l'article 1 du Protocole B, en République tchèque, en Pologne et en République slovaque.

DÉCLARATION CONJOINTE DES PAYS DE L'AELE ET DE LA HONGRIE  
AU SUJET DE L'EXTENSION DES RÈGLES D'ORIGINE

Les pays de l'AELE et la Hongrie conviennent de rechercher les possibilités d'étendre et d'améliorer les règles d'origine, y compris ce qui concerne le cumul, afin d'accroître et d'améliorer la production et le commerce à l'intérieur de l'Europe.

## MÉMORANDUM D'ACCORD RELATIF À L'ACCORD ENTRE LES PAYS DE L'AELE ET LA RÉPUBLIQUE DE HONGRIE

1. Les pays de l'AELE et la Hongrie reconnaissent qu'il existe un certain parallélisme entre leurs niveaux de concessions concernant les obstacles tarifaires, les restrictions quantitatives, les redevances et les mesures ayant un effet équivalent à la date d'entrée en vigueur de l'accord de libre-échange entre les pays de l'AELE et la Hongrie et de l'Accord instituant une association entre la Hongrie et la Communauté économique européenne. Les pays de l'AELE et la Hongrie reconnaissent en outre qu'il convient de maintenir l'essentiel de ce parallélisme pendant toute la période de transition. La possibilité d'appliquer un tel parallélisme aux concessions échangées dans des conditions spéciales sera examinée par la Commission mixte.

2. Les Etats parties à l'Accord ont pris note de ce qu'en vertu de l'Accord entre les pays de l'AELE et les Communautés européennes concernant la Zone économique européenne, les obstacles au commerce de certains biens industriels seront encore atténués et le libre-échange sera étendu à des produits nouveaux. Après l'entrée en vigueur de l'Accord, la possibilité de libéraliser le commerce de ces produits dans les échanges commerciaux entre Etats parties à l'Accord sera considérée par la Commission mixte qui décidera des ajustements correspondants à apporter aux annexes pertinentes de l'Accord, compte tenu de toute concession échangée dans des conditions spéciales entre les pays de l'AELE et les Communautés européennes. Les pays de l'AELE se déclarent prêts à examiner, dans le cadre de la Commission mixte, la poursuite de la libéralisation du commerce des marchandises si une telle libéralisation doit survenir dans les relations entre les pays de l'AELE et les Communautés européennes.

3. Les pays de l'AELE et la Hongrie conviennent de ce que les dispositions de l'article 23 du Protocole B ne s'appliqueront pas avant le 1<sup>er</sup> janvier 1994. A la demande d'un Etat partie à l'Accord, des consultations devront avoir lieu au sujet de tout effet négatif qui résulterait d'une telle dérogation et ceci en vue d'une solution satisfaisante. Cette dérogation, y compris la possibilité de consultations, sera maintenue par la Commission mixte à condition que rien ne soit modifié aux pratiques actuelles entre la Hongrie et les Communautés européennes.

4. Les pays de l'AELE et la Hongrie conviennent de coordonner étroitement ce qu'ils accomplissent pour former les intéressés à l'application de la procédure simplifiée qui est définie dans le Protocole B et concerne la délivrance, le contrôle et la vérification des preuves d'origine, pour leur permettre d'être autorisés à la suivre. L'application de cette procédure sera restreinte et soumise aux délibérations de la Sous-Commission des questions d'origine et de douane.

5. La Hongrie notifiera aux pays de l'AELE tous les arrangements pris pour instaurer la coopération administrative entre la Hongrie, la Pologne, la République slovaque et la République tchèque aux fins de l'application du Protocole B et des changements à ce Protocole.

6. Au sujet des marchandises qui sont exportées à partir d'un pays de l'AELE pour être transformées (transformation à l'étranger) en Hongrie et sont transformées dans ce pays (transformation dans le pays), ou inversement, les Etats parties à l'Accord se déclarent prêts à examiner dès que possible les arrangements selon lesquels :

- Ces marchandises seront admises hors droits de douane en Hongrie ou dans un pays de l'AELE, selon le cas, pour y être transformées, à condition qu'elles soient réexportées;
- Les produits résultant de cette transformation seront admis totalement ou en partie hors droits de douane et redevances ayant un effet équivalent sur les importations dans un pays de l'AELE ou la Hongrie, selon le cas.

7. Les Etats parties à l'Accord ont pris note de la déclaration unilatérale que la Hongrie a faite dans l'Accord instituant une association entre la Hongrie et la Communauté économique européenne et selon laquelle la valeur des importations exonérées des droits de douane en Hongrie en provenance des Communautés européennes, à compter du 1<sup>er</sup> janvier 1994, s'élèvera au moins à 25% de toutes les importations industrielles des Communautés européennes. Au cas où la Hongrie, pour s'acquitter de cet engagement, ajouterait de nouveaux produits à la liste des articles exemptés de droits, elle tiendra compte autant que possible des intérêts commerciaux des pays de l'AELE pour choisir ces produits. La Commission mixte décidera des ajustements correspondants à apporter aux annexes pertinentes à l'Accord, compte tenu de toute concession échangée dans des conditions spéciales entre la Hongrie et les Communautés européennes et visée au paragraphe 1.

8. Les Etats parties à l'Accord ont noté que, conformément aux dispositions de l'Annexe VI a à l'Accord instituant une association entre la Hongrie et les Communautés européennes, la Hongrie, à compter du 1<sup>er</sup> janvier 1995 et jusqu'au 31 décembre 1997, éliminera les restrictions quantitatives aux importations, originaires des pays des Communautés européennes, de produits qui continuent de faire l'objet de telles restrictions au 31 décembre 1994, à concurrence de 40% de ses importations en Hongrie provenant de la Communauté européenne, d'après les dernières statistiques annuelles disponibles. Au cas où des produits seraient rayés de l'Annexe VI a à l'Accord instituant une association entre la Hongrie et la Communauté économique européenne, dans la mesure du possible, la Hongrie tiendra compte des intérêts commerciaux des pays de l'AELE. La Commission mixte décidera des ajustements correspondants à apporter aux annexes pertinentes à l'Accord, compte tenu de toute concession échangée dans des conditions spéciales entre la Hongrie et les Communautés européennes, conformément aux dispositions du paragraphe 1.

9. A compter du 1<sup>er</sup> janvier 1998 et jusqu'au 31 décembre 2000 au plus tard, la Hongrie éliminera toutes les restrictions quantitatives qui subsisteraient au sujet de produits figurant à l'Annexe IX à l'Accord.

10. Au cas où tout article textile ou article d'habillement importé en Hongrie serait soumis à des règles de contingentement en raison de négociations entre la Hongrie et les Communautés européennes, la Hongrie est prête à participer à des négociations à ce sujet avec les pays intéressés de l'AELE.

11. Le droit de l'Islande de conserver des droits de douane de caractère fiscal visé au Tableau I du Protocole C conformément aux dispositions de l'article 7 ne doit pas avoir pour résultat que les produits visés à ce tableau reçoivent, dans le cas de la Hongrie, un traitement moins favorable que celui qui est accordé par l'Islande à la Communauté économique européenne.

12. Les pays de l'AELE et la Hongrie conviennent que les mesures visées à l'article 11 de l'Accord et ayant pour objet la protection de l'environnement peuvent s'appliquer dans la mesure admise par l'article XX de l'Accord général sur les tarifs douaniers et le commerce et par tout autre instrument pertinent négocié sous ses

auspices et applicable entre les Etats parties à l'Accord dans la mesure autorisée par l'Accord instituant une association entre la Hongrie et les Communautés européennes.

13. La Hongrie peut appliquer des restrictions au sens du paragraphe 3 de l'article 16 uniquement dans la mesure autorisée par son accord sous les auspices du FMI.

14. Pour définir les catégories d'entités visées par l'article 17, les Etats parties à l'Accord se guident par les définitions des Communautés européennes.

15. Aux fins de l'interprétation du paragraphe 3 de l'article 30, les Etats parties à l'Accord conviennent que l'adjectif « supérieure » concerne le niveau de l'aide accordée au moyen des mesures visées à l'alinéa *c* de l'Annexe XV et que l'application de mesures normalement incompatibles avec les dispositions de l'alinéa *d* conçues pour favoriser la restructuration de l'économie hongroise est considérée comme incompatible avec les dispositions du paragraphe 1 de l'article 20, à condition qu'elles ne soient pas compatibles avec les règles concernant l'aide de l'Etat prévue dans l'Accord d'association entre la Hongrie et les Communautés européennes, accordée selon les règles visées au paragraphe 3 de l'article 62 de cet Accord.

16. En ce qui concerne le paragraphe 3 de l'article 20, la Commission mixte décidera de proroger de cinq ans en cinq ans l'application de ses dispositions à condition que le Conseil d'association Hongrie/Communautés européennes prenne une décision similaire à celle dont il est question à l'alinéa *a* du paragraphe 4 de l'article 62 de l'Accord instituant une association entre la Hongrie et la Communauté économique européenne.

17. Les pays de l'AELE et la Hongrie conviennent de ce que les dispositions du paragraphe 6 de l'article 20 de l'Accord doivent être appliquées de la même manière et aussi longtemps que celles du deuxième alinéa du paragraphe 6 de l'article 62 de l'Accord instituant une association entre la Hongrie et la Communauté économique européenne.

18. Les pays de l'AELE et la Hongrie conviennent de ce que, dans les cas où les importations, sur le territoire d'un Etat partie à l'Accord, de produits textiles ayant leur origine dans un autre Etat partie à l'Accord ont lieu dans les conditions et provoquent les inconvénients définis au paragraphe 2 de l'article 8 du Protocole additionnel à l'Accord entre la Hongrie et la Communauté économique européenne sur le commerce des produits textiles, les pays de l'AELE ou la Hongrie, selon le cas, peuvent recourir au mécanisme de sauvegarde prévu par cet article conformément aux modalités définies à l'article 26 de l'Accord.

Aux fins du présent Mémoire d'accord, les mesures appropriées peuvent consister :

*a)* Soit en la réadoption temporaire du plus bas des deux droits suivants : le droit de base visé à l'article 5 de l'Accord, ou le droit appliqué effectivement à la nation la plus favorisée, sur les importations excédant un niveau qui en aucun cas ne peut être inférieur à 110% du niveau des importations de l'Etat partie importateur au cours des douze derniers mois de la période de douze mois, ou, si l'on ne dispose pas de chiffres concernant ces deux derniers mois, au cours des trois mois précédant le mois au cours duquel la demande de consultation est faite, concernant le produit en question ayant son origine dans l'autre Etat partie;

b) Soit en l'imposition par la Hongrie d'une limite quantitative qui ne peut en aucun cas être inférieure à 110% du niveau des importations de la Hongrie au cours des deux derniers mois de la période de douze mois, ou, si l'on ne dispose pas de chiffres concernant ces deux derniers mois, au cours des trois mois qui ont précédé celui au cours duquel la demande de consultation a été faite, concernant le produit en question ayant son origine dans l'autre Etat partie.

Il n'est possible dans aucun cas d'invoquer le mécanisme de sauvegarde mentionné ci-dessus, ou d'appliquer des mesures en vertu de ce mécanisme après la période prévue pour l'élimination de toutes les restrictions quantitatives et mesures d'effet équivalent sur le commerce des textiles, entre la Hongrie et la Communauté économique européenne, qui sont définies dans ledit Protocole entre la Hongrie et la Communauté économique européenne.

Les pays de l'AELE et la Hongrie conviennent en outre qu'en aucun cas des obstacles non tarifaires ne seront affixés au commerce des produits textiles entre les pays de l'AELE et la Hongrie après la période de transition visée à l'article premier de l'Accord.

A la demande de l'un quelconque des Etats parties à l'Accord, des consultations auront lieu sans retard au sujet de tout problème posé par le commerce de produits textiles ou d'habillement.

19. En cas de désaccord au sujet de la valeur réelle des importations de produits industriels visés au paragraphe 3 de l'article 23, les statistiques internationales, par exemple celles de la Commission économique pour l'Europe de l'ONU, du GATT ou de l'OCDE serviront de base.

20. Les pays de l'AELE et la Hongrie estiment qu'une procédure d'arbitrage peut être envisagée en cas de différends qui ne peuvent être réglés par des consultations entre les Etats parties intéressés ou dans le cadre de la Commission mixte. Une telle possibilité, entre autres au sujet de l'article 19, sera examinée plus avant par la Commission mixte.

21. Conformément à l'Accord général sur les tarifs douaniers et le commerce, en particulier son article premier et ses protocoles et annexes, ainsi que les accords connexes qui sont applicables entre les Etats parties à l'Accord, ceux-ci veilleront à ce qu'à dater de l'entrée en vigueur de l'Accord, ces mesures ne s'appliquent pas de manière discriminatoire à l'égard d'un Etat quelconque partie à l'Accord en ce qui concerne toutes les conditions, règles et formalités liées aux importations et aux exportations, y compris les modalités d'octroi de licences d'importation.

22. Compte tenu de ce qui a lieu dans d'autres enceintes internationales ainsi que dans leurs relations individuelles avec les Communautés européennes, ainsi que de l'importance croissante des domaines étroitement liés au commerce des marchandises, les pays de l'AELE et la Hongrie examineront périodiquement, dans un cadre approprié, entre les Etats parties intéressés, les possibilités d'étendre leurs relations économiques à des domaines dépassant le commerce des marchandises. Les Etats parties à l'Accord se notifient immédiatement tout fait nouveau dans ce domaine, particulièrement ceux qui sont liés à leurs rapports avec les Communautés européennes.
